DATES: Submit comments by November 10, 2020. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods:
- Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2020–0126. For technical questions, contact the individual listed in the FOR FURTHER INFORMATION CONTACT section of this document.

For additional direction on obtaining information and submitting comments, see “Obtaining Information and Submitting Comments” in the SUPPLEMENTARY INFORMATION section of this document.

SUPPLEMENTARY INFORMATION:
I. Obtaining Information and Submitting Comments
A. Obtaining Information
Please refer to Docket ID NRC–2020–0126 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:
- Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2020–0126. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC–2020–0126 on this website.
- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room reference staff at 1–800–397–4209, 301–415–4737, or by email to pdr.resource@nrc.gov. The supporting statement and Non-Power Operator Licensing Email are available in ADAMS under Accession Nos. ML20178A337 and ML20178A335.

B. Submitting Comments
Please include Docket ID NRC–2020–0126 in the subject line of your comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this document.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at https://www.regulations.gov as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background
In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB’s approval for the information collection summarized below.
2. OMB approval number: 3150–0235.
3. Type of submission: Extension.
4. The form number, if applicable: N/ A.
5. How often the collection is required or requested: Annually.
6. Who will be required or asked to respond: All holders of operating licenses for non-power reactors under the provision of part 50 of title 10 of the Code of Federal Regulations, “Domestic Licensing of Production and Utilization Facilities,” except those that have permanently ceased operations and have certified that fuel has been permanently removed from the reactor vessel.
7. The estimated number of annual respondents: 31.
8. The estimated number of annual responses: 31.
9. The estimated number of hours needed annually to comply with the information collection requirement or request: 31.
10. Abstract: The NRC annually request all non-power reactor licensees and applicants for an operating license to voluntarily send to the NRC: (1) Their projected number of candidates for initial operator licensing examinations and (2) the estimated dates of the examinations. This information is used to plan budgets and resources in regard to operator examination scheduling in order to meet the needs of the non-power nuclear community.

III. Specific Requests for Comments
The NRC is seeking comments that address the following questions:
1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the estimate of the burden of the information collection accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?

For the Nuclear Regulatory Commission.
David C. Cullison,
NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2020–0124]
Information Collection: Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR
And Part 20 Respirator Protection Exemption Request for Power Reactors Online Forms

AGENCY: Nuclear Regulatory Commission.
ACTION: Notice of submission to the Office of Management and Budget; request for comment.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) has recently
submitted a request for renewal of an existing collection of information to the Office of Management and Budget (OMB) for review. The information collection is entitled, “Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR And Part 20 Respirator Protection Exemption Request for Power Reactors Online Forms.”

DATES: Submit comments by October 13, 2020. Comments received after this date will be considered if it is practical to do so, but the Commission is able to ensure consideration only for comments received on or before this date.

ADDRESSES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to https://www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently Under Review—Open for Public Comments” or by using the search function.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC–2020–0124 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2020–0124. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC–2020–0124 on this website.
- NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room reference staff at 1–800–397–4209, 301–415–4737, or by email to prd.resource@nrc.gov. A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession Nos., ML20141L572 and ML20141L573. The supporting statement is available in ADAMS under Accession No. ML20170A357.
- NRC’s Clearance Officer: A copy of the collection of information and related instructions may be obtained without charge by contacting the NRC’s Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555–0001; telephone: 301–415–2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. All comment submissions are posted at https://www.regulations.gov and entered into ADAMS. Comment submissions are not routinely edited to remove identifying or contact information. If you are requesting or aggregating comments from other persons for submission to the OMB, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that comment submissions are not routinely edited to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a renewal of an existing collection of information to OMB for review entitled, “Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR And Part 20 Respirator Protection Exemption Request for Power Reactors Online Forms.” The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a Federal Register notice with a 60-day comment period on this information collection on May 27, 2020, 85 FR 31816. 1. The title of the information collection: Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR And Part 20 Respirator Protection Exemption Request for Power Reactors Online Forms.

2. OMB approval number: 3150–0014.

3. Type of submission: Extension.

4. The form number if applicable: There is no form number for the online submission forms.

5. How often the collection is required or requested: On Occasion.

6. Who will be required or asked to respond: All holders of, and certain applicants for, nuclear power plant construction permits and operating licenses under the provisions of part 50 of title of the Code of Federal Regulations (10 CFR), “Domestic Licensing of Production and Utilization Facilities” who seek exemptions from the medical evaluation frequency and fit-testing frequency requirements specified in 10 CFR 20.1703(c)(5)(iii) and 10 CFR 20.1703(c)(6) as allowed by 10 CFR 20.2301 “Applications for exemptions.”

7. The estimated number of annual responses: 60.

8. The estimated number of annual respondents: 60.

9. The estimated number of hours needed annually to comply with the information collection requirement or request: 120.

10. Abstract: The NRC requested an emergency review of this information collection in order to add this form to the previously approved information collection OMB Control Number 3150–0014 for a period of 6 months. The purpose of this information collection is to request an extension of the approval of the Part 20 Respirator Protection Exemption Request for Non-Power Reactors/RTR and the Part 20 Respirator Protection Exemption Request for Power Reactors Online Forms. These forms simplify the filing the exemption requests because the existing system may be burdensome for licensees under current conditions. Under the existing collection under OMB Control No. 3150–0014, licensees are already able to seek exemptions from the requirements of 10 CFR part 20, “Standards for Protection Against Radiation.” This information collection only addresses the incremental burden change to this existing clearance due to the form and not the total burden for the clearance.

