

system installation should be such that it provides protection, when it is required, by not expending its protection when it is not required. If the airbag deployment threshold is unnecessarily low, the airbag would need to continue to provide protection when an impact requiring protection occurs.

These proposed special conditions are based upon special conditions 25–605–SC for the Boeing Model 787–9 airplanes equipped with B/E Aerospace Super-Diamond model business-class passenger seats and associated furniture. The proposed special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.

Applicability

As discussed above, these special conditions are applicable to the Boeing Model 777–9 airplane. Should Boeing apply at a later date for a change to the type certificate to include another model incorporating the same novel or unusual design feature, these special conditions would apply to that model as well.

Conclusion

This action affects only certain novel or unusual design features on one model series of airplanes. It is not a rule of general applicability.

List of Subjects in 14 CFR Part 25

Aircraft, Aviation safety, Reporting and recordkeeping requirements.

Authority Citation

The authority citation for these special conditions is as follows:

Authority: 49 U.S.C. 106(f), 106(g), 40113, 44701, 44702, 44704.

The Proposed Special Conditions

■ Accordingly, the FAA proposes the following special conditions as part of the type certification basis for Boeing Model 777–9 airplanes.

1. The applicant must demonstrate by test that the structure-mounted airbag will deploy and provide protection under crash conditions where it is necessary to prevent serious injury to a 50th percentile occupant, as specified in § 25.562. The means of protection must provide a consistent approach to energy absorption for a range of occupants, from a two-year-old child to a 95th percentile male.

2. The structure-mounted airbag must provide adequate protection for each occupant regardless of the number of occupants of the seat assembly.

3. The structure-mounted airbag system must not be susceptible to inadvertent deployment as a result of wear and tear, or inertial loads resulting from in-flight or ground maneuvers (including gusts and hard landings) likely to be experienced in service.

4. Deployment of the structure-mounted airbag must not introduce hazards or injury mechanisms to the seated occupant, including occupants in the brace position. Deployment of the structure-mounted airbag must also not result in injuries that could impede rapid exit from the airplane.

5. The applicant must demonstrate that an inadvertent deployment that could cause injury to a standing or sitting person is improbable. Inadvertent deployment must not cause injury to anyone who may be positioned close to the structure-mounted airbag (e.g., seated in an adjacent seat, or standing adjacent to the airbag installation or the subject seat). Cases where a structure-mounted airbag is inadvertently deployed near a seated occupant or an empty seat must be considered.

6. Effects of the deflection and deformation of the structure to which the airbag is attached must be taken into account when evaluating deployment and location of the inflated airbag. The effect of loads imposed by airbag deployment, or stowed components where applicable, must also be taken into account.

7. Inadvertent deployment of the structure-mounted airbag during the most critical part of flight will either not cause a hazard to the airplane or is extremely improbable.

8. The applicant must demonstrate that the structure-mounted airbag, when deployed, does not impair access to the seatbelt- or harness-release means, and must not hinder evacuation. This will include consideration of adjacent seat places and the aisle.

9. The airbag, once deployed, must not adversely affect the emergency-lighting system, and must not block escape-path lighting to the extent that the light(s) no longer meet their intended function.

10. The structure-mounted airbag must not impede occupants' rapid exit from the airplane 10 seconds after its deployment.

11. Where structure-mounted airbag systems are installed in or close to passenger evacuation routes (other than for the passenger seat for which the airbag is installed), possibility of impact on emergency evacuation (e.g., hanging in the aisle, potential trip hazard, etc.) must be evaluated.

12. The airbag electronic system must be designed to be protected from

lightning per § 25.1316(b), and high-intensity radiated fields per § 25.1317(c).

13. The structure-mounted airbag system must not contain or release hazardous quantities of gas or particulate matter into the cabin.

14. The structure-mounted airbag installation must be protected from the effects of fire such that no hazard to occupants will result.

15. The inflatable bag material must meet the 2.5-inches-per-minute horizontal flammability test defined in 14 CFR part 25, appendix F, part I, paragraph (a)(1)(iv).

16. The design of the structure-mounted airbag system must protect the mechanisms and controls from external contamination associated with that which could occur on or around passenger seating.

17. The structure-mounted airbag system must have a means to verify the integrity of the structure-mounted airbag activation system.

18. The applicant must provide installation limitations to ensure installation compatibility between the seat design and opposing monument or structure.

Issued in Des Moines, Washington, on July 14, 2020.

James E. Wilborn,

Acting Manager, Transport Standards Branch, Policy and Innovation Division, Aircraft Certification Service.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

26 CFR Part 1

[REG–112339–19]

RIN 1545–BP42

Credit for Carbon Oxide Sequestration; Hearing

AGENCY: Internal Revenue Service (IRS), Treasury.

ACTION: Proposed rule; notice of hearing.

SUMMARY: This document provides a notice of public hearing on proposed regulations regarding the credit for carbon oxide sequestration under section 45Q of the Internal Revenue Code (Code).

