

(i) *Inactive EBT accounts.* Benefits allotments, or portion thereof, shall be expunged from EBT accounts that have been inactive, per paragraph (h)(1) of this section, for a period of nine months (274 days) in accordance with the following:

(A) When the oldest benefit allotment has not been accessed by the household for nine months, the State agency shall expunge benefits from the EBT account or off-line storage at the monthly benefit allotment level as each benefit allotment ages to nine months since the date of issuance or since the last date of account activity, whichever date is later.

(B) The State agency shall not expunge any benefits from active accounts even if there are benefit allotments older than nine months. If at any time after the expungement process begins, the household initiates activity affecting the balance of the account, the State shall stop expunging benefits from the account and start the account aging process over again for the remaining benefits.

(ii) *Unused benefits.* The State agency shall expunge individual benefit allotments, or portion thereof, that remain in a household's EBT account nine months (274 days) after the date the allotment was issued to the household, regardless of any account activity that may have taken place.

(2) Not later than 30 days before benefit expungement is scheduled to begin, State agencies shall provide notice to the household that benefits in their EBT account are approaching expungement due to nonuse/inactivity. At a minimum, the notice shall include:

(i) The date upon which benefits are scheduled to be expunged; and

(ii) The steps necessary to prevent the expungement, including an opportunity to request that any benefits stored off-line be restored to the household in accordance with paragraph (h) of this section;

(3) Expunged benefits shall be removed from the Account Management Agent and shall not be reinstated.

(4) Notwithstanding paragraph (i)(1) of this section, in instances when the State agency verifies a death match for all certified members of the household and closes the SNAP case in accordance with § 272.14 of this chapter, the State agency shall expunge the remaining SNAP balance in the household's EBT account at that time. In accordance with § 273.13(b)(2) of this chapter, expungement notices, per paragraph (i)(2) of this section, are not required for these households.

(j) *Procedures to adjust SNAP accounts.* Procedures shall be established to permit the appropriate

managers to adjust SNAP benefits that have already been posted to an EBT account prior to the household accessing the account, or to remove benefits from inactive accounts for off-line storage or expungement in accordance with paragraphs (h) and (i) of this section.

(1) Whenever benefits are stored off-line or expunged, the State agency shall document the date, amount of the benefits, and storage location in the household case file.

(2) Issuance reports shall reflect the adjustment to the State agency issuance totals to comply with monthly issuance reporting requirements prescribed under § 274.4.

§ 274.8 [Amended]

■ 8. In § 274.8(f)(8), remove “§ 274.2(h)(2)” and add in its place “§ 274.2(i)”.

Payment Limitation and Payment Eligibility

AGENCY: Commodity Credit Corporation and Farm Service Agency, USDA.

ACTION: Final rule.

SUMMARY: This rule implements the mandatory changes required by the Agriculture Improvement Act of 2018 (2018 Farm Bill) and other changes made by the Farm Service Agency (FSA) on behalf of CCC. Specifically, the mandatory changes update program applicability and payment limitations; and specify that the Secretary may approve a waiver of the average adjusted gross income (AGI) limitation for participants of certain conservation contracts administered by FSA and the Natural Resources Conservation Service (NRCS) on environmentally sensitive land. Also, the mandatory changes expand the definition of “family member” to include first cousins, nieces, and nephews. This rule also includes changes that make minor clarifications and updates throughout part 1400.

DATES: *Effective:* August 20, 2020.

SUPPLEMENTARY INFORMATION:

Background

This rule amends 7 CFR part 1400 to implement changes made by the 2018 Farm Bill; (Pub. L. 115–334) as well as makes certain changes, as explained below. This rule updates the applicable programs and payment limitations in 7 CFR 1400.1 to reflect current policy and changes made by the 2018 Farm Bill. FSA administers the regulations in 7 CFR part 1400 on behalf of CCC.

