[Docket No. EL20–57–000]

Cloverland Electric Cooperative v. Wisconsin Electric Power Company; Notice of Complaint

Take notice that on July 1, 2020, pursuant to sections 206, 306, and 309 of the Federal Power Act, 16 U.S.C. 824e, and 825e, and Rule 206 of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.206, Cloverland Electric Cooperative (Complainant) filed a formal complaint against Wisconsin Electric Power Company (Respondent), alleging that the current 11 percent return on equity of Wisconsin Electric Power Company is excessive and should be reduced, all as more fully explained in the complaint.

The Complainant certifies that copies of the complaint were served on the contacts listed for Respondent in the Commission's list of Corporate Officials.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. The Respondent's answer and all interventions, or protests must be filed on or before the comment date. The Respondent's answer, motions to intervene, and protests must be served on the Complainants.

The Commission strongly encourages electronic filings of comments, protests and interventions in lieu of paper using the "eFiling" link at <http://www.ferc.gov>. Persons unable to file electronically may mail similar pleadings to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426. Hand delivered submissions in docketed proceedings should be delivered to Health and Human Services, 12225 Wilkins Avenue, Rockville, Maryland 20852.

In addition to publishing the full text of this document in the **Federal Register**, the Commission provides all interested persons an opportunity to view and/or print the contents of this document via the internet through the Commission's Home Page (<http://www.ferc.gov>) using the "eLibrary" link.

Abstract: Denver Water is a public water system which must comply with applicable requirements of the lead and copper rule (LCR). On September 6, 2019 Denver Water submitted to the U.S. Environmental Protection Agency Region 8 office a request for a Variance from the optimal corrosion control treatment requirements under the Safe Drinking Water Act's LCR. The request included a multi-pronged approach to result in at least as efficient lead removal to orthophosphate, the designated optimal corrosion control treatment. Three of those prongs of the variance request are: PH and alkalinity adjustments to reduce corrosivity of the water; accelerated lead service line removal; and a filter program where Denver Water will distribute pitcher filters to consumers with known, suspected, and possible lead service
