

BB Groves, LLC (applicant) for an incidental take permit (ITP) under the Endangered Species Act of 1973, as amended (ESA; 16 U.S.C. 1531 *et seq.*). The applicant requests the ITP to take the federally listed sand skink (*Neoseps reynoldsi*) incidental to the construction of a housing development (project) in Orange County, Florida. We request public comment on the application, which includes the applicant's proposed habitat conservation plan (HCP), and the Service's preliminary determination that this HCP qualifies as "low-effect," categorically excluded, under the National Environmental Policy Act (NEPA; 42 U.S.C. 4231 *et seq.*). To make this determination, we used our environmental action statement and low-effect screening form, which are also available for public review.

Project

BB Groves, LLC requests a 5-year ITP to take sand skinks through the conversion of approximately 13.15 acres of occupied skink foraging and sheltering habitat for the construction of a housing development located on a 120.18-acre parcel in Sections 30 and 31; Township 24 South; Range 27 East, Orange County, Florida. The applicant proposes to mitigate for take of the sand skinks by purchasing 26.30 credits from a Service-approved conservation bank. The Service would require the applicant to make this purchase prior to engaging in activities associated with the project.

Public Availability of Comments

Before including your address, phone number, email address, or other personal identifying information in your comment, be aware that your entire comment—including your personal identifying information—may be made available to the public. While you may request that we withhold your personal identifying information, we cannot guarantee that we will be able to do so.

Our Preliminary Determination

The Service has made a preliminary determination that the applicant's project, including land clearing, infrastructure building, landscaping, and the proposed mitigation measures, would individually and cumulatively have a minor or negligible effect on sand skinks and the environment. Therefore, we have preliminarily concluded that the ITP for this project would qualify for categorical exclusion and the HCP is low effect under our NEPA regulations at 43 CFR 426.3005 and 426.3010. A low-effect HCP is one that would result in (1) minor or negligible effects on federally listed, proposed, and

candidate species and their habitats; (2) minor or negligible effects on other environmental values or resources; and (3) impacts that, when considered together with the impacts of other past, present, and reasonably foreseeable similarly situated projects, would not result in significant cumulative effects to environmental values or resources over time.

Next Steps

The Service will evaluate the application and the comments received to determine whether to issue the requested permit. We will also conduct an intra-Service consultation pursuant to section 7 of the ESA to evaluate the effects of the proposed take. After considering the preceding findings, we will determine whether the permit issuance criteria of section 10(a)(1)(B) of the ESA have been met. If met, the Service will issue ITP number TE 75283D-0 to BB Groves, LLC.

Authority

The Service provides this notice under section 10(c) (16 U.S.C. 1539(c)) of the ESA and NEPA regulation 40 CFR 1506.6.

Jay Herrington,

Field Supervisor, Jacksonville Field Office.

BILLING CODE 4333-15-P

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[LLWO430000/20X/L12200000.PM0000/241E]

Notice of Use Authorizations; Special Recreation Permits, Other Than on Developed Recreation Sites; Adjustment in Fees

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice of fee adjustments.

SUMMARY: The Bureau of Land Management (BLM) is adjusting certain Special Recreation Permit (SRP) fees for various recreation activities on BLM-administered public lands and related waters. The BLM is adjusting the minimum fee for commercial, competitive, and organized group activities and events, and assigned sites.

FOR FURTHER INFORMATION CONTACT: Cory Roegner, Division of Recreation and Visitor Services, telephone: 573-261-0163, email: croegner@blm.gov. Persons who use a telecommunications device for the deaf (TDD) may call the Federal Relay Service at 1-800-877-8339 to contact Mr. Roegner during normal

business hours. The Service is available 24 hours a day, 7 days a week, to leave a message or question. You will receive a reply during normal business hours.

SUPPLEMENTARY INFORMATION: 43 CFR 2932.31 authorizes the BLM Director to periodically adjust SRP fees. This notice establishes that effective immediately, the SRP minimum fee for commercial use is \$115 per year (an increase from \$110). The minimum fee for both competitive events and organized group activities remains \$6 per person per day, and the minimum fee for an assigned site for exclusive commercial use is \$230 per site (an increase from \$220). Individual States also have the option of imposing application fees as a matter of cost recovery and/or establishing higher minimum fees for SRPs. The next fee adjustment is scheduled for March 1, 2023.

The intended effect of the fee calculation process is to ensure that fees cover administrative costs of permit issuance, provide a fair return to the U.S. Government for use of the public lands, and reflect fair market value. The BLM, in coordination with the U.S. Forest Service, adjusts the minimum commercial, competitive, organized group and activity special recreation permit fees, and minimum assigned site fees every 3 years.

These fees are calculated and adjusted based on the change in the Implicit Price Deflator-Gross Domestic Product Index (IPD-GDP). The IPD-GDP is also available from the U.S. Department of Commerce, Bureau of Economic Analysis, at the following website: http://www.bea.gov/iTable/index_nipa.cfm.

Authority: 43 U.S.C. 1740, 16 U.S.C. 6802, and 43 CFR 2932.31.

Thomas Heinlein,

Acting Assistant Director, National Conservation Lands and Community Partnerships.
