The Council will receive closed session briefings containing For Official Use Only and Law Enforcement sensitive information from senior officials. The session is closed under 5 U.S.C. 552b(c)(7)(E) because disclosure of that information could reveal investigative techniques and procedures not generally available to the public, allowing terrorists and those with interests against the United States to circumvent the law and thwart the Department's strategic initiatives.

Specifically, there will be material presented during the briefings regarding the latest viable threats against the United States and how DHS and other Federal agencies plan to address those threats. The session is closed pursuant to 5 U.S.C. 552b(c)(9)(B) because disclosure of these techniques and procedures could frustrate the successful implementation of protective

measures designed to keep our country safe.

Abstract: The Division of Economic Development (DED), within the Office of Indian Energy and Economic Development (IEED), established the Native American Business Development Institute (NABDI) to provide technical assistance funding to federally recognized American Indian Tribes seeking to retain universities and colleges, private consulting firms, non-academic/non-profit entities, or others to prepare feasibility studies of potential economic development opportunities. These studies will empower American Indian Tribes and Tribal businesses to make informed decisions regarding their economic futures. Studies may concern the viability of an economic development project or business or the practicality of a technology a Tribe may choose to pursue. The DED will specifically exclude from consideration proposals for research and development projects; requests for funding of salaries for Tribal government personnel; funding to pay legal fees; funding for the purchase or lease of structures, machinery, hardware or other capital items; and funding related to mineral, energy, or broadband development, as these are addressed by other IEED grant programs

This is an annual program whose primary objective is to create jobs and foster economic activity within Tribal

communities. The DED will administer the program within IEED; and studies as described herein will be sole discretionary projects DED will consider or fund absent a competitive bidding process. When funding is available, DED will solicit proposals for studies. To receive these funds, Tribes may, if eligible, obtain adjustments to their funding from the Office of Self-Governance. See 25 U.S.C. 450 *et seq.*

Interested applicants must submit a Tribal resolution requesting funding, a statement of work describing the project for which the study is requested, the identity of the academic institution, consultants, or other entity the applicant wishes to retain (if known) and a budget indicating the funding amount requested and how it will be spent. The DED expressly retains the authority to reduce or otherwise modify proposed budgets and funding amounts.

Applications for funding will be juried and evaluated primarily on the basis of a proposed project's potential to generate jobs and economic activity in a Tribal community.
