BILLING CODE 4150–03–P

DEPARTMENT OF HEALTH AND HUMAN SERVICES

Office of the Secretary

Delegation of Authority

Notice is hereby given that I have delegated jointly to the Administrator, Centers for Medicare & Medicaid Services (CMS), and to the Director, National Institutes of Health (NIH), the authorities vested in the Secretary under Section 1881(c)(7)(B)–(E) [42 U.S.C. 1395rr(c)(7)(B)–(E)] of the Social Security Act (the Act), as amended, to assemble and analyze data reported by network organizations, transplant centers, and other sources on all end-stage renal disease (ESRD) patients.

Limitations

This delegation of authorities under Section 1881(c)(7)(B)–(E) [42 U.S.C. 1395rr(c)(7)(B)–(E)] of the Act shall be shared between CMS and NIH as these authorities relate to their respective programs. CMS and NIH will implement proactive collaborative measures such as ongoing status checks to discuss progress and resolve any potential disputes.

This delegation supersedes any prior delegations under this section, including the delegation dated September 6, 1984 (49 FR 35247).

This delegation of authority may be re-delegated.

This delegation of authority is effective immediately.

I hereby affirm and ratify any actions taken by the Administrator, CMS, and the Director, NIH, or their subordinates, which involved the exercise of authority under Section 1881(c)(7)(B)–(E) [42 U.S.C. 1395rr(c)(7)(B)–(E)] of the Act, as amended, delegated herein prior to the effective date of this delegation of authority.

Awards Unsolicited Proposal for the Health Communication Initiative Program

AGENCY: Office of Clinical and Preventive Services, Indian Health Service, Department of Health and Human Services.

ACTION: Notice of award of a single-source unsolicited grant to Johns Hopkins University in Baltimore, Maryland.

Recipient: Johns Hopkins University, Baltimore, Maryland.

Purpose of the Award: Cooperative agreement to collect, develop, package and distribute information to American Indian and Alaska Native (AI/AN) communities to address the coronavirus disease 2019 (COVID–19)-specific recommendations on healthcare, in a culturally sensitive way.

Amount of Award: \$127,644 in Fiscal Year (FY) 2020.

Period of Performance: April 24, 2020–August 24, 2020.

SUMMARY: The Office of Clinical and Preventive Services (OCPS) announces the award of a single-source cooperative agreement in response to an unsolicited proposal from Johns Hopkins University, Baltimore, Maryland. The proposal submitted was not solicited either formally or informally by any federal government official.

OCPS performed an objective review of the unsolicited proposal from Johns Hopkins University (JHU) to develop information on proper actions to mitigate the spread of COVID–19, in a culturally sensitive way. The Johns Hopkins Bloomberg School of Public Health (JHSPH) Center for American

Indian Health (CAIH) mission is to work in partnerships with AI/AN communities to raise their health status, self-sufficiency, and health leadership to the highest possible level. This mission is accomplished through research, training and education, and service. The CAIH has more than nine facilities and approximately 100 staff in the Southwestern tribal communities to assist the Indian Health Service (IHS) in containing and mitigating COVID–19, while building a response model and set of communication materials for all IHS regions nationwide. The CAIH can draw on broad expertise from JHU for additional guidance and recommendations on best practices as the situation evolves.

The materials will be developed from the Centers for Disease Control and Prevention (CDC) and the Substance Abuse and Mental Health Services Administration (SAMHSA) guidance. Based on an internal review of the proposal and the immediate response of the IHS to address the COVID–19 public health emergency, OCPS determined that the proposal has merit.

The long history between the federal government and Native American Tribes and people has often been less than ideal. There are still barriers to the Native American community accepting instruction or direction from the federal government. There is great value in having a third party that has a good history with the community to gather, package and deliver recommendations, in a culturally sensitive way, on staying safe from this disease, when those recommendations may run contrary to cultural norms. This delivery avenue will be more acceptable to the community, and will be more readily recognized for implementation within AI/AN communities.

This award is being made noncompetitively because there is no current, pending, or planned funding opportunity announcement under which this proposal could be competed. OCPS has identified two additional key reasons to support rationale for awarding this unsolicited proposal:

1. The JHU CAIH is well known in the AI/AN communities for robust
