II. Background

FMCSA received applications from 35 individuals who requested an exemption from the vision standard in the FMCSRs. FMCSA has evaluated the eligibility of these applicants and concluded that granting these exemptions would not provide a level of safety that would be equivalent to, or greater than, the level of safety that would be obtained by complying with §391.41(b)(10).

III. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such an exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. FMCSA grants exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

The Agency’s decision regarding these exemption applications is based on medical reports about the applicants’ vision, as well as their driving records and experience driving with the vision deficiency.

IV. Conclusion

The Agency has determined that these applicants do not satisfy the eligibility criteria or meet the terms and conditions of the Federal exemption and granting these exemptions would not provide a level of safety that would be equivalent to, or greater than, the level of safety that would be obtained by complying with § 391.41(b)(10). Therefore, the 35 applicants in this notice have been denied exemptions from the physical qualification standards in § 391.41(b)(10).

Each applicant has, prior to this notice, received a letter of final disposition regarding his/her exemption request. Those decision letters fully outlined the basis for the denial and constitute final action by the Agency. This notice summarizes the Agency’s recent denials as required under 49 U.S.C. 31315(b)(4) by periodically publishing names and reasons for denial.

The following 23 applicants had no experience operating a CMV:

Asa A. Ames (ID)
Brooks A. Browder (TN)
Victoria A. Chappell (GA)
Charles P. Donovan (IN)
Marc S. Fadding (MA)
Timothy W. Finley (NE)
Leslie T. Howell (MO)
Faizul A. Jumarally (DE)
Jerome W. Koon (ND)
Alexander M. Lopez (Al)
Christopher R. Manoff (OR)
Robin L. Merica (MD)
Richard R. Moreira Aguilar (NJ)
Kevin J. Murray (NH)
Alexander D. Olson (MN)
Mahindra S. Ramnarine (PA)
Laurie A. Rossi (MD)
Anthony J. Sikora (IL)
Shaun C. Sundstrom (NJ)
Joy Tobias (NC)
Kayvan Varyani (NM)
Ronal V. Warsinger (CA)
Scot J. Yacino (MA)

The following four applicants did not have 3 years of experience driving a CMV on public highways with their vision deficiencies:

Larry M. Christiansen (IN)
Abanobob S. Gadkalikar (TX)
Jimmy J. Holcombe (AZ)
Scott J. Schwartz (KS)

The following applicant did not have 3 years of recent experience driving a CMV on public highways with the vision deficiency:

Bruce P. Friedland (MD)

The following applicant did not have an optometrist or ophthalmologist willing to make a statement that they are able to operate a commercial vehicle from a vision standpoint:

Robert D. Tagaloni (NY)

The following three applicants were denied for multiple reasons:

John F. Finn (MO); Thomas M. Henry (MD); and James M. Hughes (IL)

The following three applicants drove interstate while restricted to intrastate driving:

Robert C. Hill (OH); Robert L. King (AR); and Martin Rosado (CA)

DEPARTMENT OF TRANSPORTATION
Federal Motor Carrier Safety Administration
[Docket No. FMCSA–2020–0047]

Qualification of Drivers; Exemption Applications: Epilepsy and Seizure Disorders

AGENCY: Federal Motor Carrier Safety Administration (FMCSA), DOT.

ACTION: Notice of final disposition.

SUMMARY: FMCSA announces its decision to exempt 10 individuals from the requirement in the Federal Motor Carrier Safety Regulations (FMCSRs) that interstate commercial motor vehicle (CMV) drivers have “no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause loss of consciousness or any loss of ability to control a CMV.” The exemptions enable these individuals who have had one or more seizures and are taking anti-seizure medication to operate CMVs in interstate commerce.

DATES: The exemptions were applicable on July 21, 2020. The exemptions expire on June 21, 2022.

FOR FURTHER INFORMATION CONTACT: Ms. Christine A. Hydock, Chief, Medical Programs Division, (202) 366–4001, fmcsamedical@dot.gov, FMCSA, Department of Transportation, 1200 New Jersey Avenue SE, Room W64–224, Washington, DC 20590–0001. Office hours are from 8:30 a.m. to 5 p.m., ET, Monday through Friday, except Federal holidays. If you have questions regarding viewing or submitting material to the docket, contact Docket Operations, (202) 366–9826.

SUPPLEMENTARY INFORMATION:

I. Public Participation

A. Viewing Documents and Comments

To view comments, as well as any documents mentioned in this notice as being available in the docket, go to http://www.regulations.gov/ docket?ID=FMCSA-2020-0047 and choose the document to review. If you do not have access to the internet, you may view the docket online by visiting the Docket Operations in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays. To be sure someone is there to help you, please call (202) 366–9317 or (202) 366–9826 before visiting Docket Operations.

B. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.dot.gov/privacy.

II. Background

On May 19, 2020, FMCSA published a notice announcing receipt of applications from 10 individuals requesting an exemption from the epilepsy and seizure disorders.
prohibition in 49 CFR 391.41(b)(8) and requested comments from the public (85 FR 30007). The public comment period ended on June 18, 2020, and one comment was received.

FMCSA has evaluated the eligibility of these applicants and determined that granting exemptions to these individuals would achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with §391.41(b)(8).

The physical qualification standard for drivers regarding epilepsy found in §391.41(b)(6) states that a person is physically qualified to drive a CMV if that person has no established medical history or clinical diagnosis of epilepsy or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness or any other condition which is likely to cause the loss of consciousness.

In addition to the regulations, FMCSA has published advisory criteria to assist medical examiners (MEs) in determining whether drivers with certain medical conditions are qualified to operate a CMV in interstate commerce.

III. Discussion of Comments

FMCSA received one comment in this proceeding from the Minnesota State Driver’s Licensing Agency stating they have no objections to FMCSA issuing an exemption to Mr. Sonny Chase.

IV. Basis for Exemption Determination

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

The Agency’s decision regarding these exemption applications is based on the 2007 recommendations of the Agency’s Medical Expert Panel. The Agency conducted an individualized assessment of each applicant’s medical information, including the root cause of the respective seizure(s) and medical information about the applicant’s seizure history, the length of time that has elapsed since the individual’s last seizure, the stability of each individual’s treatment regimen and the duration of time on or off of anti-seizure medication. In addition, the Agency reviewed the treating clinician’s medical opinion related to the ability of the driver to safely operate a CMV with a history of seizure and each applicant’s driving record found in the Commercial Driver’s License Information System for commercial driver’s license (CDL) holders, and interstate and intrastate inspections recorded in the Motor Carrier Management Information System. For non-CDL holders, the Agency reviewed the driving records from the State Driver’s Licensing Agency (SDLA). A summary of each applicant’s seizure history was discussed in the May 19, 2020, Federal Register notice (85 FR 30007) and will not be repeated in this notice.

These 10 applicants have been seizure-free over a range of 8 to 29 years while taking anti-seizure medication and maintained a stable medication treatment regimen for the last 2 years. In each case, the applicant’s treating physician verified his or her seizure history and supports the ability to drive commercially.

The Agency acknowledges the potential consequences of a driver experiencing a seizure while operating a CMV. However, the Agency believes the drivers granted this exemption have demonstrated that they are unlikely to have a seizure and their medical condition does not pose a risk to public safety.

Consequently, FMCSA finds that each case exempting these applicants from the epilepsy and seizure disorder prohibition in §391.41(b)(8) is likely to achieve a level of safety equal to that existing without the exemption.

V. Conditions and Requirements

The terms and conditions of the exemption are provided to the applicants in the exemption document and includes the following: (1) Each driver must maintain a stable treatment during the 2-year exemption period; (2) each driver must submit annual reports from their treating physicians attesting to the stability of treatment and that the driver has remained seizure-free; (3) each driver must undergo an annual medical examination by a certified ME, as defined by §390.5; and (4) each driver must provide a copy of the annual medical certification to the employer for retention in the driver’s qualification file, or keep a copy of his/her driver’s qualification file if he/she is self-employed. The driver must also have a copy of the exemption when driving, for presentation to a duly authorized Federal, State, or local enforcement official.

VI. Preemption

During the period the exemption is in effect, no State shall enforce any law or regulation that conflicts with this exemption with respect to a person operating under the exemption.

VII. Conclusion

Based upon its evaluation of the 10 exemption applications, FMCSA exempts the following drivers from the epilepsy and seizure disorder prohibition, §391.41(b)(8), subject to the requirements cited above:

Joseph Bellamy (MD)
Brian Bommer (OH)
Allen Bradley (AL)
Sonny Chase (MN)
Stephen Claphan (MI)
Robert King (NH)
Jason Miller (NE)
Michael Morris (OR)
Daryl Schuetz (CO)
Thomas Smutnik (PA)

In accordance with 49 U.S.C. 31315(b), each exemption will be valid for 2 years from the effective date unless revoked earlier by FMCSA. The exemption will be revoked if the following occurs: (1) The person fails to comply with the terms and conditions of the exemption; (2) the exemption has resulted in a lower level of safety than was maintained prior to being granted; or (3) continuation of the exemption would not be consistent with the goals and objectives of 49 U.S.C. 31136(e) and 31315(b).

Larry W. Minor, Associate Administrator for Policy.
