

Councils. Each member of the Advisory Committee appointed under paragraph (1) shall serve for a term of 2 years and be eligible for reappointment. The Committee meets at least twice a year during which members receive information and provide advice on ICCAT-related matters. All members of the Advisory Committee are appointed in their individual professional capacity and undergo a background screening. Any individual appointed to the Committee who is unable to attend all or part of an Advisory Committee meeting may not appoint another person to attend such meetings as his or her proxy. Members of the Advisory Committee shall receive no compensation for their services. The Secretary of Commerce and the Secretary of State may pay the necessary travel expenses of members of the Advisory Committee. The terms of all currently appointed Advisory Committee members expire on December 31, 2020. NMFS is soliciting nominees to serve as members of the Advisory Committee for a term of 2 years that will begin January 1, 2021 and expire December 31, 2022.

Section 971b-1 of ATCA specifies that the U.S. Commissioners may establish species working groups for the purpose of providing advice and recommendations to the U.S. Commissioners and to the Advisory Committee on matters relating to the conservation and management of any highly migratory species covered by the ICCAT Convention. Any species working group shall consist of no more than seven members of the Advisory Committee and no more than four Technical Advisors, as considered

necessary by the Commissioners. Currently, there are four species working groups advising the Committee and the U.S. Commissioners: A Bluefin Tuna Working Group, a Swordfish/Sharks Working Group, a Billfish Working Group, and a Bigeye, Albacore, Yellowfin, and Skipjack Tunas Working Group. Technical Advisors to the species working groups serve at the pleasure of the Commissioners; therefore, the Commissioners can choose to alter these appointments at any time. As with Committee Members, Technical Advisors may not be represented by a proxy during meetings of the Advisory Committee.

Procedure for Submitting Nominations

Nominations to the Advisory Committee, or to a species working group, should include a letter of interest and a resume or curriculum vitae. Self-nominations are acceptable. Letters of recommendation are useful but not required. When making a nomination, please specify which appointment (Advisory Committee member or Technical Advisor to a species working group) is being sought. Nominees may also indicate which of the species working groups is preferred, although placement on the requested group is not guaranteed.

Deferred-Fee Provisional Patent Application Pilot Program and Collaboration Database To Encourage Inventions Related To COVID–19

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Notice.

SUMMARY: Patents and published patent applications provide a key source of free-flowing technical information among the world's brightest minds, thus promoting further innovation. The United States Patent and Trademark Office (USPTO or Office) recognizes that its charge to issue high-quality patents to inventors goes hand-in-hand with dissemination of this important information. Such information flow is now more important than ever in view of the urgent challenges posed by COVID–19. Therefore, the USPTO is implementing a deferred-fee provisional patent application pilot program (the program) to promote the expedited exchange of information about inventions designed to combat COVID–19. Under this program, the USPTO will permit applicants to defer payment of the provisional application filing fee until the filing of a corresponding nonprovisional application. In turn, applicants must agree that the technical subject matter disclosed in their provisional applications will be made available to the public via a searchable collaboration database maintained on the USPTO's website. To qualify for the program, the subject matter disclosed in the provisional application must concern a product or process related to COVID–19, and such product or process must be subject to an applicable Food and Drug Administration (FDA) approval for COVID–19 use, whether such approval has been obtained, is pending, or will be sought prior to marketing the subject matter for COVID–19.

DATES: Comments must be received by November 16, 2020 to ensure consideration.

Pilot Duration: The deferred-fee provisional patent application pilot program will accept certifications and requests for participation for a period of 12 months, beginning on September 17, 2020. The USPTO may extend the pilot program (with or without modifications) or terminate it depending on the workload and resources needed to administer it, feedback from the public, and its effectiveness. Depending on feedback and public interest, the technological scope could also be expanded beyond COVID–19 to other areas that are the focus of pioneering or rapid innovation. If the pilot program is extended or terminated, the USPTO will notify the public. The USPTO may also make the program permanent via the rule-making process.
