

the proposed Final Judgment. For these reasons, the United States believes that nothing in the comment warrants a change to the proposed Final Judgment or supports a conclusion that the proposed Final Judgment is not in the public interest

**V. Conclusion**

After reviewing the public comment, the United States continues to believe that the proposed Final Judgment, as drafted, provides an effective and appropriate remedy for the antitrust violations alleged in the Complaint, and is therefore in the public interest. The United States will move this Court to enter the proposed Final Judgment after the comment and this response are published in the **Federal Register**.

A comment on the Dean Food—DFA Merger—It Should not happen

DFA is coming into control of the milk market—what has all the expansion did for the farmer? The farmer has got no major return but more cost. Dean food should be restricted and DFA broken up like Ma Bell became Baby Bells. The system needs to compete not be control(l)ed. DFA is the “milk mob”—there is legal actions in courts at present. No one should have more than 49% of a market—at places they are the only market. Interesting in the East less milk but yet one has dumping—what did they buy Deans for?
