SUPPLEMENTARY INFORMATION:

Background

On January 30, 2015, Commerce published its AD order and CVD order on calcium hypochlorite from China.¹ On December 2, 2019, the ITC instituted,² and Commerce initiated,³ the first sunset reviews of the *Orders*, pursuant to section 751(c) of the Tariff Act of 1930, as amended (the Act). As a result of its review, Commerce determined that revocation of the *Orders* would likely lead to continuation or recurrence of dumping and countervailing subsidies and, therefore, notified the ITC of the magnitude of the margins and net countervailable subsidy rates likely to prevail should the *Orders* be revoked.⁴

On June 23, 2020, the ITC published its determination, pursuant to sections 751(c) and 752(a) of the Act, that revocation of the *Orders* would likely lead to continuation or recurrence of material injury to an industry in the United States within a reasonably foreseeable time.⁵

Scope of the Orders

The product covered by the *Orders* is calcium hypochlorite, regardless of form (e.g., powder, tablet (compressed), crystalline (granular), or in liquid solution), whether or not blended with other materials, containing at least 10 percent available chlorine measured by actual weight. The scope also includes bleaching powder and hemibasic calcium hypochlorite.

Calcium hypochlorite has the general chemical formulation Ca(OCl)₂, but may also be sold in a more dilute form as bleaching powder with the chemical formulation, Ca(OCl)₂·CaCl₂·Ca(OH)₂·2H₂O or

hemibasic calcium hypochlorite with the chemical formula of 2Ca(OCl)₂·Ca(OH)₂ or Ca(OCl)₂·2.0.5Ca(OH)₂. Calcium hypochlorite has a Chemical Abstract Service (CAS) registry number of 7778-54-3, and a U.S. Environmental Protection Agency (EPA) Pesticide Code (PC) Number of 014701. The subject calcium hypochlorite has an International Maritime Dangerous Goods (IMDG) code of Class 5.1 UN 1748, 2880, or 2208 or Class 5.1/8 UN 3485, 3486, or 3487.

Calcium hypochlorite is currently classifiable under the subheading 2828.10.0000 of the Harmonized Tariff Schedule of the United States (HTSUS). The subheading covers commercial calcium hypochlorite and other calcium hypochlorite. When tableted or blended with other materials, calcium hypochlorite may be entered under other tariff classifications, such as 3808.94.5000 and 3808.99.9500, which cover disinfectants and similar products. While the HTSUS subheadings, the CAS registry number, the U.S. EPA PC number, and the IMDG codes are provided for convenience and customs purposes, the written description of the scope of the *Orders* is dispositive.

Continuation of the Orders

As a result of the determinations by Commerce and the ITC that revocation of the *Orders* would likely lead to a continuation or a recurrence of dumping and countervailable subsidies, as well as material injury to an industry in the United States, pursuant to section 751(d)(2) of the Act, Commerce hereby orders the continuation of the *Orders*.

U.S. Customs and Border Protection will continue to collect AD and CVD cash deposits at the rates in effect at the time of entry for all imports of subject merchandise. The effective date of the continuation of the *Orders* will be the date of publication in the **Federal Register** of this notice of continuation. Pursuant to section 751(c)(2) of the Act, Commerce intends to initiate the next five-year reviews of the *Orders* not later than 30 days prior to the fifth anniversary of the effective date of continuation.

Notification to Interested Parties

These five-year sunset reviews and this notice are in accordance with section 751(c) of the Act and published in accordance with section 777(i)(1) of the Act and 19 CFR 351.218(f)(4).

Dated: June 24, 2020.

Assistant Secretary for Enforcement and Compliance.

the POR.³ No other party requested an administrative review of the *Order*. On January 17, 2020, in accordance with section 751(a) of the Tariff Act of 1930, as amended (the Act) and 19 CFR 351.221(c)(1)(i), Commerce published in the **Federal Register** a notice of initiation of an administrative review.⁴ On March 5, 2020, Commerce issued its initial antidumping questionnaire to Golden Dragon.⁵ On April 8, 2020, Golden Dragon timely withdrew its request for an administrative review.⁶ On April 24, 2020, Commerce tolled all deadlines in administrative reviews by 50 days, due to COVID-19.⁷

Rescission of Review

Pursuant to 19 CFR 351.213(d)(1), Commerce will rescind an administrative review, in whole or in part, if the party that requested the review withdraws its request within 90 days of the date of publication of the notice of initiation of the requested review. In this case, Golden Dragon withdrew its request by the 90-day deadline, and no other party requested an administrative review of the *Order* with respect to Golden Dragon. Therefore, we are rescinding the administrative review of the *Order* for the period November 1, 2018 through October 31, 2019, in its entirety.

Assessment

Notification To Importers

This notice serves as a final reminder to importers of their responsibility under 19 CFR 351.402(f)(2) to file a certificate regarding the reimbursement of antidumping duties prior to liquidation of the relevant entries during this review period. Failure to comply with this requirement could result in Commerce's presumption that reimbursement of the antidumping duties occurred and the subsequent assessment of doubled antidumping duties.

This notice also serves as a reminder to parties subject to administrative protective order (APO) of their responsibility concerning the disposition of proprietary information disclosed under APO in accordance with 19 CFR 351.305(a)(3).
