DEPARTMENT OF COMMERCE
Bureau of Industry and Security

15 CFR Part 740

[Docket No. 200718–0196]

RIN 0694–AI14

Revision to the Export Administration
Regulations: Suspension of License
Exceptions for Hong Kong

AGENCY: Bureau of Industry and
Security, Commerce.

ACTION: Final rule.

SUMMARY: The Bureau of Industry and
Security (BIS) amends the Export
Administration Regulations (EAR) to
suspend the availability of all License
Exceptions for Hong Kong that provide
differential treatment as compared to
those available to the People’s Republic
of China (PRC). As announced on BIS’s
website on June 30, 2020, these License
Exceptions are no longer available for
exports and reexports to Hong Kong,
and transfers within Hong Kong, of all
items subject to the EAR. BIS is taking
this action as part of revised U.S. policy
toward Hong Kong in response to the
newly imposed security measures on
Hong Kong by the Chinese Communist
Party. These new security measures
undermine Hong Kong’s autonomy and
thereby increase the risk that sensitive
U.S. technology and items will be
illegally diverted to unauthorized end
uses and end users in the PRC or to
unauthorized destinations such as Iran
or North Korea.

As the USG finds that it can no longer
distinguish between the export of
controlled items to Hong Kong and the
PRC, the United States is removing
eligibility for License Exceptions for
exports or reexports to, or transfers
within, Hong Kong that are not available
for exports and reexports to the PRC or
transfers within the PRC. This action
targets the PRC regime, not residents of
Hong Kong. The Bureau of Industry and
Security (BIS), in consultation with
other executive branch agencies,
continues to review the EAR to assess
whether additional amendments are
warranted.

Amendments to the EAR

In this final rule, BIS amends the
Export Administration Regulations, 15
CFR parts 730–774 (EAR), to suspend
the availability of the License
Exceptions for exports and reexports to
Hong Kong, and transfers within Hong
Kong of all items subject to the EAR that
provide differential treatment from the
license exceptions available to the PRC.

BIS is taking this action pursuant to
§740.2(b) of the EAR (15 CFR 740.2(b)),
which provides that all License
Exceptions are subject to revision,
suspension, or revocation, in whole or
in part, without notice. The following
License Exceptions are suspended to the
extent they allow exports or reexports to
or from Hong Kong, or transfers within
Hong Kong, when they may not be used
for exports or reexports to the PRC, or
transfers within the PRC:
(1) Shipments of Limited Value (LVS) (§ 740.3);
(2) Shipments to Group B Countries (GBS) (§ 740.4);
(3) Technology and Software under Restriction (TSR) (§ 740.6);
(4) Computers, Tier 1 only (APP) (§ 740.7(c));
(5) Temporary Imports, Exports, Reexports, and Transfers (in-country) (TMP) (§ 740.9(a)(11), (b)(2)(ii)(C), and (b)(3));
(6) Servicing and Replacement Parts and Equipment (RPL) (§ 740.10(a)(3)(viii), (a)(4), (b)(1) except as permitted to Country Group D:5, and (b)(3)(ii)(F) and (ii)(C));
(7) Governments (GOV) (§ 740.11(c)(1)—Cooperating Governments only);
(8) Gift Parcels and Humanitarian Donations (GFD) (§ 740.12);
(9) Technology and Software Unrestricted (TSU) (§ 740.13);
(10) Baggage (BAG) (§ 740.14) (except as permitted by § 740.14(d));
(11) Aircraft, Vessels, and Spacecraft (AVS) (§ 740.15(b)(1), (b)(2), (c));
(12) Additional Permissive Reexports (APR) (§ 740.16(a) and (j)); and
(13) Strategic Trade Authorization (STA) (§ 740.20(c)(2)).

Reexports of items subject to the EAR from Hong Kong under License Exception APR § 740.16(a) are also restricted.

In this final rule, BIS also amends paragraph (a) of § 740.2—Restrictions on all License Exceptions—by adding a new paragraph (a)(23) to identify the suspension of the availability of these License Exceptions for exports to Hong Kong, reexports to and from Hong Kong, and transfers within Hong Kong of all items subject to the EAR.

A License Exception is an authorization contained in Part 740 of the EAR that allows exports, reexports, or transfers (in-country) under stated conditions of items subject to the EAR that would otherwise require a license. This includes License Exception APR which was previously also available for reexports from Hong Kong.

Export Control Reform Act of 2018

On August 13, 2018, the President signed into law the John S. McCain National Defense Authorization Act for Fiscal Year 2019, which included the Export Control Reform Act of 2018 (ECRA), 50 U.S.C. Sections 4801–4852. ECRA provides the legal basis for BIS’s principal authorities and serves as the authority under which BIS issues this rule.

