

and non-funded agreements. The multiple means for respondents to communicate their responses include forms, non-forms, electronic documents, face-to-face, telephone, and internet. The scope of information collected varies; however, it typically includes the project type, project scope, financial plan, statement of work, and cooperator's business information.

The Forest Service would not be able to create, develop, and administer these funded and non-funded agreements without the collected information. The Agency would also be unable to develop or monitor projects, make or receive payments, or identify financial and accounting errors.

Estimate of Annual Burden: 1 to 4 hours annually per person.

Type of Respondents: Non-profit and for profit institutions; institutions of higher education; State, local, and Native American tribal governments, individuals; foreign governments; and organizations.

Estimated Annual Number of Respondents for New Form: 1,875.

Estimated Annual Number of Responses per Respondent: 1 to 4.

Estimated Total Annual Burden on Respondents: 7,500 hours.

Comment is invited on: (1) Whether this collection of information is necessary for the stated purposes and the proper performance of the functions of the Agency, including whether the information will have practical or scientific utility; (2) the accuracy of the Agency's estimate of the burden of the collection of information, including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on respondents, including the use of automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All comments received in response to this notice, including names and addresses when provided, will be a matter of public record. Comments will be summarized and included in the submission for Office of Management and Budget approval.

Jacqueline Henry,

Director, Grants and Agreements Policy.

BILLING CODE 3411-15-P

DEPARTMENT OF AGRICULTURE

Forest Service

Tongass National Forest, Thorne Bay Ranger District; Alaska; Twin Mountain II Timber Sale

AGENCY: Forest Service, Agriculture (USDA).

ACTION: Notice of intent to prepare an environmental impact statement.

SUMMARY: The Forest Service will prepare an Environmental Impact Statement (EIS) for the Twin Mountain II Timber Sale, which proposes to offer timber for harvest in the Staney and Red Bay areas within the Thorne Bay Ranger District, Tongass National Forest. The Proposed Action would offer for harvest about 42 million board feet of timber from approximately 3,000 acres. In addition, transportation management activities such as road construction, reconstruction, maintenance and decommissioning are proposed.

DATES: Comments concerning the scope of the analysis must be received by [October 14, 2020. The draft EIS is expected December 2020 and the final EIS is expected May 2021.

ADDRESSES: Send written comments to the Thorne Bay Ranger District, Attn: Twin Mountain II Timber Sale, P.O. Box 19001, Thorne Bay, Alaska, 99919. Comments may also be sent electronically to <https://cara.ecosystemmanagement.org/Public/CommentInput?Project=58626>, or via facsimile to 907-828-3309. In all correspondence, include your name, address, and organization name if you are commenting as a representative of an organization.

FOR FURTHER INFORMATION CONTACT: Lucy Maldonado, Planning Staff, Thorne Bay Ranger District, P.O. Box 19001, Thorne Bay, Alaska 99919 or by phone at 907-828-3250.

Individuals who use telecommunication devices for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339 between 8 a.m. and 8 p.m., Eastern Time, Monday through Friday.

SUPPLEMENTARY INFORMATION: This EIS will tier to and incorporate by reference the 2016 Tongass Land and Resource Management Plan (Forest Plan) Amendment Final EIS. The project area is located on Prince of Wales Island, approximately 75 to 100 miles west of Ketchikan, Alaska, within the Staney and Red Bay areas of the Thorne Bay Ranger District, Tongass National.

Purpose and Need for Action

The purpose of the Twin Mountain II Timber Sale is to implement the 2016 Forest Plan direction to move the project area toward the desired future conditions described in the plan. More specifically, the purpose is to manage the timber resource for production of sawtimber and other wood products and to meet multiple resource objectives. There is a need to provide a sustainable level of forest products to contribute to the economic sustainability of the region. Providing old-growth timber would preserve a viable timber industry by providing timber volume in an economically efficient manner while providing jobs and opportunities for Southeast Alaska residents.

Proposed Action

The Forest Service proposes to make approximately 42 million board feet (MMBF) of old growth timber available to offer for harvest and construct and reconstruct roads in the Staney and Red Bay areas within the Thorne Bay Ranger District. Timber would be made available to offer for harvest up to 3,000 acres of old-growth forest in the Modified Landscape and Timber Production land use designation areas, using one or more timber sales that would be implemented over the course of 5 to 10 years. The proposed action includes about 1,800 acres of even-aged management and about 1,200 acres of uneven-aged management, with estimated volume for even-aged management being 32.4 MMBF and 9.6 MMBF for uneven-aged management. The proposed action includes approximately 3 miles of new National Forest System road construction, 11 miles of new temporary road construction, and the reconditioning of approximately 35 miles of existing roads. Existing rock quarries would be used as available or new quarries would be developed as necessary to provide materials for road construction. Existing log transfer facilities at El Capitan, Exchange Cove, Lab Bay, Naukati, and Winter Harbor could be used. Under the proposed action, no young growth timber is proposed to be made available for harvest and no activities would occur within designated roadless areas. No special timber cutting prescriptions around communities are included in the proposed action.

Responsible Official

The Responsible Official for this project is the Tongass Forest Supervisor, Earl Stewart.

