ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List; Deletion of the Scrap Processing Co., Inc. Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Direct final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 5 is publishing a direct final Notification of Deletion of the Scrap Processing Co., Inc. Superfund Site (Scrap Processing Site or Site), located in Medford, Wisconsin, from the National Priorities List (NPL). The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and Hazardous Substances Pollution Contingency Plan (NCP). This direct final deletion is being published by EPA with the concurrence of the State of Wisconsin, through the Wisconsin Department of Natural Resources (WDNR) because EPA has determined that all appropriate response actions under CERCLA, other than operation and maintenance, monitoring institutional controls, and five-year reviews, have been completed.

However, this deletion does not preclude future actions under Superfund.

DATES: This direct final deletion is effective September 25, 2020 unless EPA receives adverse comments by August 26, 2020. If adverse comments are received, EPA will publish a timely withdrawal of the direct final deletion in the Federal Register informing the public that the deletion will not take effect.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–HQ–SFUND–SFUND–2005–0011, by one of the following methods:

Follow the on-line instructions for submitting comments. Once submitted, comments cannot be edited or removed from Regulations.gov. EPA may publish any comment received to its public docket. Do not submit electronically any
The following procedures apply to deletion of the Scrap Processing Site: (1) EPA consulted with the State of Wisconsin prior to developing this
direct final Notification of Deletion and the Notification of Intent to Delete co-published today in the “Proposed Rules” section of the Federal Register. (2) EPA has provided the State thirty (30) working days for review of this action and the parallel Notification of Intent to Delete prior to their publication today, and the State, through the WDNR, concurred with the deletion of the Scrap Processing Site from the NPL on July 16, 2020. (3) Concurrently with the publication of this direct final Notification of Deletion, an announcement of the availability of the parallel Notification of Intent to Delete is being published in a major local newspaper, The Star News. The newspaper advertisement announces the 30-day public comment period concerning the Notification of Intent to Delete the Scrap Processing Site from the NPL. (4) EPA placed copies of documents supporting the proposed deletion in the deletion docket and made these items available for inspection and copying at https://www.regulations.gov, Docket ID No. EPA–HQ–SFUND–2005–0011 and at https://www.epa.gov/superfund/scrap-processing. If adverse comments are received within the 30-day public comment period on this deletion action, EPA will publish a timely notice of withdrawal of this direct final Notification of Deletion in the Federal Register before its effective date and will prepare a response to comments and continue with the deletion process on the basis of the Notification of Intent to Delete and the comments already received. Deletion of a site from the NPL does not itself create, alter, or revoke any individual’s rights or obligations. Deletion of a site from the NPL does not in any way alter EPA’s right to take enforcement actions, as appropriate. The NPL is designated primarily for informational purposes and to assist EPA management. Section 300.425(e)(3) of the NCP states that the deletion of a site from the NPL does not preclude eligibility for future response actions, should future conditions warrant such actions.

IV. Basis for Site Deletion

The EPA placed a copy of its Final Close Out Report for the Site and other documents supporting the proposed deletion in the deletion docket. The material provides the explanation of EPA’s rationale for the deletion and demonstrates how it meets the deletion criteria. This information is made available for public inspection in the deletion docket available at https://www.regulations.gov, Docket ID No. EPA–HQ–SFUND–2005–0011 and at https://www.epa.gov/superfund/scrap-processing.

V. Deletion Action

EPA, with concurrence of the State of Wisconsin, through the WDNR, has determined that all appropriate response actions under CERCLA, other than operation and maintenance, monitoring institutional controls, and five-year reviews have been completed at the Scrap Processing Site. Therefore, EPA is deleting the Scrap Processing Site from the NPL.

Because EPA considers this action to be noncontroversial and routine, EPA is taking it without prior publication. This action will be effective September 25, 2020 unless EPA receives adverse comments by August 26, 2020. If adverse comments are received within the 30-day public comment period, EPA will publish a timely withdrawal of this direct final Notification of Deletion before its effective date and the deletion will not take effect. EPA will prepare a response to comments and continue with the deletion process on the basis of the Notification of Intent to Delete and the comments already received. There will be no additional opportunity to comment.

List of Subjects in 40 CFR Part 300

Environmental protection, Air pollution control, Chemicals, Hazardous substances, Hazardous waste, Intergovernmental relations, Penalties, Reporting and recordkeeping requirements, Superfund, Water pollution control, Water supply.

Kurt Thiede,
Regional Administrator, Region 5.

For the reasons set out in this document, 40 CFR part 300 is amended as follows:

PART 300—NATIONAL OIL AND HAZARDOUS SUBSTANCES POLLUTION CONTINGENCY PLAN

1. The authority citation for part 300 continues to read as follows:

Authority: 33 U.S.C. 1251 et seq.

Appendix B to Part 300—[Amended]

2. Table 1 of Appendix B to part 300 is amended by removing the entry “WI,” “Scrap Processing Co., Inc.”, “Medford”.

BILLING CODE 6560–50–P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 721
[FR Doc. 2020–16248 Filed 7–24–20; 8:45 am]

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: Under the Toxic Substances Control Act (TSCA), the Environmental Protection Agency (EPA) is finalizing amendments to the significant new use rule (SNUR) for long-chain perfluoroalkyl carboxylate (LCPFAC) chemical substances that was proposed on January 21, 2015; an amendment to a SNUR for perfluoroalkyl sulfonate chemical substances that was proposed on January 21, 2015; and an amendment to make inapplicable the exemption for persons who import a subset of LCPFAC chemical substances as part of surface coatings on articles, which was proposed on March 3, 2020.

This final rule requires persons to notify EPA at least 90 days before commencing the manufacture (including import) or processing of these chemical substances for the significant new uses described in this notice. The required significant new use notification initiates EPA’s evaluation of the conditions of use associated with the significant new use. Manufacturing (including import) or processing for the significant new use are prohibited from commencing until EPA has conducted a review of the notice, made an appropriate determination on the notice, and taken such actions as are required in association with that determination. As with any SNUR, this final rule excludes ongoing uses. Ongoing uses cannot be subject to a SNUR.

DATES: This final rule is effective September 25, 2020.

ADDRESSES: This docket for this action, identified by docket identification (ID) number EPA–HQ–OPPT–2013–0225, is available at http://www.regulations.gov or at the Office of Pollution Prevention and Toxics Docket (OPPT Docket), Environmental Protection Agency, Docket Center (EPA/DC), West William Jefferson Clinton Blvdg., Rm. 3334, 1301 Constitution Ave. NW, Washington, DC. The Public Reading Room is open from 8:30 a.m. to 4:30 p.m. Monday through Friday, excluding legal holidays. The telephone number for the Public
