Abstract: The licensing and operation of vending facilities by blind vendors under the Act is supported by a combination of VR program funds, state appropriations, Federal vending machine income, and levied set asides from vendors. It provides persons who are blind with remunerative employment and self-support through the operation of vending facilities on Federal and other property. The program recruits qualified individuals who are blind, trains them on the management and operation of small business enterprises, and then licenses qualified blind vendors to operate the facilities. As required by 20 U.S.C. 107a(6)(a), the Secretary of Education, through the Commissioner of the Rehabilitation Services Administration (RSA), conducts periodic evaluations of the programs authorized under the Act. In addition, section 107b(4) requires entities designated as the SLA to make such reports in such form and containing such information as the Secretary may from time to time require. The information to be collected is a necessary component of the evaluation process and forms the basis for annual reporting to the Department. The data are also used to understand the distribution type and profitability of vending facilities throughout the country. Such information is useful in providing technical assistance to SLAs and property managers and in monitoring the implementation of the program. The Code of Federal Regulations, at 34 CFR 395.8, specifies that vending machine income received by the state from Federal property managers can be distributed to blind vendors in an amount not to exceed the national average income for blind vendors. This amount is determined through data collected by the RSA-15: Report of Randolph-Sheppard Vending Facility Program. In addition, the collection of information ensures the provision and transparency of activities

referenced in 34 CFR 395.12 related to disclosure of program and financial information and assists with the requirement in 34 CFR 395.11 regarding the provision of training.
