NATIONAL CREDIT UNION ADMINISTRATION

12 CFR Part 701

RIN 3133-AF24

Fees Paid by Federal Credit Unions

AGENCY: National Credit Union Administration (NCUA).

ACTION: Proposed rule.

SUMMARY: The NCUA Board (Board) proposes to amend its regulation governing assessment of an annual operating fee to federal credit unions (FCUs). First, for purposes of calculating the annual operating fee, the proposed rule would amend the current rule to exclude from total assets any loan an FCU reports under the Small Business Administration’s Paycheck Protection Program (PPP) or similar future programs approved for exclusion by the NCUA Board. Second, the proposed rule would delete from the current regulation references to the Credit Union System Investment Program and the Credit Union Homeowners Affordability Relief Program, both of which no longer exist. Third, the proposed rule would amend the period used for the calculation of an FCU’s total assets. Currently, total assets are calculated using the FCU’s December 31st Call Report of the preceding year. Under the proposed rule, total assets would be calculated as the average total assets reported on the FCU’s previous four Call Reports available at the time the NCUA Board approves the agency’s budget for the upcoming year, adjusted for any excludable programs as determined by the Board. Finally, the proposed rule also would make some minor technical changes.

The Board has separately published a document and requested public comment about the methodologies it uses for computing the Overhead Transfer Rate and setting the annual operating fee schedule for fees charged to FCUs. Members of the public are encouraged to comment about these methodologies by responding to the appropriate **Federal Register** document.
