SUPPLEMENTARY INFORMATION: NOAA established the OEAB under the Federal Advisory Committee Act (FACA) and legislation that gives the agency statutory authority to operate an ocean exploration program and to coordinate a national program of ocean exploration. The OEAB advises NOAA leadership on strategic planning, exploration priorities, competitive ocean exploration grant programs, and other matters as the NOAA Administrator requests.

OEAB members represent government agencies, the private sector, academic institutions, and not-for-profit institutions involved in all facets of ocean exploration—from advanced technology to citizen exploration.

In addition to advising NOAA leadership, NOAA expects the OEAB to help to define and develop a national program of ocean exploration—a network of stakeholders and partnerships advancing national priorities for ocean exploration.

Matters to be Considered: The OEAB will discuss the following topics: (1) NOAA Office of Ocean Exploration and Research program review and other updates; (2) the National Strategy for Mapping, Exploring, and Characterizing the United States Exclusive Economic Zone; (3) ocean exploration partnerships; (4) national ocean exploration priorities in the Pacific; and (5) other matters as described in the agenda. The public may listen to the meeting and provide comments during the public comment period via teleconference.

Participation information will be on the meeting agenda on the OEAB website. The OEAB expects that public statements at its meetings will not be repetitive of previously submitted verbal or written statements. In general, each individual or group making a verbal presentation will be limited to three minutes. The Designated Federal Officer must receive written comments by September 28, 2020, to provide sufficient time for OEAB review. Written comments received after September 28, 2020, will be distributed to the OEAB but may not be reviewed prior to the meeting date.
