SUPPLEMENTARY INFORMATION: This notice informs the public that HUD is seeking approval from OMB for the information collection described in Section A.

A. Overview of Information Collection

Title of Information Collection: Rehabilitation Mortgage Insurance Underwriting Program Section 203(k).
OMB Approval Number: 2502-0527.
Type of Request: Extension.
Form Number: HUD-92700-A, HUD-9746-A.

Description of the need for the information and proposed use: This request for OMB review involves an extension request for information collected under OMB Approval Number 2502-0527 for lenders that originate and service Section 203(k) mortgages.

The Section 203(k) program requires mortgagees to collect information about the scope of repair and improvement work, its cost, and control of escrow funds to pay for the improvements as they are completed. This program operates in conjunction with FHA's underwriting standards and systems for all Section 203(b) loans as documented in OMB Control Numbers 2502-0059 & 2502-0556. Per the existing collection, there are 1,312 respondents made up of participating lenders and 203(k) Consultants.

Respondents (i.e., affected public): Business or other for-profit.

Estimated Number of Respondents: 1,312.

Estimated Number of Responses: 211,667.

Frequency of Response: On occasion (Once per loan).

Average Hours per Response: 0.85.

Total Estimated Burdens: 188,516.

B. Solicitation of Public Comment

This notice is soliciting comments from members of the public and affected parties concerning the collection of information described in Section A on the following:

- (1) Whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility;
- (2) The accuracy of the agency's estimate of the burden of the proposed collection of information;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and
- (4) Ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated collection

techniques or other forms of information technology, e.g., permitting electronic submission of responses.

HUD encourages interested parties to submit comments in response to these questions.

C. Authority

Section 2 of the Paperwork Reduction Act of 1995, 44 U.S.C. 3507.

Dated: June 29, 2020.

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[Docket No. FWS-R8-ES-2020-0049; FF08ESMF00-FXES1114080000-201]

Endangered and Threatened Wildlife and Plants; Central 40 Solar Project, Stanislaus County, California; Categorical Exclusion and Draft Habitat Conservation Plan

AGENCY: Fish and Wildlife Service, Interior.

ACTION: Notice of availability of permit application; request for comment.

SUMMARY: We, the U.S. Fish and Wildlife Service, announce the availability of a draft categorical exclusion under the National Environmental Policy Act. We also announce receipt of an application for an incidental take permit under the Endangered Species Act (ESA), and receipt of a draft habitat conservation plan. Central 40, LLC has applied for an incidental take permit under the ESA for the Central 40 Solar Project in Stanislaus County, California. The permit would authorize the take of two species incidental to the development, construction, operation and maintenance, and decommissioning of the project. We invite the public and local, State, Tribal, and Federal agencies to comment on the application. Before issuing the requested permit, we will take into consideration any information that we receive during the public comment period.

DATES: We must receive your written comments on or before August 3, 2020.

ADDRESSES: *Obtaining Documents:* The incidental take permit (ITP) application, draft categorical exclusion (draft CatEx), draft habitat conservation plan (draft HCP), and any comments and other materials that we receive are available for public inspection at <http://>

www.regulations.gov in Docket No. FWS-HQ-ES-2020-0049.

Submitting Comments: To send written comments, please use one of the following methods, and note that your information request or comments are in reference to the draft CatEx, draft HCP, or both.

- **Internet:** Submit comments at <http://www.regulations.gov> under Docket No. FWS-R8-ES-2020-0049.

- **U.S. Mail:** Public Comments Processing, Attn: Docket No. FWS-R8-ES-2020-0049; U.S. Fish and Wildlife Service Headquarters, MS: PRB/3W; 5275 Leesburg Pike; Falls Church, VA 22041-3803.

For more information, see Public Comments and Public Availability of Comments under **SUPPLEMENTARY INFORMATION**.

FOR FURTHER INFORMATION CONTACT: Timothy Ludwick, Senior Wildlife Biologist, or Patricia Cole, Chief, San Joaquin Valley Division, Sacramento Fish and Wildlife Office, by phone at 916-414-6600 or via the Federal Relay Service at 800-877-8339.

SUPPLEMENTARY INFORMATION: We, the U.S. Fish and Wildlife Service (Service), announce the availability of a draft categorical exclusion (draft CatEx), prepared pursuant to the National Environmental Policy Act of 1969, as amended (NEPA; 42 U.S.C. 4321 *et seq.*), and its implementing regulations in the Code of Federal Regulations (CFR) at 40 CFR 1506.6. This notice also announces the receipt of an application from Central 40, LLC (applicant), for a 35-year incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). Application for the permit requires the preparation of a habitat conservation plan (HCP) with measures to avoid, minimize, and mitigate the impacts of incidental take to the maximum extent practicable. The applicant prepared the draft Central 40 Solar Project HCP pursuant to section 10(a)(1)(B) of the ESA. The purpose of the CatEx is to assess the effects of issuing the permit and implementing the draft HCP on the natural and human environment.