Rulemaking Requirements

Executive Orders 13563 and 12866 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distribute impacts, and equity). Executive Order 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This final rule has been designated significant under Executive Order 12866. This final rule will protect the national security and foreign policy objectives of the United States by addressing the increased risk of illegal diversion of sensitive U.S. technology and other items to unauthorized end uses and end users in China or to unauthorized destinations such as Iran or North Korea.

This final rule is not subject to the requirements of Executive Order 13771 (82 FR 9339; February 3, 2017) because it is issued with respect to a national security function of the United States. The cost-benefit analysis required pursuant to Executive Orders 12866 and 13563 indicates that this rule is intended to improve national security as its primary direct benefit. Specifically, suspending license exceptions for Hong Kong serves U.S. national security interests and foreign policy objectives. Accordingly, this rule meets the requirements set forth in the April 5, 2017 OMB guidance implementing Executive Order 13771, regarding what constitutes a regulation issued “with respect to a national security function of the United States,” and is, therefore, exempt from the requirements of Executive Order 13771.

This rule does not contain policies with federalism implications as that term is defined under Executive Order 13132.

Paperwork Reduction Act Requirements

Notwithstanding any other provision of law, no person may be required to respond to or be subject to a penalty for failure to comply with a collection of information, subject to the requirements of the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 et seq.) (PRA), unless that collection of information displays a currently valid Office of Management and Budget (OMB) Control Number. This regulation involves collections currently approved by OMB under control numbers 0694–0088, Simplified Network Application Processing System, and 0694–0137, License Exceptions and Exclusions. These collections include, among other things, license applications, which carries a burden estimate of 42.5 minutes for a manual or electronic submission for a total burden estimate of 31,878 hours. This rule is expected to increase the number of licenses required as license exception availability is suspended, including for deemed exports and reexports, but this increase is not expected to exceed the existing estimates currently associated with OMB control number 0694–0088. A minimal decrease in burden is expected for 0694–0137.

Administrative Procedure Act and Regulatory Flexibility Act Requirements

Pursuant to section 1762 of the Export Reform Act of 2018 (50 U.S.C. 4801–4852), which was included in the John S. McCain National Defense Authorization Act for Fiscal Year 2019, this action is exempt from the Administrative Procedure Act (5 U.S.C. 553) requirements for notice of proposed rulemaking, opportunity for public participation, and delay in effective date. Because a notice of proposed rulemaking and an opportunity for public comment are not required to be given for this rule by 5 U.S.C. 553, or by any other law, the analytical requirements of the Regulatory Flexibility Act, 5 U.S.C. 601, et seq., are not applicable. Accordingly, no regulatory flexibility analysis is required, and none has been prepared.

Savings Clauses

Shipments of items that are removed from eligibility for a License Exception as a result of this action and were on dock for loading, on lighter, laden aboard an exporting or transferring carrier, or en route aboard a carrier to a port of export or reexport on June 30, 2020, pursuant to actual orders for export to Hong Kong, reexport to or from Hong Kong, or transfer within Hong Kong, may proceed to their destination under the previous License Exception eligibility.

Similarly, the deemed export/reexport transactions involving Hong Kong persons authorized under License Exception eligibility prior to June 30, 2020, may continue to be authorized under such provision until August 28, 2020, after which such transactions will require a license. Exporters, re-exporters, or transferees (in-country) availing themselves of this 60-day savings clause must maintain documentation demonstrating that the Hong Kong national was hired and provided access to technology eligible for Hong Kong under part 740 prior to June 30, 2020.
PART 740—LICENSE EXCEPTIONS

1. The authority citation for part 740 continues to read as follows:

2. Section 740.2 is amended by revising paragraphs (a)(12) and (13) introductory text and by adding new paragraph (a)(23) to read as follows:

§740.2 Restrictions on all License Exceptions.

(a) * * *

(12) The item is described in a 9x515 or “600 series” ECCN and is destined to, shipped from, or was manufactured in a destination listed in Country Group D:5 or Hong Kong (see Supplement No. 1 to part 740 of the EAR), except that:

1 600 series” items that are controlled for missile technology (MT) reasons may not be exported, reexported, or transferred (in-country) under License Exception STA (§740.20 of the EAR). Items controlled under ECCNs 9D610.b, 9D619.b, 9E610.b, or 9E619.b or .c are not eligible for license exceptions except for License Exception GOV (§740.11(b)(2) of the EAR). Only the following license exceptions may be used to export “600 series” items to destinations other than those identified in Country Group D:5 or Hong Kong (see Supplement No. 1 to part 740 of the EAR):

