Abstract of Proposed Collection

The TechWomen program seeks to “empower, connect, and support the next generation of women leaders in STEM” by providing opportunities for them to reach their full potential and become role models for women and girls in their communities. Through mentorship and exchange, the TechWomen program is designed to strengthen participants’ professional capacity, increase mutual understanding between key networks of professionals, and expand women and girls’ interest in STEM careers by exposing them to female role models. During the five-week program, foreign participants engage with female leaders in project-based mentorships at leading companies in the Silicon Valley and Bay Area, participate in professional development workshops and networking events, and travel to Washington, DC for targeted meetings and special events to conclude the program. After their completion of the program, emerging leaders and mentors have the opportunity to reconnect during delegation trips to program countries in Africa, South and Central Asia, and the Middle East, which focus on expanding networks of women in STEM fields, creating and strengthening partnerships, encouraging girls to pursue STEM careers and ensuring the sustainability of mentor-fellow relationships. This program is funded pursuant to the Mutual Educational and Cultural Exchange Act of 1961 (22 U.S.C. 2451 *et seq.*).

To evaluate the impacts of the program, the U.S. Department of State’s Bureau of Educational and Cultural

Affairs (ECA) intends to conduct an evaluation of the program covering the period of 2011 through 2019. The evaluation will determine the strength and sustainability of professional networks created by the program and the extent to which these networks have been leveraged for collaborations between Alumnae to enact change. In order to do so, ECA contracted Social Impact (SI) in early 2020 to conduct an evaluation of the TechWomen program.

Methodology

The evaluation will use a mixed-methods design including a quantitative survey and key informant interviews (KIIs). Data from these methods will be used to assess the strength of mentor-alumnae networks as a result of the TechWomen project. The evaluation’s approach prioritizes ECA utilization of recommendations to maximize the reach and impact of the TechWomen program. The evaluation will include 40 Key Informant Interviews in the Silicon Valley/Bay Area. The sampling will include Professional Mentors, Cultural Mentors, and Impact Coaches. The Evaluation Team (ET) will gather survey data using the network survey platform ONASurveys.com and will use data from the online survey to provide visual representations and analytic data of the TechWomen network structure.

*Deputy Assistant Secretary for Policy, Bureau of Educational and Cultural Affairs
