

estimation techniques available.¹⁶ When updated and improved emission estimation techniques become available, EPA expects the Federal agency to use these techniques.

Transportation conformity determinations are not required in SO₂ nonattainment and maintenance areas. EPA concluded in its 1993 transportation conformity rule that highway and transit vehicles are not significant sources of SO₂. Therefore, transportation plans, transportation improvement programs, and projects are presumed to conform to applicable implementation plans for SO₂.¹⁷

V. What action is EPA taking?

EPA is proposing to approve the base year inventory and to affirm that the new source review requirements for the area have been met. EPA is also proposing to approve the DTE Trenton Channel and Carmeuse Lime permits as SIP strengthening. EPA is proposing to disapprove the attainment demonstration, as well as the requirement for meeting RFP toward attainment of the NAAQS, RACM/RACT, contingency measures, the invalidated Rule 430 related to U.S. Steel, and the superseded 2016 permit related to DTE River Rouge. Finalizing the proposed disapproval will start new sanctions clocks for this area under CAA section 179(a)–(b).

VI. Incorporation by Reference

In this rule, EPA is proposing to include in a final EPA rule regulatory text that includes incorporation by reference. In accordance with requirements of 1 CFR 51.5, EPA is proposing to incorporate by reference two permits, Permit to Install 193–14A issued March 18, 2016 and Permit to Install 125–11C issued April 29, 2016. EPA has made, and will continue to make, these documents generally available through www.regulations.gov and at EPA Region 5 Office (please contact the person identified in the **FOR FURTHER INFORMATION CONTACT** section of this preamble for more information).

VII. Statutory and Executive Order Reviews

Under the CAA, the Administrator is required to approve a SIP submission that complies with the provisions of the CAA and applicable Federal regulations. 42 U.S.C. 7410(k); 40 CFR 52.02(a). Thus, in reviewing SIP submissions, EPA's role is to approve state choices, provided that they meet the criteria of the CAA. Accordingly, this action

merely approves state law as meeting Federal requirements and does not impose additional requirements beyond those imposed by state law. For that reason, this action:

- Is not a significant regulatory action subject to review by the Office of Management and Budget under Executive Orders 12866 (58 FR 51735, October 4, 1993) and 13563 (76 FR 3821, January 21, 2011);

- Is not an Executive Order 13771 (82 FR 9339, February 2, 2017) regulatory action because it is not a significant regulatory action under Executive Order 12866;

- Does not impose an information collection burden under the provisions of the Paperwork Reduction Act (44 U.S.C. 3501 *et seq.*);

- Is certified as not having a significant economic impact on a substantial number of small entities under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*);

- Does not contain any unfunded mandate or significantly or uniquely affect small governments, as described in the Unfunded Mandates Reform Act of 1995 (Pub. L. 104–4);

- Does not have federalism implications as specified in Executive Order 13132 (64 FR 43255, August 10, 1999);

- Is not an economically significant regulatory action based on health or safety risks subject to Executive Order 13045 (62 FR 19885, April 23, 1997);

- Is not a significant regulatory action subject to Executive Order 13211 (66 FR 28355, May 22, 2001);

- Is not subject to requirements of Section 12(d) of the National Technology Transfer and Advancement Act of 1995 (15 U.S.C. 272 note) because application of those requirements would be inconsistent with the CAA; and

- Does not provide EPA with the discretionary authority to address, as appropriate, disproportionate human health or environmental effects, using practicable and legally permissible methods, under Executive Order 12898 (59 FR 7629, February 16, 1994).

In addition, the SIP is not approved to apply on any Indian reservation land or in any other area where EPA or an Indian tribe has demonstrated that a tribe has jurisdiction. In those areas of Indian country, the rule does not have tribal implications and will not impose substantial direct costs on tribal governments or preempt tribal law as specified by Executive Order 13175 (65 FR 67249, November 9, 2000).

List of Subjects in 40 CFR Part 52

Environmental protection, Air pollution control, Incorporation by

reference, Intergovernmental relations, Reporting and recordkeeping requirements, Sulfur oxides.

Air Plan Approval; MS; BART SIP and Regional Haze Progress Report

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule; reopening of public comment period.

SUMMARY: The Environmental Protection Agency (EPA) is reopening the comment period until October 5, 2020, for a notice of proposed rulemaking (NPRM) published in the **Federal Register** on August 4, 2020. In the August 4, 2020, NPRM, EPA proposed to approve, through parallel processing, a draft Mississippi State Implementation Plan (SIP) revision, submitted through a letter dated April 23, 2020, addressing best available retrofit technology (BART) determinations for 14 electric generating units (“draft BART SIP”). EPA proposed to approve the draft BART SIP and find that it corrects the deficiencies that led to the limited approval and limited disapproval of the State’s regional haze SIP; withdraw the limited disapproval of the regional haze SIP; and replace the prior limited approval with a full approval of the regional haze SIP as meeting all regional haze requirements of the Clean Air Act (CAA) for the first implementation period. In addition, EPA proposed to approve the State’s first periodic report describing progress towards reasonable progress goals (RPGs) established for regional haze and the associated determination that the State’s regional haze SIP is adequate to meet these RPGs for the first implementation period (“Progress Report”). The State submitted the Progress Report as a SIP revision by letter dated October 4, 2018. EPA is reopening the comment period based on Sierra Club’s request for visibility modeling files and for a 30-day extension of the comment period.

