

The project would operate using the natural tidal currents of the East River, during both ebb and flood tidal periods. As the direction of tidal flow changes, each turbine-generator unit would rotate (or yaw) to align the rotor to the direction of flow, through a passive system caused by hydrodynamic forces on the turbine-generator unit. The annual generation is expected to be from 840 to 1,200 megawatt-hours.

o. Scoping Process.

The Commission, in cooperation with the U.S. Environmental Protection Agency, intends to prepare an environmental assessment (EA) for the RITE Project in accordance with the National Environmental Policy Act. The EA will consider both site-specific and cumulative environmental impacts and reasonable alternatives to the proposed action.

Commission staff does not propose to conduct any on-site scoping meetings at this time. Instead, we are soliciting comments, recommendations, and information, on the Scoping Document 1 (SD1) issued August 12, 2020.

Copies of SD1 outlining the subject areas to be addressed in the EA were distributed to the parties on the Commission's mailing list. Copies of SD1 may be viewed on the web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, call 1-866-208-3676 or for TTY, (202) 502-8659.

[Docket Nos. CP20-503-000; PF20-1-000]

Northern Natural Gas Company; Notice of Application

Take notice that on July 31, 2020, Northern Natural Gas Company (Northern), 1111 South 103rd Street, Omaha, NE 68124, filed an application in Docket No. CP20-503-000, pursuant to section 7 of the Natural Gas Act and Part 157 of the Commission's Regulations thereunder, requesting the issuance of a certificate of public convenience and necessity to construct, modify, replace and operate certain compression and pipeline facilities, with appurtenances, located in various counties in Minnesota. All relevant information is more fully set forth in the application which is on file with the Commission and open to public inspection. The filing may also be viewed on the web at <http://www.ferc.gov> using the eLibrary link. Enter the docket number excluding the last three digits in the docket number field to access the document. For assistance, contact FERC at *FERCOnlineSupport@ferc.gov* or call toll-free, (866) 208-3676 or TTY, (202) 502-8659.

Any questions regarding this application should be directed to Michael T. Loeffler, Senior Director, Certificates and External Affairs for Northern, 1111 South 103rd Street, Omaha, Nebraska 68124, or by calling (402) 398-7103.

Specifically, Northern proposes to: (1) Construct an 0.80-mile-long, 24-inch-diameter pipeline extension and an 0.63-mile-long, 24-inch-diameter pipeline loop; (2) replace an 0.08-mile-long, 8-inch-diameter branch line with an equivalent length of 12-inch-diameter pipeline; (3) construct a new 11,153 hp gas-fired turbine greenfield compressor station; (4) install an additional 1,100 hp electric-driven reciprocating compressor unit at its Pierz Compressor Station; and (5) construct various appurtenances, all located within Minnesota.

On December 6, 2019, the Commission staff granted Northern's request to utilize the National Environmental Policy Act (NEPA) Pre-Filing Process and assigned Docket No. PF20-1-000 to staff activities involving the Project. Now, as of the filing of this application on July 31, 2020, the NEPA Pre-Filing Process for this project has ended. From this time forward, this proceeding will be conducted in Docket

No. CP20-503-000, as noted in the caption of this Notice.

Pursuant to section 157.9 of the Commission's rules, 18 CFR 157.9, within 90 days of this Notice the Commission staff will either: Complete its environmental assessment (EA) and place it into the Commission's public record (eLibrary) for this proceeding; or issue a Notice of Schedule for Environmental Review. If a Notice of Schedule for Environmental Review is issued, it will indicate, among other milestones, the anticipated date for the Commission staff's issuance of the final environmental impact statement (FEIS) or EA for this proposal. The filing of the EA in the Commission's public record for this proceeding or the issuance of a Notice of Schedule for Environmental Review will serve to notify federal and state agencies of the timing for the completion of all necessary reviews, and the subsequent need to complete all federal authorizations within 90 days of the date of issuance of the Commission staff's FEIS or EA.

There are two ways to become involved in the Commission's review of this project. First, any person wishing to obtain legal status by becoming a party to the proceedings for this project should, on or before the comment date stated below file with the Federal Energy Regulatory Commission, 888 First Street NE, Washington, DC 20426, a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the NGA (18 CFR 157.10). A person obtaining party status will be placed on the service list maintained by the Secretary of the Commission and will receive copies of all documents filed by the applicant and by all other parties. A party must submit 3 copies of filings made in the proceeding with the Commission and must provide a copy to the applicant and to every other party. Only parties to the proceeding can ask for court review of Commission orders in the proceeding.

However, a person does not have to intervene in order to have comments considered. The second way to participate is by filing with the Secretary of the Commission, as soon as possible, an original and two copies of comments in support of or in opposition to this project. The Commission will consider these comments in determining the appropriate action to be taken, but the filing of a comment alone will not serve to make the filer a party to the proceeding. The Commission's rules require that persons filing comments in opposition to the project provide copies of their protests only to