Payment Limitations

The 2018 Farm Bill and this rule create two separate payment limitations for the Noninsured Crop Disaster Assistance Program (NAP). Previously, a person or legal entity was subject to a \$125,000 payment limitation regardless of the level of NAP coverage obtained. For 2019 and subsequent years, the 2018 Farm Bill provides a separate per crop year maximum per person and legal entity limitation of either \$125,000 for payments to those who purchased basic 50/55 NAP coverage or \$300,000 for payments to those who purchased buy-up coverage. The 2018 Farm Bill increased the payment limitation for the Emergency Conservation Program (ECP) to \$500,000 per program per disaster event.

The 2018 Farm Bill officially removed LDPs and MLGs from the combined payment limit. This rule removes the payment limits for Marketing Loan Gains (MLG), Loan Deficiency Payments (LDP), and the Emergency Assistance for Livestock, Honeybees and Farm Raised Fish Program (ELAP) as mandated by the 2018 Farm Bill (section 1703(a)(2) and section 1501(e) respectively).

Waiver of AGI Limitation for Environmentally Sensitive Land of Special Significance

The 2018 Farm Bill does not change the AGI limitation of \$900,000 for certain programs; however, it does authorize the Secretary to waive the AGI limitation for participants of certain conservation contracts administered by FSA or NRCS when the Secretary determines that environmentally sensitive land of special significance will be protected because of the waiver. The waiver authority allows FSA and NRCS the discretion, on a case-by-case basis, to provide benefits to producers who may not otherwise meet the AGI

requirements on environmentally sensitive land of special significance. This rule defines “environmentally sensitive land of special significance” in § 1400.3. FSA and the NRCS identified specific critical resources warranting protection through enrollment in its definition. This rule also adds provisions in § 1400.500(f) to specify how a request for a waiver must be submitted and what it must include.

Definition of Family Member

FSA is expanding the definition of “family member” as mandated by the 2018 Farm Bill to include first cousin, niece, and nephew. This change expands the definition to allow farming operations to qualify for additional payment limitations for an existing farming operation under the rules for a substantive change, which are specified in § 1400.104. Furthermore, joint operations that included a first cousin, niece, or nephew were previously determined to be farming operations comprised of non-family members. With this change, a joint operation comprised of the newly expanded definition of family members would no longer be subject to the limitation of members qualifying on a management contribution alone, which increases the number of additional individuals eligible for payment within joint operations comprised solely of family members.

Other Changes

This rule makes several changes to the definitions in 7 CFR 1400.3. This rule amends the definitions of “active personal management,” and “significant contribution” as it relates to management in 7 CFR 1400.3 and removes the definitions of “active personal management,” “significant contribution of active personal management,” and “significant contribution of the combination of active personal labor and active personal management” previously in subpart G so that consistent definitions of the terms are used throughout part 1400. This rule also makes minor clarifications to the terms “interest in the farming operation” and “lawful alien.”

It adds a new definition of “livestock” for the purposes of part 1400, for which “livestock” includes animals that are considered eligible livestock under the Livestock Indemnity Program (LIP). This change is intended to clarify which species qualify as livestock and ensure that the animals considered to be “livestock” under part 1400 is consistent with the administration of other FSA programs.

This rule moves the provisions for revocable trusts from § 1400.100 (subpart B, Payment Limitation) to § 1400.7 (subpart A, General Provisions) because they are general provisions applicable to all of part 1400 and not just to the payment limitation provisions.

This rule amends the provisions in § 1400.102 to clarify that the policy that a state or political subdivision or one of its agencies is not eligible for payments or benefits under the programs in § 1400.1. This rule also clarifies that the exception in § 1400.102(b) applies only to payments or benefits under the Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) programs.

This rule amends § 1400.104(a) to remove the reference to “legal entities.” This change aligns the regulation with current language in the 2018 Farm Bill.

This rule amends § 1400.104(a)(3) to remove “base acres” and add “land used for agricultural production.” The addition of 20 percent or more land used for agricultural production will be recognized as a substantive change in the farming operation and will take into consideration land used for annual crop production as well as grazing lands.

This rule is making a change in amending § 1400.104(a)(5) to specify that a change in ownership by sale or gift of livestock can be recognized as a substantive change in the farming operation, in addition to a sale or gift of land, which already exists in the rule, such that the sale or gift of livestock can result in the application of additional payment limits under 7 CFR part 1400. The addition of livestock as an element for consideration used in determining whether a substantive change has occurred takes into consideration all of the aspects of a farming operation including but not limited to land but also livestock and the value of the land or livestock to a farming operation. Further, this change is appropriate as substantive change rules apply to all programs subject to payment limitation, including Livestock Forage Disaster Program (LFP).

