

and mitigation measures that would supplement mandatory mitigation measures required by statutes.

The fundamental distinction between Alternative 1 and the No Action Alternative is that the No Action Alternative includes research and potential application of novel restoration and intervention techniques as tools to respond to imminent threats to corals. The final PEIS considers the environmental effects of these various intervention strategies.

Please visit the CRCP web page for additional information regarding the CRCP: <https://coralreef.noaa.gov/>.

This final PEIS is available for a 30-day waiting period, ending on August 17, 2020.

Authority: The preparation of the final PEIS for the CRCP was conducted in accordance with the requirements of NEPA, the Council on Environmental Quality's NEPA regulations (40 CFR parts 1500–1508), other applicable regulations, and NOAA's policies and procedures for compliance with those regulations.
