## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–89507; File No. SR–CBOE–2020–077]

### Self-Regulatory Organizations; Cboe Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend Rule 5.34 (Order and Quote Price Protection Mechanisms and Risk Controls) in Connection With Sell Market Orders in No-Bid Series

August 7, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the “Act”),<sup>1</sup> and Rule 19b–4 thereunder,<sup>2</sup> notice is hereby given that on August 5, 2020, Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) filed with the Securities and Exchange Commission (the “Commission”) the proposed rule change as described in Items I and II below, which Items have been prepared by the Exchange. The Exchange filed the proposal as a “non-controversial” proposed rule change pursuant to Section 19(b)(3)(A)(iii) of the Act<sup>3</sup> and Rule 19b–4(f)(6) thereunder.<sup>4</sup> The Commission is publishing this notice to solicit

comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

Cboe Exchange, Inc. (the “Exchange” or “Cboe Options”) proposes to amend Rule 5.34 (Order and Quote Price Protection Mechanisms and Risk Controls) in connection with sell market orders in no-bid series. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange’s website (<http://www.cboe.com/AboutCBOE/CBOELegalRegulatoryHome.aspx>), at the Exchange’s Office of the Secretary, and at the Commission’s Public Reference Room.

#### II. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization’s Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to amend Rule 5.34(a)(1) in connection with the System’s handling of a sell market orders in no-bid series. Specifically, if the System receives a sell market order in a series after it is open for trading with a national best bid (“NBB”) of zero, current Rule 5.34(a)(1)(A)(ii) provides that if the NBO in the series is greater than \$0.50, then the System cancels or rejects the market order. The proposed rule change adds to Rule 5.34(a)(1)(A)(ii) that if the NBO in the series is greater than \$0.50, then the System cancels or rejects the market order or routes the market order to PAR for manual handling, subject to a User’s instructions. This proposed handling in consistent with order instructions a User may choose to apply to an order wherein, if the order is not eligible for electronic handling, the order routes to

PAR for manual handling.<sup>5</sup> Current Rule 5.34(a)(1)(A)(ii), as written, does not specifically consider the case in which a User’s order instructions would route an order to PAR when such order is not eligible for electronic processing because the NBO in the series is greater than \$0.50.

The System, however, currently handles orders under these circumstances in accordance with the User instruction to route such an order for manual handling.<sup>6</sup> The proposed rule change codifies this behavior. The Exchange notes that Rule 5.34 was recently revised in connection with a technology migration. The rule filing that revised Rule 5.34 consolidated all order and quote price protection mechanisms and risk controls provisions from the pre-migration Exchange Rulebook into one single rule (current Rule 5.34) as well as harmonized Rule 5.34 with the corresponding rules of the Exchange’s affiliated exchanges, Cboe EDGX Exchange, Inc. (“EDGX Options”) and Cboe C2 Exchange, Inc. (“C2”).<sup>7</sup> The Exchange’s former rule provision regarding market orders in no-bid (offer) series provided that if the Exchange’s best offer (*i.e.*, NBO) was greater than \$0.50, the order would route to PAR if so instructed by the submitting firm.<sup>8</sup> The Exchange inadvertently omitted this specific handling process when it amended current Rule 5.34 in connection with the technology migration.

###### 2. Statutory Basis

The Exchange believes the proposed rule change is consistent with the Securities Exchange Act of 1934 (the “Act”) and the rules and regulations thereunder applicable to the Exchange and, in particular, the requirements of Section 6(b) of the Act.<sup>9</sup> Specifically, the Exchange believes the proposed rule change is consistent with the Section

<sup>5</sup> See *e.g.* Rule 5.6(c), a “Default” order is an order a User designates for electronic processing, and which order (or unexecuted portion) routes to PAR for manual handling if not eligible for electronic processing.

<sup>6</sup> See Cboe U.S. Options FIX Specification (July 13, 2020) at 12, available at [https://cdn.cboe.com/resources/membership/US\\_Options\\_FIX\\_Specification.pdf](https://cdn.cboe.com/resources/membership/US_Options_FIX_Specification.pdf).

