

- be a full-time employee of his or her school or school district as determined by state and district policies, with responsibilities for teaching students no less than 50% of the school's allotted instructional time;

- have at least five years of full-time employment as a K–12 teacher prior to the academic school year in which they apply, with science, technology, engineering, mathematics, and/or computer science teaching duties each of the past five years;

- teach in one of the 50 states, the District of Columbia, the Commonwealth of Puerto Rico, the Department of Defense Education Activity schools, or the U.S. Territories as a group (American Samoa, Guam, Commonwealth of the Northern Mariana Islands, and U.S. Virgin Islands);

- be a U.S. citizen or permanent resident; and

- not have received the PAEMST award at the national level in any prior competition or category.

Application Process

- Applicants complete a narrative on five dimensions of outstanding teaching (content knowledge, pedagogy, assessment, leadership and professional development), submit a video of one class, supplemental materials, and references cited. Three letters of reference including one from a school official are required, along with a resume or biographical sketch.

- The applicant completes an application and submits for state review during the academic year. The nomination period runs through the application cycle up to one month before the application deadline.

Review of Nominations

- State coordinators convene state selection committees of prominent mathematicians, scientists, mathematics and science educators, and past awardees to select up to three mathematics category and three science category finalists for recognition at the state level and for submission to NSF. To ensure consistency, state selection committees review their applications using the same criteria and scoring information that was approved by OSTP. Following the state review applicants are given two weeks to complete an addendum to the state application that addresses state reviewer comments.

- NSF (EHR) convenes a National Selection Committee of prominent mathematicians, scientists, mathematics and science educators, and past awardees that review the application packets of the state finalists including

the addendum and make recommendations to NSF. NSF reviews the state selection committee recommendations and recommends to OSTP, when possible, one awardee in the mathematics category and one in the science category for all eligible states/jurisdictions. Alternatively, NSF may recommend two awardees from a discipline in a jurisdiction, when warranted.

Award Ceremony

The awardees are hosted for 3–4 days in Washington, DC, for a variety of professional development sessions and celebratory activities. Each awardee receives a citation signed by the President and \$10,000 from NSF. If scheduling permits, the President meets the teachers for a photo opportunity at the White House. The Director of OSTP and the Director of NSF present the citations to the teachers at an awards ceremony. Awardees also have the opportunity to meet their congressional representatives and education representatives from other federal agencies.

Estimate of Burden: These are annual award programs with application deadlines varying according to the program. Public burden also may vary according to program; however, across all the programs, it is estimated that each submission will average 19 hours per respondent. If the nominator is thoroughly familiar with the disciplinary background of the nominee, time spent to complete the nomination may be considerably reduced.

Respondents: Individuals, businesses or other for-profit organizations, universities, non-profit institutions, and Federal and State governments.

Estimated Number of Responses per Award: 1800 responses, broken down as follows: For the President's National Medal of Science, 80; for the Alan T. Waterman Award, 70; for the Vannevar Bush Award, 20; for the Public Service Award, 30; for the PAESMEM, 200; and 1400 for the PAEMST.

Estimated Total Annual Burden on Respondents: 41,350 hours, broken down by 1,600 hours for the President's National Medal of Science (20 hours per 80 respondents); 1,400 hours for the Alan T. Waterman Award (20 hours per 70 respondents); 300 hours for the Vannevar Bush Award (15 hours per 20 respondents); 450 hours for the Public Service Award (15 hours per 30 respondents); 4,000 hours for the PAESMEM (20 hours per 200 respondents); and 33,600 hours for the PAEMST (24 hours per 1400 respondents).

Frequency of Responses: Annually.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: September 1, 2020.

Suzanne H. Plimpton,

Reports Clearance Officer, National Science Foundation.

BILLING CODE 7555–01–P

NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50–409 and 72–046; NRC–2019–0110]

In the Matter of LaCrosse Solutions, LLC; La Crosse Boiling Water Reactor

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Direct transfer of license; extending effectiveness of order.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is issuing an Order to extend the effectiveness of a September 24, 2019, Order, which approved the direct transfer of Possession Only License No. DPR–45 for the La Crosse Boiling Water Reactor (LACBWR) from the current holder, LaCrosseSolutions, LLC, to Dairyland Power Cooperative and approved a conforming license amendment, for six months beyond its current September 24, 2020, expiration date.

DATES: The Order was issued on September 1, 2020 and was effective upon issuance.

ADDRESSES: Please refer to Docket ID NRC–2019–0110 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

- *Federal Rulemaking website:* Go to <https://www.regulations.gov> and search for Docket ID NRC–2019–0110. Address

questions about Docket IDs in *Regulations.gov* to Jennifer Borges; telephone: 301-287-9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individual listed in the **FOR FURTHER INFORMATION CONTACT** section of this document.

- *NRC's Agencywide Documents Access and Management System (ADAMS)*: You may obtain publicly-available documents online in the ADAMS Public Documents collection at <https://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. The Order extending the effectiveness of the approval of the transfer of license and conforming amendment is available in ADAMS under Accession No. ML20188A228.

FOR FURTHER INFORMATION CONTACT: Marlayna Vaaler Doell, Office of Nuclear Material Safety and Safeguards, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-3178; email: Marlayna.Doell@nrc.gov.

