

use of e-discovery technology with other HHS staff and operating divisions.

e. Identifies and supports the implementation of best practices for litigation management, e-discovery, and virtual staffing across OGC.

C. Functions, Authorities and Responsibilities of the Regions

The Chief Counsel of each Region is HHS' legal representative in that Region. Regional offices within OGC provide a full range of legal services including, by way of example, legal counsel to their departmental clients and client agencies in the regions, as described below, subject to the professional supervision and direction of the General Counsel.

The Office of the General Counsel's ten regional offices provide legal advice, administrative and judicial litigation support and counseling services to the regional components of the Department. Regional attorneys provide general law support to regional clients and handle work in most areas within HHS' jurisdiction with particular emphasis on litigation for, among others, CMS, ACF, OCR, CDC, and IHS. Regional offices also provide leadership with respect to bankruptcy cases. In the area of civil rights, they work in close consultation with the Associate General Counsel for the Civil Rights Division to ensure that the regional positions align closely with those of the Division thereby fostering national uniformity. In other areas, the Divisions and Regions work collaboratively to provide consistent, uniform legal advice.