<sup>7</sup> See Securities Exchange Release No. 86923 (September 10, 2019), 84 FR 48664 (September 16, 2019) (SR–CBOE–2019–057).

<sup>8</sup> Former Rule 6.13(b)(vi)(B) provided that if the Exchange best offer in a no-bid series is greater than \$0.50, then the order entry firm has the discretion to have the market order to sell via the order handling system pursuant to Rule 6.12 (which permitted a submitting firm to opt to route orders not eligible for electronic processing to a designated order management terminal or PAR Workstation).

<sup>3</sup> 15 U.S.C. 78s(b)(3)(A)(iii).

<sup>4</sup> 17 CFR 240.19b–4(f)(6).

6(b)(5)<sup>10</sup> requirements that the rules of an exchange be designed to prevent fraudulent and manipulative acts and practices, to promote just and equitable principles of trade, to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and facilitating transactions in securities, to remove impediments to and perfect the mechanism of a free and open market and a national market system, and, in general, to protect investors and the public interest. Additionally, the Exchange believes the proposed rule change is consistent with the Section 6(b)(5)<sup>11</sup> requirement that the rules of an exchange not be designed to permit unfair discrimination between customers, issuers, brokers, or dealers.

In particular, the proposed rule change will remove impediments to and perfect the mechanism of a free and open market and national market system, as well as protect investors, because it will allow the System to handle orders in a manner that is consistent with the intent of a User's order instruction to route orders to PAR for manual handling that are not eligible for electronic processing, including when the NBO is greater than \$0.50 in a no-bid (offer) series. Manual handling rather than cancellation of orders in these circumstances may provide these orders with additional execution opportunities. Additionally, the Exchange does not believe that the proposed rule change raises any new or novel issues for, nor will affect the protection of investors, because, less than a year ago, the Exchange's effective rules at the time included the same order handling provision.<sup>12</sup> The proposed rule change codifies current functionality in the Rules, which was inadvertently omitted in a previous rule filing, which additional transparency benefits investors.

#### *B. Self-Regulatory Organization's Statement on Burden on Competition*

The Exchange does not believe that the proposed rule change will impose any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act. The Exchange does not believe that the proposed rule change will impose any burden on intramarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because it will allow orders to route in accordance with a User's intended order instruction, and will apply equally to all

Users' orders that are designated to route to PAR when ineligible for electronic processing.

The Exchange does not believe that the proposed rule change will impose any burden on intermarket competition that is not necessary or appropriate in furtherance of the purposes of the Act because the proposed rule change is not intended to address competitive issues, but rather conforms the Rules to current System functionality in a manner that is consistent with order instructions already available to Users. The Exchange additionally notes that the proposed rule change readopts rule language that had prior been in the Exchange's Rules up until less than a year ago.<sup>13</sup>

#### *C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others*

The Exchange neither solicited nor received comments on the proposed rule change.

### **III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action**

Because the foregoing proposed rule change does not: (i) Significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A) of the Act<sup>14</sup> and Rule 19b-4(f)(6) thereunder.<sup>15</sup>

A proposed rule change filed pursuant to Rule 19b-4(f)(6) under the Act<sup>16</sup> normally does not become operative for 30 days after the date of its filing. However, Rule 19b-4(f)(6)(iii)<sup>17</sup> permits the Commission to designate a shorter time if such action is consistent with the protection of investors and the public interest. The Exchange has asked the Commission to waive the 30-day operative delay. The Exchange believes that waiver of the operative delay is consistent with the protection of investors and the public interest because the proposed rule change does

not raise any new or novel issue as the proposed rule is merely restating rule language that had previously been approved by the Commission in the Exchange Rules up until less than a year ago.<sup>18</sup> The Commission believes that waiver of the 30-day operative delay is consistent with the protection of investors and the public interest because the proposal does not raise any new issues and will allow the Exchange to remedy its recent inadvertent omission without delay. Therefore, the Commission hereby waives the operative delay and designates the proposal as operative upon filing.<sup>19</sup>

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule change should be approved or disapproved.

