

that the NSO data would accurately compensate for, and not overstate, the respondent's unreported SG&A labor hours. As a result, we did not transfer the surrogate financial statements' SG&A labor-related line items to the denominator in the surrogate financial ratio calculation, because doing so could distort the calculation and result in an undervaluation of labor-related SG&A expenses.¹¹ We did not make the adjustments proposed by the RMB/IFI Group, but revised the respondent's weighted-average margin to 39.53 percent, which increased from the 39.42 percent margin calculated in the *Final Results* due to the incorporation of additional quarters of labor data that were placed on the record during the remand proceeding.

Timken Notice

In its decision in *Timken*,¹² as clarified by *Diamond Sawblades*,¹³ the Court of Appeals for the Federal Circuit (CAFC) held that, pursuant to section 516A of the Tariff Act of 1930, as amended (the Act), Commerce must publish a notice of a court decision that is not "in harmony" with a Commerce determination and must suspend liquidation of entries pending a "conclusive" court decision. The CIT's June 22, 2020 judgment sustaining the *Final Remand Results* constitutes a final decision of the Court that is not in harmony with Commerce's *Final Results*. This notice is published in fulfillment of the publication requirements of *Timken*.

Amended Final Results

Because there is now a final court decision, Commerce is amending the *Final Results* with respect to the RMB/IFI Group. The revised weighted-average dumping margin for the RMB/IFI Group for the period April 1, 2013 through March 31, 2014 is as follows:

Exporter	Weighted-average margin (percent)
RMB/IFI Group	39.53

Assessment Instructions

In the event the CIT's ruling is not appealed or, if appealed, upheld by a final and conclusive court decision, Commerce intends to instruct U.S. Customs and Border Protection (CBP) to

assess antidumping duties on unliquidated entries of subject merchandise exported by the RMB/IFI Group in accordance with 19 CFR 351.212(b)(1). Commerce will calculate importer-specific *ad valorem* assessment rates on the basis of the ratio of the total amount of dumping calculated for each importer's examined sales and the total entered value of those sales, in accordance with 19 CFR 351.212(b)(1). We will instruct CBP to assess antidumping duties on all appropriate entries covered by this review when the importer-specific *ad valorem* assessment rate calculated is not zero or *de minimis*. Where an importer-specific *ad valorem* assessment rate is zero or *de minimis*,¹⁴ we will instruct CBP to liquidate the appropriate entries without regard to antidumping duties.

Pursuant to Commerce's assessment practice, for entries that were not reported in the US sales data submitted by the RMB/IFI Group during this review, Commerce will instruct CBP to liquidate such entries at the China-wide entity rate.¹⁵

Cash Deposit Requirements

The cash deposit rate calculated for the RMB/IFI Group in the 2013–2014 administrative review has been superseded by cash deposit rates calculated in intervening administrative reviews of the antidumping duty order on steel threaded rod from China.¹⁶ Thus, we will not alter the RMB/IFI Group's cash deposit rate.

Notification to Interested Parties

This notice is issued and published in accordance with sections 516A(e), 751(a)(1), and 777(i)(1) of the Act.

Failure to comply with this requirement could result in Commerce’s presumption that reimbursement of antidumping duties occurred and the subsequent assessment of double antidumping duties.

This notice also serves as a reminder to parties subject to APO of their responsibility concerning the return or destruction of proprietary information disclosed under APO in accordance with 19 CFR 351.305, which continues to govern business proprietary information in this segment of the proceeding.