This rule amends § 1400.106 to specify that payment limitations apply to both direct and indirect payments, subject to the attribution provisions in § 1400.105. This change is a clarification of and therefore codification of current policy and does not alter the way FSA applies payment limitations.

This rule moves the cash rent tenant provisions of subpart D to subpart C, in § 1400.214, which contains the payment eligibility requirements.

This rule makes a technical correction to the provision in the regulation that indicated a legal entity’s or joint

operation’s eligible capital, land, or equipment could not be acquired as a result of a loan made to, guaranteed by, cosigned by, or secured by any person, legal entity or joint operation that has an interest in the farming operation, including the legal entity’s or joint operation’s members. The technical correction removes the legal entity’s or joint operation’s members from the provision and relies on “interest in the farming operation” to define the qualifying contribution.

This rule makes minor changes to update the regulatory language throughout part 1400. These changes are intended to make the regulation easier to understand and do not affect program implementation.

Effective Date, Notice and Comment, and Paperwork Reduction Act

As specified in 7 U.S.C. 9091, the regulations to implement the provisions of Title I and the administration of Title I of the 2018 Farm Bill are exempt from the notice and comment provisions of the Administrative Procedure Act (5 U.S.C. 553) and the Paperwork Reduction Act (in 44 U.S.C. chapter 35). Section 9091 further directs the Secretary to use the authority in 5 U.S.C. 808 related to congressional review and delay in the effective date.

The Administrative Procedure Act (5 U.S.C. 553) provides that the 30-day delay in the effective date provision does not apply when the rule involves specified actions, including matters relating to benefits. This rule governs the eligibility provisions for programs providing benefits to farmers and ranchers and therefore that exemption applies to this rule.

Therefore, this rule is effective upon publication in the **Federal Register**.

Executive Orders 12866, 13563, 13771 and 13777

Executive Order 12866, “Regulatory Planning and Review,” and Executive Order 13563, “Improving Regulation and Regulatory Review,” direct agencies to assess all costs and benefits of available regulatory alternatives and, if regulation is necessary, to select regulatory approaches that maximize net benefits (including potential economic, environmental, public health and safety effects, distributive impacts, and equity). Executive Order 13563 emphasized the importance of quantifying both costs and benefits, of reducing costs, of harmonizing rules, and of promoting flexibility. The requirements in Executive Orders 12866 and 13563 for the analysis of costs and benefits apply to rules that are determined to be significant. Executive

Order 13777, “Enforcing the Regulatory Reform Agenda,” established a federal policy to alleviate unnecessary regulatory burdens on the American people.

The Office of Management and Budget (OMB) designated this rule as significant under Executive Order 12866 and therefore, OMB reviewed this rule. The costs and benefits of this rule are summarized below. The full cost benefit analysis is available on *regulations.gov*.

Executive Order 13771, “Reducing Regulation and Controlling Regulatory Costs,” requires that, in order to manage the costs required to comply with Federal regulations, that for every new significant or economically significant regulation issued, the new costs must be offset by savings from deregulatory actions. OMB guidance in M–17–21, dated April 5, 2017, specifies that “transfers” are not covered by Executive Order 13771.

Cost Benefit Analysis Summary

The cost benefit analysis evaluated changes to payment limits and payment eligibility mandated by the 2018 Farm Bill along with two other changes the rule is making in the regulation. This rule implements those changes by amending the regulations in 7 CFR part 1400. We estimate that the changes will increase Farm Program outlays by about \$21.2 million per year. The largest increases are from elimination of the payment limit for ELAP and a new separate payment limit for those producers who choose buy-up coverage under NAP.