DATES: The public hearing is being held on Wednesday, August 26, 2020, at 10 a.m. The IRS must receive speakers' outlines of the topics to be discussed at the public hearing by Friday, August 14, 2020. If no outlines are received by

August 14, 2020, the public hearing will be cancelled.

ADDRESSES: The public hearing is being held by teleconference. Individuals who want to testify (by telephone) at the public hearing must send an email to publichearings@irs.gov to receive the telephone number and access code for the hearing. The subject line of the email must contain the regulation number [REG–112339–19] and the word TESTIFY. For example, the subject line may say: Request to TESTIFY at Hearing for REG–112339–19. The email should also include a copy of the speaker's public comments and outline of topics. The email must be received by August 14, 2020.

Send outline submissions electronically via the Federal eRulemaking Portal at www.regulations.gov (IRS REG–112339–19).

FOR FURTHER INFORMATION CONTACT:

Concerning the proposed regulations, Maggie Stehn of the Office of Associate Chief Counsel (Passthroughs & Special Industries) at (202) 317–6853; concerning submissions of comments, the hearing, and the access code to attend the hearing by teleconferencing, Regina Johnson at (202) 317–5177 (not toll-free numbers) or publichearings@irs.gov. If emailing please put Attend, Testify, or Agenda Request and [REG–112339–19] in the email subject line.

SUPPLEMENTARY INFORMATION: The subject of the public hearing is the notice of proposed rulemaking REG–112339–19 that was published in the *Federal Register* on Tuesday, June 2, 2020, 85 FR 34050.

The rules of 26 CFR 601.601(a)(3) apply to the hearing. Persons who wish to present oral comments telephonically at the hearing that submitted written comments by August 3, 2020, must submit an outline of the topics to be addressed and the amount of time to be devoted to each topic by August 14, 2020.

A period of 10 minutes is allotted to each person for presenting oral comments. After the deadline for receiving outlines has passed, the IRS will prepare an agenda containing the schedule of speakers. Copies of the agenda will be made available, on Regulations.gov, search IRS and REG–112339–19, or by emailing your request to publichearings@irs.gov. Please put “REG–112339–19 Agenda Request” in the subject line of the email.

Individuals who want to attend (by telephone) the public hearing must also send an email to publichearings@irs.gov to receive the telephone number and access code for the hearing. The subject

line of the email must contain the regulation number [REG–112339–19] and the word ATTEND. For example, the subject line may say: Request to ATTEND Hearing for REG–112339–19. The email requesting to attend the public hearing must be received by 5:00 p.m. two (2) business days before the date that the hearing is scheduled.

The telephonic hearing will be made accessible to people with disabilities. To request special assistance during the telephonic hearing please contact the Publications and Regulations Branch of the Office of Associate Chief Counsel (Procedure and Administration) by sending an email to publichearings@irs.gov (preferred) or by telephone at (202) 317–5177 (not a toll-free number) at least three (3) days prior to the date that the telephonic hearing is scheduled.

Any questions regarding speaking at or attending a public hearing may also be emailed to publichearings@irs.gov.

Martin V. Franks,

Branch Chief, Publications and Regulations Branch, Legal Processing Division, Associate Chief Counsel, (Procedure and Administration).

BILLING CODE 4830–01–P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 110

[Docket Number USCG–2016–0897]

RIN 1625–AA01

Anchorage Grounds; Atlantic Ocean, Jacksonville, FL; Correction

AGENCY: Coast Guard, DHS.

ACTION: Supplemental notice of proposed rulemaking; correction.

SUMMARY: This document corrects a docket number listed in a supplemental notice of proposed rulemaking that was published July 6, 2020. That supplemental notice of proposed rulemaking would establish a dedicated offshore anchorage approximately 7 nautical miles northeast of the St. Johns River inlet, Florida.

FOR FURTHER INFORMATION CONTACT: If you have questions about this proposed rulemaking, call or email LT Emily Sysko, Sector Jacksonville Waterways Management Division Chief, U.S. Coast Guard; telephone 904–714–7616, email Emily.T.Sysko@uscg.mil.

SUPPLEMENTARY INFORMATION:

Background

This document corrects a docket number listed in the **ADDRESSES** section of a supplemental notice of proposed rulemaking (SNPRM) published July 6, 2020 (85 FR 40153). That SNPRM would establish a dedicated offshore anchorage approximately 7 nautical miles northeast of the St. Johns River inlet, Florida.

Need for Correction

As published, the SNPRM contained an error in the docket number listed in the **ADDRESSES** section which is misleading and is in need of correction. This action is needed to avoid confusion as to the correct docket number for that rulemaking, USCG–2016–0897. The Coast Guard will review and consider comments submitted on or before September 4, 2020 to the incorrect docket, but this document establishes what is the correct docket number for this rulemaking.

Correction of Publication

Accordingly, the FR Doc. 2020–13827, supplemental notice of proposed rulemaking published July 6, 2020 (85 FR 40153) is corrected as follows: The Coast Guard docket number on page 40153, starting in line two of the **ADDRESSES** section, is corrected to read “USCG–2016–0897”.

Dated: July 9, 2020.

J.E. McLeod,

Acting Chief, Office of Regulations and Administrative Law.
