B. Submitting Comments

Please include Docket ID: NRC–2020–0119 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <https://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the

information collection summarized below.

1. *The title of the information collection*: NRC Form 149, “OCFO Invitational Traveler Request Form.”

2. *OMB approval number*: An OMB control number has not yet been assigned to this proposed information collection.

3. *Type of submission*: New.

4. *The form number, if applicable*: Form 149.

5. *How often the collection is required or requested*: The collection is required when there is an invitational traveler that will be reimbursed by the NRC. This occurs on an as needed basis and does not have a regular schedule for submission.

6. *Who will be required or asked to respond*: The invitational traveler will be asked to respond and NRC staff that are associated with the purpose of the invitational traveler may also be asked to respond on an as needed basis.

7. *The estimated number of annual responses*: 250.

8. *The estimated number of annual respondents*: 250.

9. *The estimated number of hours needed annually to comply with the information collection requirement or request*: 50 hours.

10. *Abstract*: The NRC provides reimbursement for people on invitational travel for the NRC. As such, the NRC would reimburse them through our Financial Accounting and Integrated Management Information System (FAIMIS). Additionally, the travel itself would be processed in our electronic travel system (ETS2). Both the financial and travel systems must be set up appropriately for the invitational traveler to travel and receive reimbursement from the NRC. The information collected on Form 149 meets the requirements for the invitational traveler to have a profile created in FAIMIS and in ETS2. The information collected is necessary to meet the criteria for both systems.

III. Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

Dated: August 28, 2020.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2020–0098 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking website*: Go to <http://www.regulations.gov> and search

for Docket ID NRC–2020–0098. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC–2020–0098 on this website.

- *NRC’s Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room (PDR) reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession No. ML20107J348. The supporting statement is available in ADAMS under Accession No. ML20170A641.

- *NRC’s Clearance Officer*: A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC’s Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: INFOCOLLECTS.Resource@NRC.GOV.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at <https://www.regulations.gov> and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, “COVID–19 Work Hour Controls Exemption Request Form.” The NRC hereby informs

potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on April 23, 2020 (85 FR 22757).

1. *The title of the information collection*: COVID–19 Work Hour Controls Exemption Request Form.

2. *OMB approval number*: 3150–0146.

3. *Type of submission*: Extension.

4. *The form number if applicable*: There is no form number for the online submission form.

5. *How often the collection is required or requested*: On occasion.

6. *Who will be required or asked to respond*: All holders of, and certain applicants for, nuclear power plant construction permits and operating licenses under the provisions of 10 CFR part 50, “Domestic Licensing of Production and Utilization Facilities” who seek exemptions from the work hour controls specified in 10 CFR 26.205(d)(1)–(7) as allowed by 10 CFR 26.9, “Specific exemptions.”

7. *The estimated number of annual responses*: 40.

8. *The estimated number of annual respondents*: 40.

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request*: 80.

10. *Abstract*: The NRC requested an emergency review of this information collection in order to add this form to the previously approved information collection OMB Control Number 3150–0146 for a period of 6 months. The purpose of this information collection is to request an extension of the approval of online COVID–19 Work Hour Controls Exemption Request Form. The form simplifies the filing the exemption requests because the existing system may be burdensome for licensees under current conditions. Under the existing collection under OMB Control No. 3150–0146, licensees are already able to seek exemptions from the requirements of 10 CFR part 26, Fitness-For-Duty Programs. This information collection only addresses the incremental burden change to this existing clearance due to the form and not the total burden for the clearance.

10 CFR 26.205(d)(1)–(7) identifies specific work hour control requirements for individuals subject to the requirements of 10 CFR part 26. Due to the impacts of the COVID–19 Public Health Emergency (PHE), the NRC is prepared to grant, upon request from

individual licensees, exemptions from the work hour controls specified in 10 CFR 26.205(d)(1)–(7) as allowed by 10 CFR 26.9, “Specific exemptions.”

The objective of using the online form to submit exemptions from 10 CFR 26.205(d)(1)–(7) is to ensure that the control of work hours and management of worker fatigue do not unduly limit licensee flexibility in using personnel resources to most effectively manage the impacts of the COVID–19 PHE on maintaining the safe operation of these facilities. Specifically, the licensee can submit an exemption request if (1) a licensee’s staffing levels are affected by the COVID–19 PHE, (2) a licensee determines that it can no longer meet the work-hour controls of 10 CFR 26.205(d)(1)–(d)(7), and (3) the licensee can effect site-specific administrative controls for COVID–19 PHE fatigue-management for personnel specified in 10 CFR 26.4(a).
