SUPPLEMENTARY INFORMATION:

Description: Through AMCS, ACF seeks to learn more about how states and communities coordinate early care and education, family economic security, and/or other health and human services to most efficiently and effectively serve the needs of low-income children and their families. ACF aims to understand strategies used to support partnerships, including the Federal barriers to agency collaboration. In support of achieving these goals, the study team is conducting “virtual site

visits” with six programs that offer coordinated services. The study team will gather information through interviews with program staff members, such as agency leaders or frontline staff, and focus groups with parents.

Data collection activities will include up to six program “virtual site visits.” “Virtual site visits” include semi-structured interviews with up to 30 total staff at each site and focus groups with 8–10 parents at each site. Semi-structured interviews with program and partner staff will obtain in-depth information about the goals and objectives of programs, the services provided, how the coordinated services are implemented, how staffing is managed, data use, and any facilitators and barriers to coordination. Focus groups with parents participating in the program will provide the opportunity to

learn about how parents perceive the program; how it meets their needs; what benefits they gain from the program; and how they enroll, participate, and progress through the program.

Respondents: Lead program and partner program staff members working in six programs across the United States that coordinate early care and education services with family economic security services and/or other health and human services, as well as parents receiving services from these programs. Staff respondents will be selected with the goal of having staff represent each level of the organization. Parents who have participated in the program for at least 6 months and who receive early childhood services and at least one other program service will be invited to participate in focus groups.

SUPPLEMENTARY INFORMATION:

Description: Under title IV–B, subparts 1 and 2, of the Social Security Act (the Act), states, territories, and tribes are required to submit a CFSP. The CFSP lays the groundwork for a system of coordinated, integrated, and culturally relevant family services for the subsequent five years (45 CFR 1357.15(a)(1)). The CFSP outlines initiatives and activities the state, tribe or territory will carry out in administering programs and services to promote the safety, permanency, and well-being of children and families, including, as applicable, those activities conducted under the John H. Chafee Foster Care Program for Successful Transition to Adulthood (Section 477 of the Act); and the state grant authorized by the Child Abuse Prevention and Treatment Act. By June 30 of each year,

states, territories, and tribes are also required to submit an APSR and a financial report called the CFS-101. The APSR is a yearly report that discusses progress made by a state, territory or tribe in accomplishing the goals and objectives cited in its CFSP (45 CFR 1357.16(a)). The APSR contains new and updated information about service needs and organizational capacities throughout the five-year plan period and, beginning with the submission due on June 30, 2021, will also include information on the use of the Family First Transition Grants and Funding Certainty Grants authorized by the Family First Transition Act included in

Public Law (P.L.)116-94. The CFS-101 has three parts. Part I is an annual budget request for the upcoming fiscal year. Part II includes a summary of planned expenditures by program area for the upcoming fiscal year, the estimated number of individuals or families to be served, and the geographical service area. Part III includes actual expenditures by program area, numbers of families and individuals served by program area, and the geographic areas served for the last complete fiscal year. The revisions to the CFS-101 form are to streamline the data entry and to remove from Part III of the CFS-101 requests for prior year

estimates on use of funds that are not required by law.

Respondents: States, territories, and tribes must complete the CFSP, APSR, and CFS-101. Tribes and territories are exempted from the monthly caseworker visits reporting requirement of the CFSP/APSR. There are approximately 180 tribal entities that currently receive IV-B funding. There are 53 states (including the Commonwealth of Puerto Rico, the District of Columbia, and the Virgin Islands) that must complete the CFSP, APSR, and CFS-101. There are a total of 233 possible respondents.

This information collection request supports implementation of FDA’s Voluntary National Retail Food Regulatory Program Standards (the Program Standards). The Program Standards define nine essential elements of an effective regulatory program for retail food establishments, establish basic quality control criteria for each element, and provide a means of recognition for the State, local, territorial, tribal, and Federal regulatory programs that meet the Program Standards. The program elements addressed by the Program Standards are: (1) Regulatory foundation; (2) trained regulatory staff; (3) inspection program based on Hazard Analysis and Critical Control Point (HACCP) principles; (4) uniform inspection program, (5) foodborne illness and food defense preparedness and response; (6) compliance and enforcement; (7) industry and community relations; (8) program support and resources; and (9) program assessment. Each standard includes a list of records needed to document conformance with the standard (referred to in the Program Standards document as “quality records”) and has one or more corresponding forms and worksheets to facilitate the collection of information needed to assess the retail food
