BILLING CODE 4164-01-P

DEPARTMENT OF HOMELAND SECURITY

Coast Guard

33 CFR Part 110

[Docket Number USCG-2016-0989]

RIN 1625-AA01

Anchorage Regulations; Passagassawakeag River, Belfast, ME; Corrections

AGENCY: Coast Guard, DHS.

ACTION: Correcting amendments.

SUMMARY: On April 20, 2020, the Coast Guard published a correcting amendment that corrected errors in the coordinates describing the boundaries of the special anchorage areas in the Passagassawakeag River in the vicinity of Belfast, ME. Unfortunately, that correcting amendment also contained errors for two of the coordinates describing the boundaries of Special Anchorage Area A. This document corrects those errors.

DATES: Effective August 18, 2020.

FOR FURTHER INFORMATION CONTACT: If you have questions about this document, call or email Mr. Craig D. Lapiejko, Coast Guard First District Waterways Management Branch, telephone 617-223-8351, email *Craig.D.Lapiejko@uscg.mil*.

SUPPLEMENTARY INFORMATION: On April 20, 2020, the Coast Guard published a correcting amendment titled “Anchorage Regulations; Passagassawakeag River, Belfast, ME; Corrections” (85 FR 21773). This amendment corrected the coordinates to Special Anchorage Area A and Special Anchorage Area B in the Passagassawakeag River, Belfast Bay, Belfast, Maine.

On April 23, 2020, the Coast Guard was made aware of a discrepancy with two of the coordinates describing the boundaries of Special Anchorage Area A by a cartographer from the National Oceanic and Atmospheric Administration (NOAA).

In the notice of proposed rulemaking we published to start the process of designating these special anchorage areas, we made it clear that they are intended to reduce the risk of vessel collisions and to promote safe and efficient travel in the navigable channel of the Passagassawakeag River to the mouth of Belfast Bay (82 FR 46004, October 3, 2017). The potential of vessels anchoring in the navigable channel is contrary to waterway safety and coordinates identifying any portion of Special Anchorage Area A in the navigable channel are errors that must be corrected promptly to reduce the risk of vessel collisions in the navigable channel. As we stated in the final rule, we made no changes from the proposed rule (84 FR 32269, 32270, July 8, 2019). This document corrects two of the coordinates in 33 CFR 110.4(d)(1) describing the boundaries of Special Anchorage Area A in the Passagassawakeag River.

We find good cause under 5 U.S.C. 553(d) to make this correction effective on its date of publication. Delaying its effective date would continue the risk of vessel collisions in the navigable channel based on errors in the coordinates describing the special anchorage areas.

List of Subjects in 33 CFR Part 110

Anchorage Regulations.

Accordingly, 33 CFR part 110 is corrected by making the following correcting amendments:

PART 110—ANCHORAGE REGULATIONS

■ 1. The authority citation for part 110 continues to read as follows:

Authority: 33 U.S.C. 471, 2071; 46 U.S.C. 70034; 33 CFR 1.05-1; Department of Homeland Security Delegation No. 0170.1

§ 110.4 [Amended]

■ 2. In § 110.4(d)(1), remove “longitude 069°58’54.0838” W”, and add, in its place “longitude 068°58’54.0838” W”, and remove “longitude 069°59’55.2686” W” and add, in its place “longitude 068°59’55.2686” W”.

Dated: August 5, 2020.

T.G. Allan Jr.,
Rear Admiral, U.S. Coast Guard, Commander, First Coast Guard District.

BILLING CODE 9110-04-P

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 52

[EPA-R07-OAR-2020-0277; FRL-10012-77-Region 7]

Air Plan Approval; Missouri; Control of Sulfur Emissions From Stationary Boilers

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is taking final action to approve a State Implementation Plan (SIP) revision submitted by the State of Missouri on January 14, 2019. Missouri requests that the EPA revise a state regulation approved in the SIP related to sulfur emissions from industrial, commercial, or institutional boilers or process heaters in the St. Louis metropolitan area. The revisions to this rule include adding incorporations by reference to other state rules, including definitions specific to the rule, and wording changes that are administrative in nature and do not change the interpretation of the rule or the applicability of the rule. The EPA’s approval of this rule revision is in accordance with the requirements of the Clean Air Act (CAA).

