**AGENCY:** Office of Energy Efficiency and Renewable Energy, Department of Energy.

**ACTION:** Notification of webinar public meeting and reopening of comment period.

**SUMMARY:** On April 30, 2020, the U.S. Department of Energy (“DOE”) published in the **Federal Register** a Notification of Proposed Determination (“NOPD”) and request for comment regarding energy conservation standards for small electric motors. DOE is announcing that a webinar will be held regarding this proposed determination and that the comment period is reopened to accept additional written comments.

DOE will accept written comments, data, and information in response to the notification of proposed determination no later than October 20, 2020.

**SUPPLEMENTARY INFORMATION:** The Energy Policy and Conservation Act of 1975, as amended (“EPCA”), prescribes energy conservation standards for various consumer products and certain commercial and industrial equipment, including small electric motors. EPCA also requires the Secretary of Energy to periodically determine whether more-stringent, amended standards would be technologically feasible and cost effective, and would result in significant conservation of energy. In a Notification of Proposed Determination (“NOPD”) published on April 30, 2020, DOE tentatively determined that more stringent small electric motors standards would not be cost effective, and, thus, did not propose to amend its energy conservation standards for this equipment. 85 FR 24146. DOE requested submission of written comment, data,

and information pertaining to these standards by June 29, 2020.

This document announces that DOE will hold a webinar to discuss the proposed determination on October 6, 2020. Additionally, DOE will reopen the comment period for written comments until October 20, 2020 to provide interested parties an additional 14 days following the webinar to prepare and submit comments. DOE will consider any comments received by this date, to be timely submitted.
