SUPPLEMENTARY INFORMATION:

Title: Federal-Aid Highway Construction Equal Employment Opportunity.

Background: Title 23, Part 140(a), requires the FHWA to ensure equal opportunity regarding contractors' employment practices on Federal-aid highway projects. To carry out this requirement, the contractors must submit employment workforce data to the State Transportation Agencies

(STAs) on all work being performed on Federal-aid contracts during all or any part of the last payroll period preceding the end of July. This report provides the employment workforce data on these contracts and includes the number of minorities, women, and non-minorities in specific highway construction job categories. This information is reported on Form PR-1391, Federal-Aid Highway Construction Contractors Summary of Employment Data. The statute also requires the STAs to submit a report to the FHWA summarizing the data entered on the PR-1391 forms. This summary data is provided on Form PR-1392, Federal-Aid Highway Construction Contractors Summary of Employment Data. The STAs and FHWA use this data to identify patterns and trends of employment in the highway construction industry, and to determine the adequacy and impact of the STA's and FHWA's contract compliance and on-the-job (OJT) training programs. The STAs use this information to monitor the contractors' employment and training of minorities and women in the traditional highway construction crafts. Additionally, the data is used by FHWA to provide summarization, trend analyses to Congress, DOT, and FHWA officials as well as others who request information relating to the Federal-aid highway construction EEO program. The information is also used in making decisions regarding resource allocation; program emphasis; marketing and promotion activities; training; and compliance efforts.

Respondents: 11,077 annual respondents for form PR-1391, and 53 STAs and Territory annual respondents for Form PR-1392 that, total of 11,130.

Frequency: Annually.

Estimated Average Burden per Response: FHWA estimates it takes 30 minutes for Federal-aid contractors to complete and submit Form PR-1391 and 8 hours for STAs to complete and submit Form PR-1392.

Estimated Total Amount Burden Hours: Form PR-1391—5,539 hours per year; Form PR-1392—416 hours per year, total of 5,955 hours annually.

Public Comments Invited: You are asked to comment on any aspect of this information collection, including: (1) Whether the proposed collection is necessary for the FHWA's performance; (2) the accuracy of the estimated burdens; (3) ways for the FHWA to enhance the quality, usefulness, and clarity of the collected information; and (4) ways that the burden could be minimized, including the use of electronic technology, without reducing the quality of the collected information.

The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

Authority: The Paperwork Reduction Act of 1995; 44 U.S.C. chapter 35, as amended; and 49 CFR 1.48.

Issued On: July 8, 2020.

SUPPLEMENTARY INFORMATION:

Title: War Risk Insurance, Applications and Related Information.

OMB Control Number: 2133-0011.

Type of Request: Renewal of a Previously Approved Information Collection.

Background: The U.S. Government's War Risk Insurance program is a standby emergency program for national defense and national security. It

becomes effective upon and simultaneously with the automatic termination of ocean marine commercial war risk insurance policies. Those policies are automatically terminated upon the outbreak of war, whether declared or not, between any of the five great powers (United States of America, United Kingdom, France, People's Republic of China, the Russian Federation) or upon the hostile detonation of a weapon of war employing atomic or nuclear fission.

The War Risk Insurance program makes it possible for applicants to obtain war risk insurance from the U.S. Government when such insurance is unavailable on reasonable terms from the commercial market. The program is mutually beneficial to the United States and to the shipowner in that it assures continued flow of essential U.S. trade and provides protection for the ship owner from loss by risks of war.

Respondents: Vessel owners or charterers interested in participating in MARAD's war risk insurance program.

Affected Public: Business or other for profit.

Total Estimated Number of Responses: 20.

Frequency of Collection: Annually.

Estimated time per Respondent: 12.8 hours.

Total Estimated Number of Annual Burden Hours: 256.

Public Comments Invited: Comments are invited on: whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on respondents, including the use of automated collection techniques or other forms of information technology.