DATES: The comment period for the NPRM published August 4, 2020 (85 FR 47134), is reopened, and comments

¹⁶ 40 CFR 93.159(b).

¹⁷ 58 FR 3768, 3776 (January 11, 1993).

must be received on or before October 5, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R04–OAR–2019–0447, at <http://www.regulations.gov>. Follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.*, on the web, cloud, or other file sharing system). For additional submission methods, the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT: Michele Notarianni, Air Regulatory Management Section, Air Planning and Implementation Branch, Air and Radiation Division, U.S. Environmental Protection Agency, Region 4, 61 Forsyth Street SW, Atlanta, Georgia 30303–8960. Ms. Notarianni can be reached via telephone at (404) 562–9031 or electronic mail at notarianni.michele@epa.gov.

SUPPLEMENTARY INFORMATION: EPA published a proposed rulemaking on August 4, 2020 (85 FR 47134). EPA proposed to approve Mississippi’s draft BART SIP and find that it corrects deficiencies that led to a limited approval and limited disapproval of the State’s regional haze SIP; withdraw the limited disapproval of Mississippi’s regional haze SIP; and fully approve Mississippi’s regional haze SIP as meeting all regional haze requirements of the CAA for the first implementation period, replacing the prior limited approval. EPA also proposed to approve Mississippi’s October 4, 2018, regional haze Progress Report as meeting the applicable regional haze requirements set forth in 40 CFR 51.308(g) and to approve the State’s negative declaration under § 51.308(h).

EPA is reopening the comment period based on a request from Sierra Club for visibility modeling files related to the proposed rulemaking and for a 30-day

extension of the comment period until October 5, 2020. A copy of Sierra Club’s request is in the docket. After reviewing this request, EPA has decided to reopen the comment period until October 5, 2020.

Authority: 42 U.S.C. 7401 *et seq.*

Air Plan Approval; Illinois; Removal of Variance for Illinois Power Holdings and AmerenEnergy Medina Valley Cogen Facilities

AGENCY: Environmental Protection Agency (EPA).

ACTION: Proposed rule.

SUMMARY: The Environmental Protection Agency (EPA) is proposing to approve a revision to the Illinois State Implementation Plan (SIP) submitted on January 23, 2020, by the Illinois Environmental Protection Agency (IEPA). The revision removes the variance for coal-fired electrical generating units (EGUs) owned by the Illinois Power Holdings, LLC (IPH) and the AmerenEnergy Medina Valley Cogen, LLC (Medina Valley) from the Illinois SIP, and will reimpose tighter limits on all facilities currently in operation.

DATES: Comments must be received on or before October 19, 2020.

ADDRESSES: Submit your comments, identified by Docket ID No. EPA–R05–OAR–2020–0116 at <http://www.regulations.gov> or via email to blakley.pamela@epa.gov. For comments submitted at *Regulations.gov*, follow the online instructions for submitting comments. Once submitted, comments cannot be edited or removed from *Regulations.gov*. For either manner of submission, EPA may publish any comment received to its public docket. Do not submit electronically any information you consider to be Confidential Business Information (CBI) or other information whose disclosure is restricted by statute. Multimedia submissions (audio, video, etc.) must be accompanied by a written comment. The written comment is considered the official comment and should include

discussion of all points you wish to make. EPA will generally not consider comments or comment contents located outside of the primary submission (*i.e.* on the web, cloud, or other file sharing system). For the full EPA public comment policy, information about CBI or multimedia submissions, and general guidance on making effective comments, please visit <http://www2.epa.gov/dockets/commenting-epa-dockets>.

FOR FURTHER INFORMATION CONTACT:

Charles Hatten, Environmental Engineer, Control Strategies Section, Air Programs Branch (AR–18J), Environmental Protection Agency, Region 5, 77 West Jackson Boulevard, Chicago, Illinois 60604, (312) 886–6031, hatten.charles@epa.gov. The EPA Region 5 office is open from 8:30 a.m. to 4:30 p.m., Monday through Friday, excluding Federal holidays and facility closures due to COVID–19.

SUPPLEMENTARY INFORMATION:

Throughout this document whenever “we,” “us,” or “our” is used, we mean EPA.

I. What is the background for this action?

On November 21, 2013, the Illinois Pollution Control Board (Board) granted IPH and Medina Valley a variance (PCB 14–10) from the applicable requirements for EGUs in the Ameren MPS Group (MPS Group) of 35 Illinois Administrative Code (IAC) Section 225.233(e)(3)(C)(iii) for a period beginning January 1, 2015, through December 31, 2019, and for EGUs in the MPS Group from 35 IAC Section 225.233(e)(3)(C)(iv) for a period beginning January 1, 2017, through December 31, 2019, subject to certain conditions. The five IPH facilities subject to the variance included: Coffeen Energy Center (Montgomery County), Duck Creek Energy Center (Fulton County), E.D. Edwards Energy Center (Peoria County), Joppa Energy Center (Massac County), and Newton Energy Center (Jasper County). The two Medina Valley facilities subject to the variance were the Meredosia Energy Center (Morgan County) and the Hutsonville Energy Center (Crawford County).

The variance granted by the Board established an overall SO₂ annual emission rate of 0.35 pounds per million British Thermal Units (lbs/mmBtu) from January 1, 2015 through December 31, 2019. On December 21, 2015, EPA approved the variance granted to IPH
