Description: Section 466(a)(5)(C) of the Social Security Act requires states to enact laws ensuring a simple civil process for voluntarily acknowledging paternity via an affidavit. The development and use of an affidavit for the voluntary acknowledgment of paternity would include the minimum requirements of the affidavit specified by the Secretary of Health and Human Services under section 452(a)(7) of the Social Security Act and give full faith and credit to such an affidavit signed in any other state according to its procedures. The state must provide that, before a mother and putative father can sign a voluntary acknowledgement of paternity, the mother and putative father must be given notice, orally and in writing of the alternatives to, the legal consequences of, and the rights (including any rights, if one parent is a minor, due to minority status) and responsibilities of acknowledging paternity. The affidavits will be used by hospitals, birth record agencies, and other entities participating in the voluntary paternity establishment program to collect information from the parents of nonmarital children.

Respondents: The parents of nonmarital children, state and tribal agencies operating child support programs under Title IV–D of the Social Security Act, hospitals, birth record agencies, and other entities participating in the voluntary paternity establishment program.
