[Docket No. OR20-12-000]

Targa NGL Pipeline Company LLC; Notice of Petition for Declaratory Order

Take notice that on August 6, 2020, pursuant to Rule 207(a)(2) of the Federal Energy Regulatory Commission's (Commission) Rules of Practice and Procedure, 18 CFR 385.207(a)(2) (2019), Targa NGL Pipeline Company LLC (Targa), filed a declaratory order petition seeking approval of the rate structure, terms of service, and prorationing methodology for a new committed service on its mixed natural gas liquids (NGLs) pipeline system from points in Oklahoma to Mont Belvieu, Texas, including an approximately 110 mile extension thereof (the Pipeline Extension.). Targa is developing the Pipeline Extension to enable it to transport NGLs from a planned interconnection with new third party-owned pipeline facilities in Kingfisher County, Oklahoma to Targa's affiliate's storage facilities at Mont Belvieu, Texas, all as more fully explained in the petition.

Any person desiring to intervene or to protest this filing must file in accordance with Rules 211 and 214 of the Commission's Rules of Practice and Procedure (18 CFR 385.211, 385.214). Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a notice of intervention or motion to intervene, as appropriate. Such notices, motions, or protests must be filed on or before the comment date. Anyone filing a motion to intervene or protest must serve a copy of that document on the Petitioner.

The Commission encourages electronic submission of protests and interventions in lieu of paper using the eFiling link at <http://www.ferc.gov>. Persons unable to file electronically should submit an original and 5 copies of the protest or intervention to the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426.

This filing is accessible on-line at <http://www.ferc.gov>, using the eLibrary

link and is available for review in the Commission's Public Reference Room in Washington, DC. ENVIRONMENTAL PROTECTION AGENCY

[FRL-10013-61-OA]

Request for Nominations of Candidates for the EPA's Science Advisory Board (SAB) and SAB Standing Committees: Extension of Nomination Period

AGENCY: Environmental Protection Agency (EPA).

ACTION: Request for nominations; extension of nomination period.

SUMMARY: On April 1, 2020, the U.S. Environmental Protection Agency (EPA) invited nominations of scientific experts from a diverse range of disciplines to be considered for appointment to the EPA Science Advisory Board (SAB) and four SAB standing committees described in this notice. On April 15, a federal district court vacated the grants policy articulated in EPA's 2017 federal advisory committee membership directive. In light of that intervening decision, the EPA is extending the nomination period until August 31, 2020. Appointments will be announced by the Administrator and are anticipated to be filled by the start of Fiscal Year 2021 (October 2020).

DATES: Nominations should be submitted in time to arrive no later than August 31, 2020.

SUPPLEMENTARY INFORMATION:

Background: The SAB is a chartered Federal Advisory Committee, established in 1978, under the authority of the Environmental Research, Development and Demonstration Authorization Act (ERDDAA), codified at 42 U.S.C. 4365, to provide independent scientific and technical peer review, consultation, advice and recommendations to the EPA Administrator. Members of the SAB constitute distinguished bodies of non-EPA scientists, engineers, and economists who are nationally and internationally recognized experts in

their respective fields. Members are appointed by the EPA Administrator for a three-year term and serve as Special Government Employees who provide independent expert advice to the agency. Additional information about the SAB is available at <http://www.epa.gov/sab>.

On April 15, the U.S. District Court for the Southern District of New York (SDNY) vacated Section 1 of EPA's 2017 federal advisory committee membership directive (2017 Directive), which announced "a requirement that no member of an EPA federal advisory committee be currently in receipt of EPA grants." As a result of the vacatur, Section 1 is no longer in effect and EPA is following the relevant policies as they existed before the 2017 Directive. However, because the SAB was still seeking nominations when the SDNY vacated Section 1, EPA is reopening the SAB's membership solicitations and accepting further nominations.

Expertise Sought for the SAB: The chartered SAB provides scientific advice to the EPA Administrator on a variety of EPA science and research. All the work of SAB standing committees and ad-hoc panels is conducted under the auspices of the chartered SAB. The chartered SAB reviews all SAB standing committee and ad-hoc panel draft reports and determines whether each is of a high enough quality to deliver to the EPA Administrator. The SAB Staff Office invites nominations to serve on the chartered SAB in the following scientific disciplines as they relate to human health and the environment: *Analytical chemistry; benefit-cost analysis; causal inference; complex systems; ecological sciences and ecological assessment; economics; engineering; forestry geochemistry; health sciences; hydrology; hydrogeology; medicine; microbiology; modeling; pediatrics; public health; risk assessment; social, behavioral and decision sciences; statistics; toxicology; epidemiology; and uncertainty analysis.*

The SAB Staff Office is especially interested in scientists in the disciplines described above who have knowledge and experience in *air quality; agricultural sciences; atmospheric sciences; benefit-cost analysis; complex systems; drinking water; energy and the environment; epidemiology; dose-response, exposure, and physiologically based pharmacokinetic (PBPK) modeling; water quality; water quantity and reuse; ecosystem services; community environmental health; sustainability; and waste management.* For further information about the chartered SAB membership appointment process and schedule,

please contact Dr. Thomas Armitage, DFO, by telephone at (202) 564-2155 or by email at armitage.thomas@epa.gov.

The SAB Staff Office is also seeking nominations of experts for possible vacancies on four SAB standing committees: The Agricultural Science Committee, the Chemical Assessment Advisory Committee; the Drinking Water Committee; and the Radiation Advisory Committee.

(1) The SAB Agricultural Science Committee (ASC) provides advice to the chartered SAB on matters that have been determined to have a significant direct impact on farming and agriculture-related industries. The SAB Staff Office invites the nomination of scientists with expertise in one or more of the following disciplines: *Agricultural science; agricultural economics, including the valuation of ecosystem goods and services; agricultural chemistry; agricultural engineering; agronomy and soil science; animal science; aquaculture science; biofuel engineering; biotechnology; crop science and phytopathology; environmental chemistry; forestry; and hydrology.* For further information about the ASC membership appointment process and schedule, please contact Dr. Shaunta Hill-Hammond, DFO, by telephone at (202) 564-3343 or by email at hill-hammond.shaunta@epa.gov.

(2) The SAB Chemical Assessment Advisory Committee (CAAC) provides advice through the chartered SAB regarding selected toxicological reviews of environmental chemicals. The SAB Staff Office invites the nomination of scientists with experience in chemical assessments and expertise in one or more of the following disciplines: *Toxicology, including, developmental/reproductive toxicology, and inhalation toxicology; carcinogenesis; dose-response, exposure, and physiologically based pharmacokinetic (PBPK) modeling; biostatistics; uncertainty analysis; epidemiology and risk assessment.* For further information about the CAAC membership appointment process and schedule, please contact Dr. Suhair Shallal, DFO, by telephone at (202) 564-2057 or by email at shallal.suhair@epa.gov.

(3) The SAB Drinking Water Committee (DWC) provides advice on the scientific and technical aspects of EPA's national drinking water program. The SAB Staff Office is seeking nominations of experts with experience on drinking water issues. Members should have expertise in one or more of the following disciplines: *Environmental engineering; epidemiology; microbiology; public health; toxicology, including new and*