SUPPLEMENTARY INFORMATION: The text of the Order is attached.

Dated: September 1, 2020.

For the Nuclear Regulatory Commission.

John W. Lubinski,

Director, Office of Nuclear Material, Safety, and Safeguards.

Attachment—Order Extending the Effectiveness of the Approval of the Transfer of License and Conforming Amendment

In the Matter of *LaCrosseSolutions, LLC*; *La Crosse Boiling Water Reactor EA-19-077*; Docket Nos. 50-409 and 72-046; License No. DPR-45

Order Extending the Effectiveness of the Approval of the Transfer of License and Conforming Amendment

I.

LaCrosseSolutions, LLC is the holder of the U.S. Nuclear Regulatory Commission (NRC, the Commission) Possession Only License No. DPR-45, with respect to the possession, maintenance, and decommissioning of the *La Crosse Boiling Water Reactor (LACBWR)*. Operation of the *LACBWR* is no longer authorized under this license. The *LACBWR* facility is located in Vernon County, Wisconsin.

II.

By Order dated September 24, 2019 (Transfer Order), the Commission

consented to the transfer of the *LACBWR* license to Dairyland Power Cooperative and approved a conforming license amendment in accordance with Section 50.80, "Transfer of licenses," and Section 50.90, "Application for amendment of license, construction permit, or early site permit," of Title 10 of the *Code of Federal Regulations* (10 CFR). By its terms, the Transfer Order becomes null and void if the license transfer is not completed within 1 year unless, upon application and for good cause shown, the Commission extends the Transfer Order's September 24, 2020, expiration date.

III.

By letter dated June 24, 2020, *LaCrosseSolutions, LLC* submitted a request to extend the effectiveness of the Transfer Order by 6 months, until March 24, 2021. As stated in the letter, the *LACBWR* Final Status Survey Final Reports (FSSRs) and their associated Release Records are currently under review by the NRC staff. In addition, the NRC staff notes that NRC requests for additional information (RAIs) are being addressed by *LaCrosseSolutions, LLC*. Based on the current status of the NRC review and the expected timeframe for receiving finalized RAI responses, it is anticipated that additional time will be needed to address questions or potential issues identified by the NRC staff during its review of the *LACBWR* FSSRs. The letter also stated that the extension would allow adequate time for research and response development by *LaCrosseSolutions, LLC*, regarding possible additional questions or potential issues, and for the NRC staff to assess the responses provided by *LaCrosseSolutions, LLC* and make a final determination regarding the release of the majority of the *LACBWR* site for unrestricted use. Moreover, the letter discussed the possibility of delays due to the Coronavirus Disease 2019 public health emergency.

Based on the above, the NRC staff has determined that *LaCrosseSolutions, LLC* has shown good cause for extending the effectiveness of the Transfer Order by 6 months, as requested.

IV.

Accordingly, pursuant to Sections 161b, 161i, and 184 of the Atomic Energy Act of 1954, as amended, 42 U.S.C. Sections 2201(b), 2201(i), and 2234; and 10 CFR 50.80, *It is hereby ordered* that the expiration date of the Transfer Order of September 24, 2019, is extended until March 24, 2021. If the subject license transfer from *LaCrosseSolutions, LLC* to Dairyland Power Cooperative is not completed by

March 24, 2021, the Transfer Order shall become null and void; provided, however, that upon written application and for good cause shown, such date may be extended by order.

This Order is effective upon issuance.

For further details with respect to this Order, see the extension request dated June 24, 2020, which is available electronically through ADAMS in the NRC Library at <https://www.nrc.gov/reading-rm/adams.html> under Accession No. ML20188A228. Persons who encounter problems with ADAMS should contact the NRC's Public Document Room reference staff by telephone at 1-800-397-4209 or 301-415-4737 or by email to pdr.resource@nrc.gov.

Dated this 1st day of September 2020.

For the Nuclear Regulatory Commission.

John W. Lubinski,

Director, Office of Nuclear Material Safety and Safeguards.

BILLING CODE 7590-01-P

NUCLEAR REGULATORY COMMISSION

[NRC-2020-0200]

Biweekly Notice; Applications and Amendments to Facility Operating Licenses and Combined Licenses Involving no Significant Hazards Considerations

AGENCY: Nuclear Regulatory Commission.

ACTION: Biweekly notice.

SUMMARY: Pursuant to section 189.a.(2) of the Atomic Energy Act of 1954, as amended (the Act), the U.S. Nuclear Regulatory Commission (NRC) is publishing this regular biweekly notice. The Act requires the Commission to publish notice of any amendments issued, or proposed to be issued, and grants the Commission the authority to issue and make immediately effective any amendment to an operating license or combined license, as applicable, upon a determination by the Commission that such amendment involves no significant hazards consideration (NSHC), notwithstanding the pendency before the Commission of a request for a hearing from any person. This biweekly notice includes all amendments issued, or proposed to be issued, from August 11, 2020, to August 24, 2020. The last biweekly notice was published on August 25, 2020.

DATES: Comments must be filed by October 8, 2020. A request for a hearing
