

combination with other potential immuno-oncology drugs.

This technology discloses the composition of an ADC comprising a drug conjugated to CD56-specific monoclonal antibodies, m900 and m906, or an antigen-binding fragment, wherein the drug comprises a cytotoxic agent, including but not limited to PBD, and to methods of using the ADCs for treating neuroblastoma, small-cell lung cancer, multiple myeloma, acute myeloid leukemia, NK-T lymphoma, and neuroendocrine cancer. This notice is made in accordance with 35 U.S.C. 209 and 37 CFR part 404. The prospective exclusive license will be royalty bearing, and the prospective exclusive license may be granted unless within fifteen (15) days from the date of this published notice, the National Cancer Institute receives written evidence and argument that establishes that the grant of the license would not be consistent with the requirements of 35 U.S.C. 209 and 37 CFR part 404.

In response to this Notice, the public may file comments or objections. Comments and objections, other than those in the form of a license application, will not be treated confidentially, and may be made publicly available.

License applications submitted in response to this Notice will be presumed to contain business confidential information and any release of information in these license applications will be made only as required and upon a request under the Freedom of Information Act, 5 U.S.C. 552.