(23) The item is subject to the EAR and is for export to Hong Kong, reexport to Hong Kong or transfer (in-country) within Hong Kong under License Exceptions LVS—Shipments of Limited Value (§740.3); GBS—Shipments to Group B Countries (§740.4); TSR—Technology and Software under Restriction (§740.6); APP—Computers, Tier 1 only (§740.7(c)); TMP Temporary Imports, Exports, Reexports, and Transfers (in-country)—§740.9(a)(11) and (b)(2)(ii)(C) and (b)(5) only; RPL—Servicing and Replacement Parts and Equipment (§740.10(a)(3)(viii), (a)(4), (b)(1) except as permitted to Country Group D:5, and (b)(3)(i)(F) and (ii)(C) only); GOV—Cooperating Governments only (§740.11(c)(1)); GFT—Gift Parcels (except as permitted by §740.12(a)(3)); TSU Technology and Software Unrestricted—only §740.13(f); BAG—Baggage (except as permitted by §740.14(d)); AVS Aircraft, Vessels, and Spacecraft—§740.15(b)(1), (b)(2), (c), and (f) only); APR—Additional Permissive Reexports (§740.16(a) and (j)); and STA—Strategic Trade Authorization (§740.20). Reexports of items subject to the EAR from Hong Kong under License Exception APR §740.16(a) are also restricted.

Matthew S. Borman,
Deputy Assistant Secretary for Export Administration.

B. Delaying the Effective Date of the Rule

CPSC received two comments in response to the DFR notice. Neither comment is considered to be a “significant adverse comment.”

However, one commenter, who was anonymous, noted that in the last few months, the pandemic has “caused drastic changes in consumer behavior and manufacturing capabilities, including reduced sales and otherwise unforeseen production stoppages.” The commenter stated: “As a consequence, inventory levels of some previously ordered components have been extended further into the year than typical. Lead times for new material have also increased as manufacturers struggle to return to pre-pandemic production output capabilities.” The commenter recommends the effective date should be pushed back, “perhaps as far as to the end of the calendar year, to allow manufacturers more time to use up existing inventory before implementing the required changes.”

CONSUMER PRODUCT SAFETY COMMISSION

[Docket No. CPSC–2012–0068]

16 CFR Part 1225

Safety Standard for Hand-Held Infant Carriers

AGENCY: Consumer Product Safety Commission.

ACTION: Final rule; delay of effective date.

SUMMARY: On May 20, 2020, the Consumer Product Safety Commission (Commission, or CPSC) issued a direct final rule revising the CPSC’s mandatory standard for hand-held infant carriers to incorporate by reference the most recent version of the applicable ASTM standard. We are publishing this final rule to delay the effective date of the CPSC’s mandatory standard for hand-held infant carriers, due to the COVID–19 pandemic.

DATES: The effective date for the direct final rule published on May 20, 2020, at 85 FR 30605, is delayed from August 3, 2020, until January 1, 2021.

FOR FURTHER INFORMATION CONTACT:

SUPPLEMENTARY INFORMATION:

A. Background

On May 20, 2020, the Commission published a direct final rule (DFR), revising 16 CFR part 1225, the CPSC’s mandatory standard for hand-held infant carriers, to incorporate by reference the most recent version of the applicable ASTM standard, ASTM F2050–19, Standard Consumer Safety Specification for Hand-Held Infant Carriers. See 85 FR 30605. The DFR was originally set to become effective by operation of law on August 3, 2020, unless the Commission received a significant adverse comment by June 19, 2020.

Since Commission approval of the DFR in April 2020, Executive Order (E.O.) 13924, “Regulatory Relief to Support Economic Recovery,” was issued on May 19, 2020. 85 FR 31385. E.O. 13924 encourages federal agencies to address the economic consequences of COVID–19 “by rescinding, modifying, waiving, or providing exemptions from regulations and other requirements that may inhibit economic recovery, consistent with applicable law and with protection of the public health and safety.”

The Commission considers a significant adverse comment to be “one where the commenter explains why the rule would be inappropriate,” including an assertion challenging “the rule’s underlying premise or approach,” or a claim that the rule would be “ineffective or unacceptable without change.” 60 FR 43108, 43111. One commenter asserted that the incorporation by reference process does not allow the public free access to the law without paying for the incorporated voluntary standard. CPSC did not consider that comment to be a significant adverse comment because a copy of the standard can be inspected at the National Archives and Records Administration, or at the CPSC, and a read-only copy of the standard will be available for viewing on the ASTM website at www.astm.org/READINGLIBRARY.

1 The Commission considers a significant adverse comment to be “one where the commenter explains why the rule would be inappropriate,” including an assertion challenging “the rule’s underlying premise or approach,” or a claim that the rule would be “ineffective or unacceptable without change.” 60 FR 43108, 43111. One commenter asserted that the incorporation by reference process does not allow the public free access to the law without paying for the incorporated voluntary standard. CPSC did not consider that comment to be a significant adverse comment because a copy of the standard can be inspected at the National Archives and Records Administration, or at the CPSC, and a read-only copy of the standard will be available for viewing on the ASTM website at www.astm.org/READINGLIBRARY.
