

environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of E.O. 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

V. Executive Order 13771

This final rule is not subject to E.O. 13771, because this rule is not a significant regulatory action under E.O. 12866.

VI. Regulatory Flexibility Act

The Regulation Flexibility Act does not apply to this rule, because this final rule does not constitute a significant GSAR revision, and 41 U.S.C. 1707 does not require publication for public comment.

VII. Paperwork Reduction Act

Although the final rule involves forms which reference OMB control numbers, there are no changes which involve a new OMB control number. Therefore, this final rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

SUPPLEMENTARY INFORMATION:

I. Background

Federal Acquisition Circular 2019–04 made changes to FAR 16.505(b)(8), 16.506(j), and 52.216–32. These changes provided for making available to contractors under multiple-award indefinite-delivery indefinite-quantity (IDIQ) contracts the name and contact information of the contracting agency’s Task-Order and Delivery-Order Ombudsman. This information is being made available pursuant to 41 U.S.C. 4106(g), which provides that all contractors awarded this type of contract shall be provided a fair opportunity to be considered for each award of an order against the contract. The Ombudsman at each agency reviews complaints raised by contractors on this type of contract and ensures that each contractor has a fair opportunity to compete for task and delivery orders.

These changes to the FAR rendered text at GSAR 516.506, 552.216–74, and 552.216–76 duplicative. Because the GSAR serves as a supplement to the FAR, it is appropriate to remove text from the GSAR when such text has become duplicative of FAR text.

II. Authority for This Rulemaking

Title 40 of the United States Code (U.S.C.) Section 121 authorizes GSA to issue regulations, including the GSAR, to control the relationship between GSA and contractors. The GSAR supplements the FAR. By eliminating GSAR text that is duplicative of FAR text, GSA is acting in keeping with the GSAR’s purpose as a supplementary acquisition regulation.

III. Discussion and Analysis

GSA is amending the GSAR at parts 516, Types of Contracts, and 552,

Solicitation Provisions and Contract Clauses, to remove language made duplicative by changes to the FAR published at 84 FR 38836. Part 516 includes language prescribing the use of Task-Order and Delivery-Order Ombudsman clauses, which is removed to avoid duplication of language in FAR part 16. Part 552 includes the Task-Order and Delivery-Order Ombudsman clauses prescribed in part 516, which are removed to avoid duplication of clauses in FAR part 52.

IV. Executive Order 12866 and 13563

Executive Orders (E.O.s) 12866 and 13563 direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). E.O. 13563 emphasizes the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. This is not a significant regulatory action and, therefore, was not subject to review under section 6(b) of Executive Order 12866, Regulatory Planning and Review, dated September 30, 1993. This rule is not a major rule under 5 U.S.C. 804.

V. Executive Order 13771

This final rule was not subject to E.O. 13771, because this rule is not a significant regulatory action under E.O. 12886.

VI. Regulatory Flexibility Act

GSA does not expect this rule to have a significant economic impact on a substantial number of small entities within the meaning of the Regulatory Flexibility Act, 5 U.S.C. 601, *et seq.*

VII. Paperwork Reduction Act

The final rule does not contain any information collection requirements that require the approval of the Office of Management and Budget under the Paperwork Reduction Act (44 U.S.C. chapter 35).

Pacific Island Pelagic Fisheries; False Killer Whale Take Reduction Plan; Reopening of the Southern Exclusion Zone to the Hawaii Deep-Set Longline Fishery

AGENCY: National Marine Fisheries Service (NMFS), National Oceanic and Atmospheric Administration (NOAA), Commerce.

ACTION: Temporary rule.

SUMMARY: In accordance with the Marine Mammal Protection Act of 1972,

and the False Killer Whale Take Reduction Plan, NMFS hereby reopens the Southern Exclusion Zone to deep-set longline fishing for all vessels registered under the Hawaii longline limited access program. At least one of the Southern Exclusion Zone reopening criteria defined in the False Killer Whale Take Reduction Plan regulations has been met.

DATES: Effective August 25, 2020.

FOR FURTHER INFORMATION CONTACT: Diana Kramer, NMFS Pacific Islands Region, (808) 725–5167, Diana.Kramer@noaa.gov; or Kristy Long, NMFS Office of Protected Resources, (301) 427–8402, Kristy.Long@noaa.gov.

SUPPLEMENTARY INFORMATION:

Background

The False Killer Whale Take Reduction Plan (Plan) was implemented on December 31, 2012, pursuant to section 118(f) of the Marine Mammal Protection Act (MMPA) to reduce the level of incidental mortality and serious injury (M/SI) of the Hawaii pelagic and Hawaii insular stocks of false killer whales in the Hawaii longline fisheries (77 FR 71260; November 29, 2012). The Plan, based on consensus recommendations from the False Killer Whale Take Reduction Team, was implemented by regulations, which created the Southern Exclusion Zone (SEZ) (50 CFR 229.37(d)(2)) that would be closed to deep-set longline fishing if a certain number (trigger) of false killer whale M/SI were observed in the deep-set fishery in the United States Exclusive Economic Zone (EEZ). As described in the Plan regulations, the SEZ is bounded on the east at 154°30' W longitude, on the west at 165° W longitude, on the north by the boundaries of the Main Hawaiian Islands Longline Fishing Prohibited Area and Papahānaumokuākea Marine National Monument, and on the south by the EEZ boundary (see Figure 1). The trigger is the larger of either two observed M/SI of false killer whales within the EEZ around Hawaii, or the smallest number of observed M/SI of false killer whales that, when extrapolated based on the percentage observer coverage for that year, exceeds the stock's potential biological removal (PBR) level. The final 2017 Stock Assessment reports a PBR of 9.3 pelagic false killer whales per year. With 20 percent observer coverage in 2018 and 2019, the trigger remained at two observed M/SI (*i.e.*, two observed M/SI expands to 10, which exceeds the PBR of 9.3).