DATES: This final rule is effective on September 17, 2020.

ADDRESSES: The EPA has established a docket for this action under Docket ID No. EPA-R07-OAR-2020-0277. All documents in the docket are listed on the <https://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, CBI or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form. Publicly available docket materials are

available through <https://www.regulations.gov> or please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section for additional information.

FOR FURTHER INFORMATION CONTACT:

William Stone, Environmental Protection Agency, Region 7 Office, Air Quality Planning Branch, 11201 Renner Boulevard, Lenexa, Kansas 66219; telephone number: (913) 551-7714; email address: stone.william@epa.gov.

SUPPLEMENTARY INFORMATION:

Throughout this document “we,” “us,” and “our” refer to the EPA.

Table of Contents

- I. What is being addressed in this document?
- II. Have the requirements for approval of a SIP revision been met?
- III. What action is the EPA taking?
- IV. Incorporation by Reference
- V. Statutory and Executive Order Reviews

I. What is being addressed in this document?

The EPA is approving the revisions to 10 Code of State Regulations (CSR) 10-5.570, *Control of Sulfur Emissions from Stationary Boilers* in the Missouri SIP. The revisions include wording changes that are administrative in nature, add definitions to the rule rather than referring to definitions in a separate rule, and updates and consolidates incorporation by reference to federal regulations. These revisions are described in detail in the technical support document (TSD) included in the docket for this action. The EPA solicited comments on the proposed revision to Missouri’s SIP, and did not receive any comments.

II. Have the requirements for approval of a SIP revision been met?

The State submission has met the public notice requirements for SIP submissions in accordance with 40 CFR 51.102. The submission also satisfied the completeness criteria of 40 CFR part 51, appendix V. The State provided public notice on this SIP revision from June 25, 2018, to July 26, 2018. Missouri received sixteen comments from the EPA during the state public comment period. Missouri responded to all comments as noted in the state submission included in the docket for this action, and made revisions to the rule concerning incorporation by reference of Federal regulations or other testing methods, removal of definitions that were inconsistent with Federal definitions, and several non-substantive changes to the text of the regulation. In addition, the revision meets the substantive SIP requirements of the

CAA, including section 110 and implementing regulations.

III. What action is the EPA taking?

The EPA is taking final action to approve Missouri’s request to amend 10 CSR 10-5.570.

IV. Incorporation by Reference

In this document, the EPA is finalizing regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, the EPA is finalizing the incorporation by reference of the Missouri Regulations described in the amendments to 40 CFR part 52 set forth below. The EPA has made, and will continue to make, these materials generally available through www.regulations.gov and at the EPA Region 7 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

Therefore, these materials have been approved by the EPA for inclusion in the State implementation plan, have been incorporated by reference by EPA into that plan, are fully federally enforceable under sections 110 and 113 of the CAA as of the effective date of the final rulemaking of the EPA’s approval, and will be incorporated by reference in the next update to the SIP compilation.¹

V. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the Act and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA’s role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);
- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because SIP approvals are exempted under Executive Order 12866.
- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104-4);

- Does not have Federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of the National Technology Transfer and Advancement Act (NTTA) because this rulemaking does not involve technical standards; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

The SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

The Congressional Review Act, 5 U.S.C. 801 *et seq.*, as added by the Small Business Regulatory Enforcement Fairness Act of 1996, generally provides that before a rule may take effect, the agency promulgating the rule must submit a rule report, which includes a copy of the rule, to each House of the Congress and to the Comptroller General of the United States. EPA will submit a report containing this action and other required information to the U.S. Senate, the U.S. House of Representatives, and the Comptroller General of the United States prior to publication of the rule in the **Federal Register**. A major rule cannot take effect until 60 days after it is published in the **Federal Register**. This action is not a “major rule” as defined by 5 U.S.C. 804(2).

