

the scoping process and the comment period initiated by this notice of intent in the preparation of the EIS.

BOEM will use the NEPA commenting process to satisfy the public comment requirements of the National Historic Preservation Act (54 U.S.C. 306108), as provided for in 36 CFR 800.2(d)(3).

Cooperating Agencies: BOEM invites qualified government entities such as other Federal agencies, State, Tribal, and local governments, to consider becoming cooperating agencies for the preparation of the Cook Inlet Lease Sale 258 EIS. Following the guidelines at 40 CFR 1501.6 and 1508.5 from the Council on Environmental Quality (CEQ), qualified agencies and governments are those with “jurisdiction by law or special expertise.” Potential cooperating agencies should consider their authority and capacity to assume the responsibilities of a cooperating agency and remember that an agency’s role in the environmental analysis neither enlarges nor diminishes the final decision-making authority of any other agency involved in the NEPA process. Upon request, BOEM will provide potential cooperating agencies with a written summary of guidelines for cooperating agencies, including time schedules and critical action dates, milestones, responsibilities, and scope and detail of cooperating agencies’ contributions. BOEM anticipates this summary will form the basis for a Memorandum of Understanding between BOEM and any cooperating agency. BOEM, as the lead agency, will not provide financial assistance to cooperating agencies. In addition to becoming a cooperating agency, other opportunities will exist to provide information and comments to BOEM during the public comment period for the Cook Inlet Lease Sale 258 EIS. For additional information about cooperating agencies, please contact Ameer Howard, Project Manager, BOEM Office of Environment (907–334–5200).

Authority: This notice of intent is published pursuant to the regulations at 40 CFR 1501.7 implementing the provisions of NEPA.

Walter D. Cruickshank,

Acting Director, Bureau of Ocean Energy Management.