### **IV. Solicitation of Comments**

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

## SECURITIES AND EXCHANGE COMMISSION

[Release No. 34-89471; File No. SR-CboeBZX-2020-05]

### Self-Regulatory Organizations; Cboe BZX Exchange, Inc.; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the Options Regulatory Fee

August 4, 2020.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (the "Act"),<sup>1</sup> and Rule 19b-4 thereunder,<sup>2</sup> notice is hereby given that on July 21, 2020, Cboe BZX Exchange, Inc. (the "Exchange" or "BZX") filed with the Securities and Exchange Commission (the "Commission") the proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to

solicit comments on the proposed rule change from interested persons.

#### I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

Cboe BZX Exchange, Inc. (the "Exchange" or "BZX") proposes to amend its Fees Schedule relating to the Options Regulatory Fee. The text of the proposed rule change is provided in Exhibit 5.

The text of the proposed rule change is also available on the Exchange's website ([http://markets.cboe.com/us/equities/regulation/rule\\_filings/bzx/](http://markets.cboe.com/us/equities/regulation/rule_filings/bzx/)), at the Exchange's Office of the Secretary, and at the Commission's Public Reference Room.

#### II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

##### A. Self-Regulatory Organization's Statement of the Purpose of, and the Statutory Basis for, the Proposed Rule Change

###### 1. Purpose

The Exchange proposes to reduce the Options Regulatory Fee ("ORF") applicable to the Exchange's options platform ("BZX Options") from \$0.0002 per contract to \$0.0001 per contract, effective August 3, 2020, in order to help ensure that revenue collected from the ORF, in combination with other regulatory fees and fines, does not exceed the Exchange's total regulatory costs.

The ORF is assessed by the Exchange to each Member for options transactions cleared by the Member that are cleared by the Options Clearing Corporation ("OCC") in the customer range, regardless of the exchange on which the transaction occurs.<sup>3</sup> In other words, the Exchange imposes the ORF on all customer-range transactions cleared by a Member, even if the transactions do not take place on the Exchange. The ORF is collected by OCC on behalf of the

Exchange from the Clearing Member or non-Clearing Member that ultimately clears the transaction. With respect to linkage transactions, the Exchange reimburses its routing broker providing Routing Services for options regulatory fees it incurs in connection with the Routing Services it provides.

Revenue generated from ORF, when combined with all of the Exchange's other regulatory fees and fines, is designed to recover a material portion of the regulatory costs to the Exchange of the supervision and regulation of Member customer options business including performing routine surveillances, investigations, examinations, financial monitoring, and policy, rulemaking, interpretive, and enforcement activities. Regulatory costs include direct regulatory expenses and certain indirect expenses for work allocated in support of the regulatory function. The direct expenses include in-house and third-party service provider costs to support the day to day regulatory work such as surveillances, investigations and examinations. The indirect expenses include support from such areas as human resources, legal, information technology, facilities and accounting. These indirect expenses are estimated to be approximately 6% of BZX Options' total regulatory costs for 2020. Thus, direct expenses are estimated to be approximately 94% of total regulatory costs for 2020. In addition, it is BZX Options' practice that revenue generated from ORF not exceed more than 75% of total annual regulatory costs.

The Exchange monitors its regulatory costs and revenues at a minimum on a semi-annual basis. If the Exchange determines regulatory revenues exceed or are insufficient to cover a material portion of its regulatory costs in a given year, the Exchange will adjust the ORF by submitting a fee change filing to the Commission. The Exchange also notifies Members of adjustments to the ORF via regulatory circular and/or Exchange Notice.<sup>4</sup> Based on the Exchange's most recent semi-annual review, the Exchange is proposing to reduce the amount of ORF that will be collected by the Exchange from \$0.0002 per contract side to \$0.0001 per contract side. The proposed decrease is based on the Exchange's estimated projections for its

<sup>4</sup> The Exchange provides Members with such notice at least 30 calendar days prior to the effective date of the change. The Exchange notified Members of the proposed rate change for August 3, 2020 on July 1, 2020. See BZX Regulatory Circular RG20-042 "Options Regulatory Fee Decrease and Discontinuation of Regulatory Circular" and Exchange Notice, C2020070100 "Cboe Options Exchanges Regulatory Fee Update Effective August 3, 2020."
