I. Overview

FTA is finalizing its update to its Joint Development Circular to increase flexibility for project sponsors to pursue joint development projects, reduce FTA oversight of joint development agreements negotiated between project sponsors and their partners, streamline FTA's project eligibility review process, and clarify prior guidance in FTA Circular 7050.1A. The final changes to the Circular affect: (1) The minimum threshold for the statutory "fair share of revenue" requirement; and (2) the submission and review process for FTA-assisted joint development projects. The final Circular also incorporates technical and conforming changes that increase clarity, conformity with existing law, and internal consistency.

This notice provides a summary of changes to Circular 7050.1A, and addresses comments received in response to the April 18, 2019 **Federal Register** notice of proposed updated circular and request for comments (84 FR 16339). The final Circular 7050.1B, *FTA Guidance on Joint Development*, is effective immediately and supersedes Circular 7050.1A. The final Circular applies to all new projects and those pending FTA approval at the time of the Circular's publication.

II. Changes to Circular 7050.1A

A. Fair Share of Revenue

Section 5302(3)(G)(iii) of title 49, United States Code, requires FTA-assisted joint development projects to provide a "fair share of revenue that will be used for public transportation." Prior to the October 1, 2014 effective date of Circular 7050.1A, FTA generally deferred to a project sponsor's assessment of a "fair share of revenue," and did not require any specific amount of revenue for transit from a joint development project. FTA defined "fair share of revenue" in Circular 7050.1A to incorporate a minimum revenue threshold that a joint development project must produce for transit purposes that at least equals the federal government's initial investment in the joint development project. (79 FR 50,728; 50,731-32).

Over time, FTA has found that defining a fair share of revenue minimum threshold unnecessarily limits the pool of potential projects by reducing flexibility for project sponsors and their partners to determine what amounts to a fair share of revenue.

Accordingly, the proposed Circular eliminated the fair share of revenue minimum threshold and monetary requirement. FTA received several comments supporting this proposal. In response, the final Circular adopts this change.

FTA allows the amount and form of revenue received by the project sponsor to be negotiated between joint development parties. Consistent with the proposed Circular and Circular 7050.1A, the project sponsor must continue to report to FTA the amount and source of the revenue it will receive, and the revenue must be used for transit purposes. FTA advises in the final Circular that the project sponsor should determine how to document its reasonable determination that the terms and conditions of the joint development improvement (including the share of revenue for public transportation which shall be provided thereunder) are reasonable and fair to the recipient. For example, a project sponsor's Board of Directors (or similar governing body) could, following a reasonable investigation, document the fair share of revenue determination in a Board resolution or other Board materials. This change provides discretion to the project sponsor, while also ensuring compliance with the fair share of revenue requirement in lieu of the certificate of compliance and baseline market analysis that FTA no longer requires, as discussed in Section (B) below.

Further, in response to a comment, and to provide additional flexibility to the project sponsor, FTA will no longer reserve the right to decline joint development project funding or approval if the project does not generate revenue for the project sponsor.

B. Submission and Review Process

Circular 7050.1A prescribed a process by which project proposals are submitted to FTA for review. It required a formal project proposal to include: (1) A completed project request form that contains pertinent information about the joint development project, including how the eligibility criteria are to be satisfied; (2) all proposed agreements between the project sponsor and project partners; (3) an executed certificate of compliance; and (4) two forms identifying other required and supplemental documentation, including a baseline market analysis to demonstrate a good faith effort to provide a fair share of revenue to the project sponsor.

FTA will update the project request form to reflect the changes regarding the "fair share of revenue" requirement
