NUCLEAR REGULATORY COMMISSION

Issuance of Multiple Exemptions in Response to COVID–19 Public Health Emergency

AGENCY: Nuclear Regulatory Commission.

ACTION: Exemptions; issuance.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) issued multiple exemptions in response to requests from Holtec Decommissioning International, LLC.; Pacific Gas and Electric Company; Portland General Electric Company; Connecticut Yankee Atomic Power Company; and Yankee Atomic Electric Company. The exemptions allow the licensees to extend certain training and requalification frequency requirements of NRC’s general criteria for security personnel in response to the COVID–19 public health emergency (PHE). The NRC is issuing a single notice to announce the issuance of these exemptions.

DATES: The exemptions were issued between May 20, 2020 and June 23, 2020.

SUPPLEMENTARY INFORMATION:

I. Introduction

The NRC issued multiple exemptions in response to requests dated between May 7, 2020, and May 20, 2020, from Holtec Decommissioning International, LLC.; Pacific Gas and Electric Company; Portland General Electric Company; Connecticut Yankee Atomic Power Company; and Yankee Atomic Electric Company. The exemptions allow the licensees to extend training and requalification frequency requirements in specific regulations (cited below) of title 10 of the Code of Federal Regulations (10 CFR) part 73, “Physical Protection of Plants And Materials.” The exemptions from certain sections of 10 CFR part 73 ensure that the extension of training and requalification frequency facilitates the implementation of security measures regarding physical and medical requalification in a manner that does not conflict with practices recommended to limit the spread of COVID–19.

II. Availability of Documents