Regulatory Flexibility Act

The Regulatory Flexibility Act (5 U.S.C. 601–612), as amended by the Small Business Regulatory Enforcement Fairness Act of 1996 (SBREFA, Pub. L. 104–121), generally requires an agency to prepare a regulatory flexibility analysis of any rule whenever an agency is required by the Administrative Procedure Act or any other law to publish a proposed rule, unless the agency certifies that the rule will not have a significant economic impact on a substantial number of small entities. This rule is not subject to the Regulatory Flexibility Act because USDA is not required by Administrative Procedure Act or any law to publish a proposed rule for this rulemaking.

Environmental Review

The environmental impacts of this final rule have been considered in a manner consistent with the provisions of the National Environmental Policy Act (NEPA, 42 U.S.C. 4321–4347), the regulations of the Council on

Environmental Quality (40 CFR parts 1500–1508), and the FSA regulations for compliance with NEPA (7 CFR part 799). FSA has determined that the provisions identified in this final rule are administrative in nature, intended to clarify the mandatory requirements of the programs, as defined in the 2018 Farm Bill, and do not constitute a major Federal action that would significantly affect the quality of the human environment, individually or cumulatively. As this rule presents administrative clarifications only, it is categorically excluded under § 799.31(3)(i) issuing minor technical corrections to regulations, handbooks, and internal guidance, as well as amendments to them; therefore, FSA will not prepare an environmental assessment or environmental impact statement for this regulatory action.

Executive Order 12372

Executive Order 12372, “Intergovernmental Review of Federal Programs,” requires consultation with State and local officials that would be directly affected by proposed Federal financial assistance. The objectives of the Executive Order are to foster an intergovernmental partnership and a strengthened Federalism, by relying on State and local processes for State and local government coordination and review of proposed Federal financial assistance and direct Federal development. For reasons specified in the final rule related notice to 7 CFR part 3015, subpart V (48 FR 29115, June 24, 1983), the programs and activities within this rule are excluded from the scope of Executive Order 12372 which requires intergovernmental consultation with State and local officials.

Executive Order 12988

This rule has been reviewed under Executive Order 12988, “Civil Justice Reform.” This rule will not preempt State or local laws, regulations, or policies unless they represent an irreconcilable conflict with this rule. The changes mandated by the 2018 Farm Bill were effective for the 2019 crop year. Other changes in this rule will not have retroactive effect. Before any judicial actions may be brought regarding the provisions of this rule, the administrative appeal provisions of 7 CFR parts 11 and 780 must be exhausted.

Executive Order 13132

This rule has been reviewed under Executive Order 13132, “Federalism.” The policies contained in this rule do not have any substantial direct effect on States, on the relationship between the

Federal Government and the States, or on the distribution of power and responsibilities among the various levels of government, except as required by law. Nor does this rule impose substantial direct compliance costs on State and local governments. Therefore, consultation with the States is not required.

Executive Order 13175

This rule has been reviewed in accordance with the requirements of Executive Order 13175, “Consultation and Coordination with Indian Tribal Governments.” Executive Order 13175 requires Federal agencies to consult and coordinate with Tribes on a government-to-government basis on policies that have Tribal implications, including regulations, legislative comments or proposed legislation, and other policy statements or actions that have substantial direct effects on one or more Indian Tribes, on the relationship between the Federal Government and Indian Tribes or on the distribution of power and responsibilities between the Federal Government and Indian Tribes.

The USDA Office of Tribal Relations (OTR) has assessed the impact of this rule on Indian Tribes and determined that this rule does have significant Tribal implications. OTR has determined that further Tribal consultation under Executive Order 13175 is not required at this time.

Tribal consultation for this rule was included in the 2018 Farm Bill consultation held on May 1–2, 2019, at the National Museum of American Indian, in Washington, DC, and on June 26–27, 2019, in Sparks, NV. The portion of the Tribal consultation relative to this rule was conducted by Bill Northey, USDA Under Secretary for the Farm Production and Conservation mission area, as part of the Title I session. No comments regarding this rule were raised.

If a Tribe requests additional consultation, FSA and CCC will work with OTR to ensure meaningful consultation is provided where changes, additions, and modifications are not expressly mandated by law.