Nature of Decision To Be Made

Given the purpose and need of the project, the Forest Supervisor will review alternatives and consider the environmental consequences of those alternatives in making his decisions, including: (1) Whether to select the proposed action or another alternative; (2) the effects of road construction, reconstruction, and closure; (3) mitigation measures and monitoring; and (4) whether there may be a significant restriction to subsistence resources.

Preliminary Issues

Preliminary concerns identified by the interdisciplinary team include: (1) Designing an economical timber sale(s) that contributes to meeting market demand; (2) effects of timber harvest and road construction on wildlife, including habitat, travel corridors, and subsistence use of deer; and (3) effects of timber harvest and road construction on watershed condition.

Permits or Licenses Required

All necessary permits will be obtained prior to project implementation.

Scoping Process

This notice of intent initiates the scoping process, which guides the development of the EIS. The Forest Service is soliciting internal and external input on the issues, impacts, and alternatives that will be addressed in the EIS. Scoping packages will be distributed to interested parties who have subscribed through an electronic mailing list to receive project information. Individuals and organizations wishing to subscribe may do so at: <https://public.govdelivery.com/accounts/USDAFS/subscriber/new?preferences=true>.

Additionally, there will be opportunities for involvement including open houses and subsistence hearings held in Prince of Wales Island communities. Project information, meeting announcements, notices, and documents will be provided on the project web page at: http://www.fs.fed.us/nepa/nepa_project_exp.php?project=58626.

Forest Service regulations at 36 CFR part 218, subparts A and B (78 FR18481–18504) regarding the project-level, predecisional administrative review process applies to projects and activities implementing land management plans. The Twin Mountain II Timber Sale is an activity implementing the Forest Plan and is subject to 36 CFR 218.

Only individuals or entities who submit timely and specific written

comments concerning this project during this or other designated public comment periods established by the Responsible Official will be eligible to file an objection. It is important that reviewers provide their comments at such times and in such manner that they are useful to the agency's preparation of the EIS. Therefore, comments should be provided prior to the close of the comment period and should clearly articulate the reviewer's concerns and contentions.

Comments received in response to this solicitation, including names and addresses of those who comment, will be part of the public record for this proposed action. While comments submitted anonymously will be accepted and considered, they will not provide the submitters standing to participate in the predecisional review process.

Allen Rowley,

Associate Deputy Chief, National Forest System.

Foreign-Trade Zones Board

[B–29–2020]

Foreign-Trade Zone (FTZ) 148—Knoxville, Tennessee; Authorization of Production Activity; CoLinx, LLC; (Tapered Roller Bearing Unit and Gearhead Kitting) Crossville, Tennessee

On May 7, 2020, CoLinx, LLC (CoLinx) submitted a notification of proposed production activity to the FTZ Board for its facility within FTZ 148, in Crossville, Tennessee.

The notification was processed in accordance with the regulations of the FTZ Board (15 CFR part 400), including notice in the **Federal Register** inviting public comment (85 FR 29397–29398, May 15, 2020). On September 4, 2020, the applicant was notified of the FTZ Board's decision that no further review of the activity is warranted at this time. The production activity described in the notification was authorized, subject to the FTZ Act and the FTZ Board's regulations, including Section 400.14.

Dated: September 4, 2020.

Andrew McGilvray,

Executive Secretary.

BILLING CODE 3510–DS–P

DEPARTMENT OF COMMERCE

Foreign-Trade Zones Board

[B–57–2020]

Foreign-Trade Zone (FTZ) 7—Mayaguez, Puerto Rico; Notification of Proposed Production Activity; Patheon Puerto Rico, Inc. (Pharmaceutical Products); Manatí, Puerto Rico

Patheon Puerto Rico, Inc. (Patheon), submitted a notification of proposed production activity to the FTZ Board for its facility in Manatí, Puerto Rico. The notification conforming to the requirements of the regulations of the FTZ Board (15 CFR 400.22) was received on September 2, 2020.

Patheon already has authority to produce certain pharmaceutical products within Subzone 7L. The current request would add a foreign status material to the scope of authority. Pursuant to 15 CFR 400.14(b), additional FTZ authority would be limited to the specific foreign-status material described in the submitted notification (as described below) and subsequently authorized by the FTZ Board.

Production under FTZ procedures could exempt Patheon from customs duty payments on the foreign-status material used in export production. On its domestic sales, for the foreign-status material noted below, Patheon would be able to choose the duty rates during customs entry procedures that apply to its already authorized finished products (duty-free). Patheon would be able to avoid duty on the foreign-status material which becomes scrap/waste. Customs duties also could possibly be deferred or reduced on foreign-status production equipment.

The material sourced from abroad is microcrystalline cellulose (duty rate 5.2%). The request indicates that microcrystalline cellulose is subject to duties under Section 301 of the Trade Act of 1974 (Section 301), depending on the country of origin. The applicable Section 301 decisions require subject merchandise to be admitted to FTZs in privileged foreign status (19 CFR 146.41).

Public comment is invited from interested parties. Submissions shall be addressed to the Board's Executive Secretary and sent to: ftz@trade.gov. The closing period for their receipt is October 26, 2020.

A copy of the notification will be available for public inspection in the "Reading Room" section of the Board's website, which is accessible via www.trade.gov/ftz.