Under section 307(b)(1) of the CAA, petitions for judicial review of this action must be filed in the United States Court of Appeals for the appropriate circuit by October 19, 2020. Filing a

¹62 FR 27968 (May 22, 1997).

petition for reconsideration by the Administrator of this final rule does not affect the finality of this action for the purposes of judicial review nor does it extend the time within which a petition for judicial review may be filed, and shall not postpone the effectiveness of such rule or action. This action may not be challenged later in proceedings to enforce its requirements. (See section 307(b)(2)).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by

reference, Reporting and recordkeeping requirements, Sulfur dioxide.

Dated: July 21, 2020.

James Gulliford,
Regional Administrator, Region 7.

For the reasons stated in the preamble, the EPA amends 40 CFR part 52 as follows:

PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

■ 1. The authority citation for part 52 continues to read as follows:

Authority: 42 U.S.C. 7401 *et seq.*

Subpart—AA Missouri

■ 2. In § 52.1320, the table in paragraph (c) is amended by revising the entry “10–5.570” to read as follows:

§ 52.1320 Identification of plan.

ENVIRONMENTAL PROTECTION AGENCY

40 CFR Part 300

[EPA–HQ–SFUND–2012–0063; FRL–10012–86–Region 4]

National Oil and Hazardous Substances Pollution Contingency Plan; National Priorities List: Deletion of the Fairfax St. Wood Treaters Superfund Site

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) Region 4 announces the deletion of the Fairfax St. Wood Treaters Superfund Site (Site) located in Jacksonville, Florida, from the National Priorities List (NPL). The NPL, promulgated pursuant to Section 105 of the Comprehensive Environmental Response, Compensation, and Liability Act (CERCLA) of 1980, as amended, is an appendix of the National Oil and

Hazardous Substances Pollution Contingency Plan (NCP). The EPA and the State of Florida, through the Florida Department of Environmental Protection (FDEP), have determined that all appropriate response actions under CERCLA, have been completed. However, this deletion does not preclude future actions under Superfund.

DATES: This action is effective August 18, 2020.

ADDRESSES:

Docket: The EPA has established a docket for this action under Docket Identification No. EPA–HQ–SFUND–2012–0063. All documents in the docket are listed on the <http://www.regulations.gov> website. Although listed in the index, some information is not publicly available, *i.e.*, Confidential Business Information or other information whose disclosure is restricted by statute. Certain other material, such as copyrighted material, is not placed on the internet and will be publicly available only in hard copy form.

The EPA is temporarily suspending its Docket Center and Regional Records Centers for public visitors to reduce the risk of transmitting COVID–19. In

addition, many site information repositories are closed and information in these repositories, including the deletion docket, has not been updated with hardcopy or electronic media. For further information and updates on EPA Docket Center services, please visit us online at <https://www.epa.gov/dockets>.

The EPA continues to carefully and continuously monitor information from the Centers for Disease Control and Prevention (CDC), local area health departments, and our Federal partners so that we can respond rapidly as conditions change regarding COVID.

FOR FURTHER INFORMATION CONTACT: Leigh Lattimore, Remedial Project Manager, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW—MS9T25, Atlanta, GA 30303, (404) 562–8768, email: lattimore.leigh@epa.gov.

SUPPLEMENTARY INFORMATION: The site to be deleted from the NPL is: Fairfax St. Wood Treaters Superfund Site, Jacksonville, Florida. A Notice of Intent to Delete for this Site was published in the **Federal Register** (85 FR 36368 citation) on June 16, 2020.

The closing date for comments on the Notice of Intent to Delete was July 16, 2020. One public comment was