10 CFR part 20 contains specific requirements for respiratory protection. Due to the impacts of the COVID–19 public health emergency (PHE), the NRC will also consider exemption requests for the medical evaluation frequency and fit-testing frequency requirements specified in 10 CFR 20.1703(c)(5)(iii) and 10 CFR 20.1703(c)(6); these exemptions would allow delay of these requirements during the COVID–19 PHE as allowed by 10 CFR 20.2301 “Applications for exemptions.”

For the Nuclear Regulatory Commission.

David C. Cullison,
NRC Clearance Officer, Office of the Chief Information Officer.

BILLING CODE 7590–01–P

NUCLEAR REGULATORY COMMISSION

[NRC–2020–0196]

Intent and Scope of the Physical Protection Upgrade Rule Requirements for Fixed Sites

AGENCY: Nuclear Regulatory Commission.

ACTION: Regulatory guide; withdrawal.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) is withdrawing Regulatory Guide (RG) 5.61, “Intent and Scope of the Physical Protection Upgrade Rule Requirements for Fixed Sites.” This document is being withdrawn because the information in RG 5.61 is no longer needed. The reasons for the withdrawal are described in more detail under the “Background” section of this document.

DATES: The withdrawal of RG 5.61 takes effect on September 11, 2020.

ADDRESSES: Please refer to Docket ID NRC–2020–0196 when contacting the NRC about the availability of information regarding this document. You may obtain publicly-available information related to this document using any of the following methods:

• Federal Rulemaking Website: Go to https://www.regulations.gov and search for Docket ID NRC–2020–0196. Address questions about NRC docket IDs in regulations.gov to Jennifer Borges; telephone: 301–287–9127; email: Jennifer.Borges@nrc.gov. For technical questions, contact the individuals listed in the FOR FURTHER INFORMATION CONTACT section of this document.

• NRC’s Agencywide Documents Access and Management System (ADAMS): You may obtain publicly-available documents online in the ADAMS Public Documents collection at https://www.nrc.gov/reading-rm/adams.html. To begin the search, select “Begin Web-based ADAMS Search.” For problems with ADAMS, please contact the NRC’s Public Document Room reference staff at 1–800–397–4209, 301–415–4737, or by email to prdr.resource@nrc.gov. The ADAMS accession number for each document referenced (if it available in ADAMS) is provided the first time that a document is referenced. The basis for withdrawal of RG 5.61 is available in ADAMS under Accession No. ML20225A307.

SUPPLEMENTARY INFORMATION:

I. Background

Regulatory Guide 5.61 was published in July 1980 to provide guidance to affected licensees in revising their physical protection plans in response to the requirements in part 73 of title 10 of the Code of Federal Regulations (10 CFR), “Physical Protection of Plants and Materials” (November 28, 1979; 44 FR 68184). The RG explains the link between the performance capabilities provided in 10 CFR 73.45 and the fixed site physical protection system requirements in 10 CFR 73.46. Future applicants and licensees may use other more relevant regulatory guidance documents to meet those regulatory requirements.

The NRC is withdrawing RG 5.61, “Intent and Scope of the Physical Protection Upgrade Rule Requirements for Fixed Sites,” because the guide is no longer needed for several reasons. First, the regulatory requirements in 10 CFR 73.45 and 73.46 have not changed since 1979 and are well understood by existing licensees. Second, no new licensees that would possess and use formula quantities of strategic special nuclear material are expected in the foreseeable future. Third, the RG is predominately explanatory of the rulemaking rather than guidance on how to comply with the applicable requirements. Lastly, other guidance on developing security plans to meet the physical protection requirements in 10 CFR 73.46 are available. The basis for withdrawal of RG 5.61 is available in ADAMS under Accession No. ML20225A307.

II. General Consideration

The withdrawal of RG 5.61 does not alter any prior or existing NRC licensing approvals, or the acceptability of licensee commitments made regarding the withdrawn guidance. Although RG 5.61 is withdrawn, current licensees referencing this RG may continue to do so, and withdrawal does not affect any existing licenses or agreements. However, by withdrawing RG 5.61, the NRC no longer approves use of the guidance in future requests or applications for NRC licensing actions.

Dated: September 1, 2020.

For the Nuclear Regulatory Commission.

Meraj Rahimi,
Chief, Regulatory Guidance and Generic Issues Branch, Division of Engineering, Office of Nuclear Regulatory Research.

BILLING CODE 7590–01–P

SECURITIES AND EXCHANGE COMMISSION

Self-Regulatory Organizations; MIAX PEARL, LLC; Notice of Filing and Immediate Effectiveness of a Proposed Rule Change To Amend the MIAX PEARL Fee Schedule

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (“Act”), 1 and Rule 19b–4 thereunder, 2 notice is hereby given that on August 25, 2020, MIAX PEARL, LLC (“MIAX PEARL” or “Exchange”) filed with the Securities and Exchange Commission (“Commission”) a proposed rule change as described in Items I, II, and III below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization’s Statement of the Terms of Substance of the Proposed Rule Change

The Exchange is filing a proposal to amend the MIAX PEARL Fee Schedule (the “Fee Schedule”) to increase the number of additional Limited Service MIAx Express Order Interface (“MEO”) Ports available to Market Makers. 3 The Exchange does not propose to amend the fees for additional Limited Service MEO Ports.

The text of the proposed rule change is available on the Exchange’s website at http://www.miaxoptions.com/rule-filings/pearl at MIAX PEARL’s principal office, and at the Commission’s Public Reference Room.

3 The term “Market Maker” or “MM” means a Member registered with the Exchange for the purpose of making markets in options contracts traded on the Exchange and that is vested with the rights and responsibilities specified in Chapter VI of the Exchange’s Rules. See Exchange Rule 100.
