Western Area Power Administration

Central Valley Project—Rate Order No. WAPA-194

AGENCY: Western Area Power Administration, DOE.

ACTION: Notice of proposed formula rates for Energy Imbalance Market services, Sale of Surplus Products, and revisions to existing Energy Imbalance and Generator Imbalance rate schedules.

SUMMARY: Western Area Power Administration (WAPA) proposes new formula rates and revisions to the existing Energy Imbalance (EI) and Generator Imbalance (GI) rate schedules for the Central Valley Project (CVP). The new rates are associated with two events: Participation in the California Independent System Operator's (CAISO) Energy Imbalance Market (EIM) and aligning CVP's Sale of Surplus Products (SSP) with other WAPA regions.

DATES: A consultation and comment period will begin July 31, 2020 and end October 29, 2020. WAPA will present a detailed explanation of the proposed formula rates and other modifications at a public information forum that will be held on August 17, 2020, from 9 a.m. to 12 p.m. PDT. WAPA also will host a public comment forum on August 17, 2020, starting at 1 p.m. which will remain open until all comments are acknowledged, or no later than 4 p.m. PDT. WAPA will conduct both the public information forum and public comment forum via WebEx. Instructions for participating in the forums via WebEx will be posted on WAPA's website at least 14 days prior to the public information and comment forums at <https://www.wapa.gov/regions/SN/rates/Pages/Rate-Case-2021-WAPA-194.aspx>. WAPA will accept written comments any time during the consultation and comment period.

ADDRESSES: Written comments and requests to be informed of Federal Energy Regulatory Commission (FERC) actions concerning the proposed formula rates and other changes submitted by WAPA to FERC for approval should be sent to: Ms. Sonja Anderson, Regional Manager, Sierra Nevada Region, Western Area Power Administration, 114 Parkshore Drive, Folsom, California 95630, or email:

SNR-RateCase@wapa.gov. WAPA will post information about the proposed formula rates, other changes and written comments received to its website at: <https://www.wapa.gov/regions/SN/rates/Pages/Rate-Case-2021-WAPA-194.aspx>.

FOR FURTHER INFORMATION CONTACT: Ms. Autumn Wolfe, Rates Manager, Sierra Nevada Region, Western Area Power Administration, (916) 353-4686 or email: SNR-RateCase@wapa.gov.

SUPPLEMENTARY INFORMATION: To accommodate WAPA's participation in EIM as a Transmission Provider within the Balancing Authority of Northern California (BANC) Balancing Authority Area (BAA), WAPA is proposing new formula rate schedules for: (1) EIM Administrative Service (CV-EIM1S), (2) EIM EI Service (CV-EIM4S), and (3) EIM GI Service (CV-EIM9S). WAPA is planning to participate in the EIM through BANC as the Balancing Authority and EIM Entity for the WAPA Sub-Balancing Authority Area (Sub-BAA). EIM settles EI and GI services differently than WAPA's existing rate schedules for similar services. In EIM, CAISO economically dispatches energy under its EIM Tariff to meet the imbalances for loads and resources over multiple BAAs. CAISO provides a centralized, automated, and region-wide dispatch for imbalances. The proposed new EIM Administrative Services formula rate would allow WAPA to pass through administrative costs incurred by WAPA resulting from its participation in EIM as a Transmission Provider. The proposed new formula rates and cost allocation for Administrative, EI and GI services would be in effect when WAPA is participating in the EIM, and to the extent WAPA incurs associated settlements during market suspension or contingency.

In no relation to EIM, WAPA proposes revising existing rate schedules for EI services (CV-EID4) and GI services (CV-GID1). WAPA proposes to settle EI services financially rather than with energy. The proposed component one modification to both EI and GI schedules is: "[EI service/GI service] is applied to deviations as follows unless otherwise dictated by contract or policy: (1) Deviations within the bandwidth will be tracked and settled financially, at the greater of the California Independent System Operator market price, or WAPA's actual cost." The GI schedule further adds to component one: "to the extent that an entity incorporates intermittent resources, deviations will be charged as follows unless otherwise dictated by contract or
