*OMB Control No.:* TBD.

*Type of Request:* Request for Emergency Processing and Approval Pursuant to 5 CFR 1320.13.

*Abstract:* In the Energy Policy Act of 1992, Congress required the Commission to develop a simplified method for changing oil pipeline rates. In response, the Commission established an indexing methodology that allows oil pipelines to change rates based upon an annual industry-wide index.<sup>1</sup> The Commission committed to review the index level every five years to ensure that the index level continues to reflect annual industry-wide cost changes.<sup>2</sup> In Order No. 561 and each successive five-year review, the Commission calculated the index level based upon the Kahn Methodology, which determines the differences over the prior five-year period between changes in costs reported on page 700
