Consultation and Coordination With Tribal Governments (Executive Order 13175)

The Department of the Interior strives to strengthen its government-to-government relationship with Indian Tribes through a commitment to consultation with Indian Tribes and recognition of their right to self-governance and Tribal sovereignty. We have evaluated this notice under the Department’s consultation policy and under the criteria of Executive Order 13175 and have determined there to be substantial direct effects on federally recognized Tribes because the irrigation projects are located on or associated with Indian reservations. To fulfill its consultation responsibility to Tribes and Tribal organizations, BIA communicates, coordinates, and consults on a continuing basis with these entities on issues of water delivery, water availability, and costs of operation, maintenance, and rehabilitation of projects that concern them. This is accomplished at the individual irrigation project by project, agency, and regional representatives, as appropriate, in accordance with local protocol and procedures. This notice is one component of our overall coordination and consultation process to provide notice to, and request comments from, these entities when we adjust irrigation assessment rates.

Notice of Availability of the Record of Decision and Approved Resource Management Plan for the Missoula Field Office, Montana

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of availability.

SUMMARY: In accordance with the National Environmental Policy Act of 1969, as amended, and the Federal Land Policy and Management Act of 1976 (FLPMA), as amended, the Department of the Interior, Montana/Dakotas Bureau of Land Management (BLM) has prepared a Record of Decision and Approved Resource Management Plan (RMP) with an associated Final Environmental Impact Statement (EIS) for BLM public lands and resources managed by the Missoula Field Office, Montana. By this notice, the BLM is announcing the availability of the Record of Decision and Approved RMP.

ADDRESSES: Copies of the Record of Decision and Approved RMP are available at the Missoula Field Office, 3235 Fort Missoula Road, Missoula, MT 59804, or may be viewed online at: https://eplanning.blm.gov.
FOR FURTHER INFORMATION CONTACT: Maggie Ward, RMP Project Manager, Missoula Field Office, at telephone: (406) 329–3914, and at the mailing address and website listed earlier. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service (FRS) at 1–800–877–8339 to contact Ms. Ward during normal business hours. The FRS is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: The Missoula Approved RMP replaces the 1986 Garnet RMP. The Missoula Approved RMP provides a single, comprehensive land use plan that guides management on approximately 163,000 acres of BLM-managed public lands and 267,000 acres of Federal mineral estate in western Montana in Flathead, Granite, Lake, Lincoln, Mineral, Missoula, Powell, Ravalli, and Sanders counties. Over 99 percent of the BLM-managed public lands are in Granite, Missoula, and Powell counties.

The BLM developed the Missoula RMP in collaboration with three cooperating agencies. The alternative selected as the Approved RMP is Alternative B with components of sub-Alternative C, as described in the Proposed RMP. It provides for a balanced combination of goals, objectives, allowable uses, and management actions.

The Notice of Availability for the Missoula Proposed RMP was published in the Federal Register on February 14, 2020, which initiated a 30-day protest period and a 60-day Governor’s consistency review period (85 FR 8607). The BLM received 72 timely protest submissions. All protests have been resolved and/or dismissed by the BLM Director. For a full description of the issues raised during the protest period and how they were addressed, please refer to the Director’s Protest Resolution Report, which is available at the website listed earlier (see ADDRESSES).

The Montana Governor submitted a letter identifying certain concerns related to the consistency of the Proposed RMP with State plans. After a thorough review, the BLM determined that the Approved RMP is consistent with existing State plans; however, as a result of the Governor’s consistency review comments, the BLM clarified in the glossary that administrative use applies to State access needs, and provided additional wording in the Judith Mountains Special Recreation Management Area for the protection of westslope cutthroat trout habitat.

The Approved RMP identifies comprehensive long-range decisions for the management and use of resources on BLM-administered public lands, focusing on the principles of multiple use and sustained yield set forth in FLPMA.
