

#### XIV. Questions and Requests for IEED Assistance

DEMD staff may provide technical consultation, upon written request by an applicant. The request must clearly identify the type of assistance sought. Technical consultation does not include funding to prepare a grant proposal, grant writing assistance, or pre-determinations as to the likelihood that a proposal will be awarded. The applicant is solely responsible for preparing its grant proposal. Technical consultation may include clarifying application requirements, confirming whether an applicant previously submitted the same or similar proposal, and registration information for SAM or ASAP.

DEMD also offers Tribes many in-house technical capabilities and services at no charge. These services include: Searching nearby reference materials for technical literature on previous investigations and work performed in and around reservations; providing well log interpretation, including correlation of formation tops, identification of producing horizons, and generation of cross-sections; supplying technical mapping capabilities, using data from well log formation tops and seismic data; providing contour mapping capabilities, including isopachs, calculated grids, color-fill plotting, and posting of surface features, wells, seismic lines, and legal boundaries; supplying three-dimensional modeling of mine plans; providing economic analysis and modeling for energy and mineral projects; supplying marketing studies for various energy and mineral commodities; and offering a preliminary opportunity assessment for a renewable energy resource.

#### XVII. Authority

This is a discretionary grant program authorized under the Snyder Act (25 U.S.C. 13), the Indian Mineral Development Act of 1982 (25 U.S.C. 2106), 25 U.S.C. 3502(a)(2)(B), and the Further Consolidated Appropriations Act 2020 (Pub. L. 116-94).

The Snyder Act authorizes the BIA to expend such moneys as Congress may appropriate for the benefit, care, and assistance of Indians for the purposes listed in the Act. EMDP grants facilitate two of the purposes listed in the Snyder Act: “General support and civilization, including education” and “industrial assistance and advancement.”

The Indian Mineral Development Act of 1982 requires that DOI ensure that, upon the request of any Indian Tribe or individual Indian and to the extent of his available resources, the Tribe or individual Indian will have available advice, assistance, and information during the negotiation of a Mineral Agreement. Under the Act, the Secretary may fulfill this responsibility by providing financial assistance to the Indian Tribe or individual Indian to secure independent assistance. EMDP grants are issued in response to requests from Tribes who seek advice, assistance, and information from independent sources regarding their mineral resources and who may contemplate entering into a Minerals Agreement with a production company.

25 U.S.C. 3502(a)(2)(B) authorizes the DOI to provide grants to Indian Tribes and Tribal energy development organizations for use in carrying out projects to promote the integration of energy resources, and to process, use, or develop those energy resources, on Indian land.

The Further Consolidated Appropriations Act 2020 authorizes the BIA to carry out the operation of Indian programs by direct expenditure, contracts, cooperative agreements, compacts, and grants, either directly or in cooperation with States and other organizations.

#### Notice of Cancellation of Environmental Impact Statement for Proposed Coquille Indian Tribe Fee-To-Trust and Gaming Facility Project, City of Medford, Jackson County, Oregon

**AGENCY:** Bureau of Indian Affairs, Interior.

**ACTION:** Notice of cancellation.

**SUMMARY:** The Bureau of Indian Affairs (BIA) announces that it has discontinued preparation of an Environmental Impact Statement (EIS) for the Coquille Indian Tribe’s (Tribe) application for the proposed conveyance of 2.4-acres of land into trust and development of a gaming facility in the City of Medford, Jackson County, Oregon. The Proposed Action included (1) conveyance of the Medford Site into trust by the BIA, and (2) conversion of an existing bowling alley on the Medford Site into a gaming facility by the Tribe. On May 27, 2020, the Assistant Secretary—Indian Affairs declined to accept conveyance of the Medford Site into trust. Accordingly, the Department will take no Federal action, and there is no longer a need for an EIS.

**DATES:** Cancellation of this EIS is immediate.

**ADDRESSES:** Mail all comments, statements, or questions concerning this notice to: Mr. Bryan Mercier, Northwest Regional Director, Bureau of Indian Affairs, Northwest Region, 911 Northeast 11th Avenue, Portland, Oregon 97232-4165.

**FOR FURTHER INFORMATION CONTACT:** Jacilyn Snyder, BIA Northwest Regional Environmental Protection Specialist, at (503) 231-6780.

**SUPPLEMENTARY INFORMATION:** On January 15, 2015, the BIA published in the **Federal Register** a Notice of Intent to prepare an EIS. The BIA initiated scoping on February 2, 2015. On May 27, 2020, the Assistant Secretary—Indian Affairs declined to accept conveyance of the Medford Site into trust pursuant to the Department’s regulations at 25 CFR part 151. Under the Department’s regulations, the Secretary must consider jurisdictional problems that may arise because of the conveyance. The Assistant Secretary determined pursuant to 25 CFR 151.11(b) that the Tribe’s anticipated benefits do not outweigh potential jurisdictional concerns raised by the

State, county, and municipal governments having regulatory jurisdiction over the Medford Site. Accordingly, the Department will take no Federal action, and there is no longer a need for an EIS.