The Unfunded Mandates Reform Act of 1995

Title II of the Unfunded Mandates Reform Act of 1995 (UMRA, Pub. L. 104–4) requires Federal agencies to assess the effects of their regulatory actions of State, local, and Tribal governments or the private sector. Agencies generally must prepare a written statement, including cost benefits analysis, for proposed and final rules with Federal mandates that may

result in expenditures of \$100 million or more in any 1 year for State, local or Tribal governments, in the aggregate, or to the private sector. UMRA generally requires agencies to consider alternatives and adopt the more cost effective or least burdensome alternative that achieves the objectives of the rule. This rule contains no Federal mandates, as defined in Title II of UMRA, for State, local and Tribal governments or the private sector. Therefore, this rule is not subject to the requirements of sections 202 and 205 of UMRA.

E-Government Act Compliance

FSA and CCC are committed to complying with the E-Government Act, to promote the use of the internet and other information technologies to provide increased opportunities for citizen access to Government information and services, and for other purposes.

* * * * *

(b) * * *

Active personal management means personally providing and participating in activities considered critical to the profitability of the farming operation and performed under one or more of the following categories:

- (1) Capital, which includes:
 - (i) Arranging financing and managing capital;
 - (ii) Acquiring equipment;
 - (iii) Acquiring land or negotiating leases;
 - (iv) Managing insurance; and

- (v) Managing participation in USDA programs;
- (2) Labor, which includes hiring and managing of hired labor; and
- (3) Agronomics and marketing, which includes:
 - (i) Selecting crops and making planting decisions;
 - (ii) Acquiring and purchasing crop inputs;
 - (iii) Managing crops (that is, whatever managerial decisions are needed with respect to keeping the growing crops living and healthy—soil fertility and fertilization, weed control, insect control, irrigation if applicable) and making harvest decisions; and
 - (iv) Pricing and marketing of crop production.

* * * * *

Capital means the funding provided by a person or legal entity to the farming operation for the operation to conduct farming activities. In determining whether a person or legal entity has independently contributed capital, in the form of funding, to the farming operation, the capital must have been derived from a fund or account separate and distinct from that of any other person or legal entity with an interest in the farming operation. Capital does not include the value of any labor or management that is contributed to the farming operation or any outlays for land or equipment. A capital contribution must be a direct out-of-pocket input of a specified sum or an amount borrowed by the person or legal entity and does not include advance program payments.

* * * * *

Environmentally sensitive land of special significance means land offered for enrollment or adjacent to the land offered for enrollment that contains, or through enrollment will address, critical resources including, but not limited to:

- (1) Habitat for threatened, endangered, or at-risk species;
- (2) Historical or cultural resources;
- (3) Native grasslands;
- (4) Unique wetlands;
- (5) Rare, unique, or related soils; and
- (6) Critical groundwater recharge areas.

* * * * *

Interest in the farming operation means any of the following:

- (1) Owner, lessor, or lessee of the land in the farming operation;
- (2) An interest in the agricultural products, commodities, or livestock produced by the farming operation; or
- (3) A member of a joint operation that is an owner, lessor, or lessee of the land in the farming operation or has an interest in the agricultural products,

commodities, or livestock produced by the farming operation.

* * * * *

Livestock means those animals included in § 1416.304(a) of this chapter.

* * * * *

Significant contribution means the provision of the following to a farming operation:

- (1) Land, capital, or equipment:
 - (i) For land, capital, or equipment contributed independently by a person or legal entity, a contribution that has a value at least equal to 50 percent of the person’s or legal entity’s commensurate share of the total:
 - (A) Value of the capital necessary to conduct the farming operation;
 - (B) Rental value of the land necessary to conduct the farming operation; or
 - (C) Rental value of the equipment necessary to conduct the farming operation; or
 - (ii) If the contribution by a person or legal entity consists of any combination of land, capital, and equipment, the combined contribution must have a value at least equal to 30 percent of the person’s or legal entity’s commensurate share of the total value of the farming operation.
- (2) For active personal labor, an amount contributed by a person or members, stockholders, or partners of a legal entity to the farming operation that is described by the smaller of the following:
 - (i) 1,000 hours per calendar year; or
 - (ii) 50 percent of the total hours that would be necessary to conduct a farming operation that is comparable in size to the person’s or legal entity’s commensurate share in the farming operation.
- (3) For active personal management, includes activities performed by a person, with a direct or indirect ownership interest in the farming operation or a legal entity, on a regular, continuous, and substantial basis to the farming operation and meets at least one of the following to be considered significant:
 - (i) Performs at least 25 percent of the total management hours required for the farming operation on an annual basis; or
 - (ii) Performs at least 500 hours of management annually for the farming operation.
- (4) With respect to a combination of active personal labor and active personal management, when neither contribution by itself meets the requirement of paragraphs (2) and (3) of this definition, a combination of active personal labor and active personal management that, when made together:

- (i) Is critical to the profitability of the farming operation;
- (ii) Is performed on a regular, continuous, and substantial basis; and
- (iii) Meets the following required number of hours:

TABLE 1 TO PARAGRAPH (4)(iii) OF THE DEFINITION OF SIGNIFICANT CONTRIBUTION

[Docket No FAA–2020–0816; Special Conditions No. 33–20–01–SC]

Special Conditions: Safran Helicopter Engines, S.A., Arrano 1A Turboshift Engine Model; 30-Minute All Engines Operating Power Rating

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Final special conditions; request for comments.

SUMMARY: These special conditions are issued for the Safran Helicopter Engines, S.A. (Safran Helicopter Engines), Arrano 1A turboshaft engine model. This engine model will have a novel or unusual design feature when compared to the state of technology envisioned in the airworthiness standards for aircraft engines. This design feature is a 30-minute All Engines Operating (AEO) power rating. The applicable airworthiness regulations do not contain adequate or appropriate safety standards for this design feature. These special conditions contain the additional safety standards that the Administrator considers necessary to establish a level of safety equivalent to that established by the existing airworthiness standards.

DATES: This action is effective on Safran Helicopter Engines on August 24, 2020. Send comments on or before October 8, 2020.

ADDRESSES: Send comments identified by docket number FAA–2020–0816 using any of the following methods:

- *Federal eRegulations Portal:* Go to <http://www.regulations.gov> and follow the online instructions for sending your comments electronically.

- *Mail:* Send comments to Docket Operations, M–30, U.S. Department of Transportation (DOT), 1200 New Jersey Avenue SE, Room W12–140, West Building Ground Floor, Washington, DC 20590–0001.

SUPPLEMENTARY INFORMATION: The FAA has determined, in accordance with 5 U.S. Code 553(b)(3)(B) and 553(d)(3), that notice and opportunity for prior public comment are unnecessary because substantially identical special conditions have been previously subject to the public comment process in several prior instances such that the FAA is satisfied that new comments are unlikely. For the same reason, the FAA finds that good cause exists for adopting these special conditions upon issuance. The FAA is requesting comments to allow interested persons to submit views that may not have been submitted in response to the prior opportunities for comment.

The FAA will consider all comments received by the closing date for comments. The FAA may change these special conditions based on the comments received.

Background

On August 30, 2019, Safran Helicopter Engines applied for a type certificate for the Arrano 1A turboshaft engine model. The Arrano 1A turboshaft engine model has an annular inlet integrating inlet guide vanes, a two-stage centrifugal compressor driven by a single-stage high pressure turbine, a reverse flow combustion chamber and a single-stage low pressure turbine (power turbine) driving a reduction gearbox located at the front of the engine and an exhaust pipe. The Arrano 1A turboshaft engine model will incorporate a novel or unusual design feature, which is a 30-minute AEO power rating. Regulations pertaining to a 30-minute AEO power rating have not been incorporated into part 33. These special conditions provide the requirements for the 30-minute AEO power rating for the Arrano 1A turboshaft engine model. Safran Helicopter Engines has requested this 30-minute AEO power rating to support helicopter search and rescue missions that require hover operations at high power. The use of the 30-minute AEO power rating will require special conditions to address the use of this 30-minute AEO power rating and its effects on the Arrano 1A engine model.

Type Certification Basis

Under the provisions of title 14, Code of Federal Regulations (14 CFR) 21.17, Safran Helicopter Engines must show that the Arrano 1A turboshaft engine model meets the applicable provisions of 14 CFR part 33, dated February 1,