Background

Section 9 of the ESA (16 U.S.C. 1531-1544 *et seq.*) prohibits the taking of fish and wildlife species listed as endangered under section 4 of the ESA; by regulation, take of certain species listed as threatened is also prohibited. (16 U.S.C. 1533(d); 50 CFR 17.31). Regulations governing permits for endangered and threatened species are at 50 CFR 17.22 and 17.32. For more

about the Federal habitat conservation plan (HCP) program, go to <http://www.fws.gov/endangered/esa-library/pdf/hcp.pdf>.

National Environmental Policy Act Compliance

The proposed permit issuance triggers the need for compliance with the National Environmental Policy Act of 1969, as amended (NEPA; 42 U.S.C. 4321 *et seq.*). The draft CatEx was prepared to analyze the impacts of issuing an ITP based on the draft HCP and to inform the public of the proposed action, any alternatives, and associated impacts, and to disclose any irreversible commitments of resources.

Proposed Action Alternative

Under the Proposed Action Alternative, the Service would issue an ITP to the applicant for a period of 35 years for certain covered activities (described below). The applicant has requested an ITP for two covered species (described below), which are listed as endangered or threatened under the ESA.

Habitat Conservation Plan Area

The geographic scope of the draft HCP encompasses 3,474 acres (ac) in western Stanislaus and Merced Counties where the development will occur, including the 1,044-ac parcel in Stanislaus County where development will occur and the 2,422-ac Piedra Azul Conservation Bank in Merced County, portions of which are being used to mitigate impacts from this development.

Covered Activities

The proposed section 10 ITP would allow incidental take of two covered species from covered activities in the proposed HCP area. The applicant is requesting incidental take authorization for covered activities, including site preparation, infrastructure development, construction, decommissioning, and management of the conservation easement area. The applicant is proposing to implement a number of project design features, including best management practices, as well as general and species-specific avoidance and minimization measures to minimize the impacts of the take from the covered activities.

Covered Species

The following two federally listed species are proposed to be included as covered species in the proposed HCP:

- San Joaquin kit fox (*Vulpes macrotis mutica*) (Federally listed as endangered).

- California tiger salamander—Central Valley Distinct Population Segment (*Ambystoma californiense*) (Federally listed as threatened and subject to a section 4(d) rule that prohibits take, with the exception of incidental take resulting from routine ranching activities located on private or Tribal lands, as defined in the regulation. 50 CFR 17.43(c)).

No-Action Alternative

Under the No-Action Alternative, the Service would not issue an ITP to the applicant, and the draft HCP would not be implemented. Under this alternative, the applicant may choose not to construct the facility or would do so in a manner presumed not to result in the take of ESA-listed species.

Public Comments

We request data, comments, new information, or suggestions from the public, other concerned governmental agencies, the scientific community, Tribes, industry, or any other interested party on this notice, the draft CatEx, and the draft HCP. We particularly seek comments on the following:

1. Biological information concerning the species;
2. Relevant data concerning the species;
3. Additional information concerning the range, distribution, population size, and population trends of the species;
4. Current or planned activities in the area and their possible impacts on the species;
5. The presence of archeological sites, buildings and structures, historic events, sacred and traditional areas, and other historic preservation concerns, which are required to be considered in project planning by the National Historic Preservation Act; and
6. Any other environmental issues that should be considered with regard to the proposed development and permit action.

Public Availability of Comments

Before including your address, phone number, or other personal identifying information in your comment, you should be aware that your entire comment—including your personal identifying information—might be made publicly available at any time. While you can ask us in your comment to withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Next Steps

Issuance of an incidental take permit is a Federal proposed action subject to

compliance with NEPA and section 7 of the ESA. We will evaluate the application, associated documents, and any public comments we receive as part of our NEPA compliance process to determine whether the application meets the requirements of section 10(a) of the ESA. If we determine that those requirements are met, we will conduct an intra-Service consultation under section 7 of the ESA for the Federal action for the potential issuance of an ITP. If the intra-Service consultation confirms that issuance of the ITP will not jeopardize the continued existence of any endangered or threatened species, or destroy or adversely modify critical habitat, we will issue a permit to the applicant for the incidental take of the covered species.

Authority

We publish this notice under the National Environmental Policy Act of 1969, as amended (42 U.S.C. 4321–4347 *et seq.*), and its implementing regulations at 40 CFR 1500–1508, as well as in compliance with section 10(c) of the Endangered Species Act (16 U.S.C. 1531–1544 *et seq.*) and its implementing regulations at 50 CFR 17.22 and 17.32.

Michael Fris,

Acting Field Supervisor, Sacramento Fish and Wildlife Office, U.S. Fish and Wildlife Service, Sacramento, California.
