Air Plan Approval; Pennsylvania; Allegheny County Area Attainment Plan for the 2012 Fine Particulate Matter National Ambient Air Quality Standard; Reopening of Comment Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; reopening of the comment period.

SUMMARY: The Environmental Protection Agency (EPA) is reopening the comment period for a document published in the **Federal Register** on June 12, 2020. EPA is reopening the comment period based on the Clean Air Council's request for a 30-day extension. Clean Air Council's request seeks an extension of the comment period until August 13, 2020.

DATES: The comment period for the proposed rule published June 12, 2020 (85 FR 35852), is reopened. The EPA must receive comments on or before August 13, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R03–OAR–2020–0157 at <https://www.regulations.gov>, or via email to spielberger.susan@epa.gov. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. For either manner of submission, EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). SUPPLEMENTARY INFORMATION: EPA proposed to approve portions of a state implementation plan (SIP) revision submitted on September 30, 2019 by the Pennsylvania Department of Environmental Protection (PADEP) on behalf of the Allegheny County Health Department (ACHD). The SIP submittal (also referred to as “the Allegheny County PM_{2.5} Plan”) addresses Clean Air Act (CAA or “the Act”) requirements for the 2012 annual fine particulate matter (PM_{2.5}) national ambient air quality standards (NAAQS or “standards”) in the Allegheny County Moderate PM_{2.5} nonattainment area (“Allegheny County area”). EPA’s June 12, 2020 document proposed to fully approve all elements of the plan except for those addressing contingency measure requirements and motor vehicle emissions budgets, which EPA proposed to conditionally approve.

EPA is reopening the comment period based on a request by Clean Air Council for a 30-day extension of the comment period. Clean Air Council’s request, which is in the docket¹ for this matter, seeks an extension of the comment period until August 13, 2020. Their justification for such an extension included the complexity of the plan and EPA’s proposed action, substantial changes to the plan made by ACHD following public comment at the local level, and the fact that EPA’s proposed rule’s July 13, 2020 close of comment period occurs at a similar time as those of several other state and Federal actions related to air quality in the area, for which comments are due on or around the same time. After reviewing these arguments, EPA has decided to reopen the comment period to August 13, 2020. All comments received on or before August 13, 2020 will be entered into the public record and considered by EPA before taking final action on the proposed rule. Comments submitted between the close of the original comment period and the re-opening of this comment period will be accepted and considered.

[PS Docket No. 13-42; FCC 20-89; FRS 16931]

Reallocation of 470-512 MHz (T-Band) Spectrum

AGENCY: Federal Communications Commission.

ACTION: Proposed rule.

SUMMARY: In this document, the Commission seeks comment on reallocating spectrum associated with broadcast television channels 14-20 (470-512 MHz or T-Band), assigning new licenses by auction for the 6 megahertz to 18 megahertz of spectrum that is potentially available in each of the eleven urbanized areas, and relocating “public safety eligibles” from the T-Band. Specifically, the Commission proposes rules that would allow for flexible use in the auctioned T-Band, including wireless (fixed or mobile) use. The Commission also proposes to permit broadcast operations and seeks comment on how best to facilitate this and other potential uses. The Commission seeks comment on transition mechanisms and costs for relocating public safety eligibles from the T-Band, including whether to transition these licensees only where auction revenues exceed anticipated transition costs. The Commission also proposes an auction framework and licensing, operating, and technical rules for the reallocated spectrum that would preserve the current environment for incumbents remaining in the T-Band. Finally, the Commission seeks comment on how to best address the non-public safety operations in the T-Band to maximize opportunities for new entrants, including whether and how to transition non-public safety operations.

DATES: Interested parties may file comments on or before August 31, 2020; and reply comments on or before September 29, 2020.
