RIN 0651–AD31

Setting and Adjusting Patent Fees During Fiscal Year 2020

AGENCY: United States Patent and Trademark Office, Department of Commerce.

ACTION: Final rule; correction.

SUMMARY: The United States Patent and Trademark Office (Office or USPTO) makes corrections to a final rule that set or adjusted patent fees that was published on August 3, 2020. This rule fixes typographical errors and makes other nonsubstantive changes to improve clarity in the regulations.

DATES: This correction is effective October 2, 2020.

FOR FURTHER INFORMATION CONTACT:

Brendan Hourigan, Director of the Office of Planning and Budget, by telephone at 571–272–8966; or Dianne Buie, Director, Forecasting and Analysis Division, by telephone at 571–272–6301.

SUPPLEMENTARY INFORMATION:

Rulemaking Considerations

A. Administrative Procedure Act: This rulemaking corrects typographical and format errors in a rulemaking setting and adjusting patent fees. The changes

in this rulemaking involve rules of agency practice and procedure and/or interpretive rules. *See Perez v. Mortg. Bankers Ass’n*, 135 S. Ct. 1199, 1204 (2015) (Interpretive rules “advise the public of the agency’s construction of the statutes and rules which it administers.” (citation and internal quotation marks omitted)); *Nat’l Org. of Veterans’ Advocates v. Sec’y of Veterans Affairs*, 260 F.3d 1365, 1375 (Fed. Cir. 2001) (rule that clarifies interpretation of a statute is interpretive); *Bachow Commc’ns Inc. v. FCC*, 237 F.3d 683, 690 (D.C. Cir. 2001) (Rules governing an application process are procedural under the Administrative Procedure Act.); *Inova Alexandria Hosp. v. Shalala*, 244 F.3d 342, 350 (4th Cir. 2001) (Rules for handling appeals were procedural where they did not change the substantive standard for reviewing claims.).

Accordingly, prior notice and opportunity for public comment for the changes in this rulemaking are not required pursuant to 5 U.S.C. 553(b) or (c), or any other law. *See Perez*, 135 S. Ct. at 1206 (Notice and comment procedures are required neither when an agency “issue[s] an initial interpretive rule” nor “when it amends or repeals that interpretive rule.”); *Cooper Techs. Co. v. Dudas*, 536 F.3d 1330, 1336–37 (Fed. Cir. 2008) (stating that 5 U.S.C. 553, and thus 35 U.S.C. 2(b)(2)(B), do not require notice and comment rulemaking for “interpretive rules, general statements of policy, or rules of agency organization, procedure, or practice” (quoting 5 U.S.C. 553(b)(A))).

The 30-day delay in effectiveness is not applicable because this rule is not a substantive rule, as the changes in this rule have no impact on the standard for reviewing patent applications. As discussed above, the changes in this rulemaking involve correcting typographic errors in the final rule published on August 3, 2020. These changes are administrative in nature and will have no substantive impact on the evaluation of a patent application. The purpose of a delay in effectiveness is to allow affected parties time to modify their behaviors, businesses, or practices to come into compliance with new regulations. This rule imposes no additional requirements on the affected entities. Therefore, the requirement for a 30-day delay in effectiveness is not applicable, and the rule is made effective on October 2, 2020.

B. Regulatory Flexibility Act: As prior notice and an opportunity for public comment are not required pursuant to 5 U.S.C. 553 or any other law, neither a Regulatory Flexibility Act analysis nor a

certification under the Regulatory Flexibility Act (5 U.S.C. 601 *et seq.*) is required. See 5 U.S.C. 603.

C. *Executive Order 12866 (Regulatory Planning and Review)*: This rulemaking has been determined to be not significant for purposes of Executive Order 12866 (Sept. 30, 1993).

D. *Executive Order 13771 (Reducing Regulation and Controlling Regulatory Costs)*: This rule is not an Executive Order 13771 regulatory action because this rule is not significant.

[EPA–R04–OAR–2016–0655; FRL–10014–35–Region 4]

Air Plan Approval; SC and TN: Minimum Reporting Requirements in SIPs

AGENCY: Environmental Protection Agency (EPA).

ACTION: Final rule.

SUMMARY: The Environmental Protection Agency (EPA) is finalizing approval of a portion of State Implementation Plan (SIP) revisions for South Carolina submitted by the South Carolina Department of Health and Environmental Control (SC DHEC) through letters dated August 8, 2014, and August 12, 2015, and a portion of a SIP revision for Tennessee submitted by the Tennessee Department of Environment and Conservation (TDEC) through a letter dated February 17, 2014. The South Carolina SIP revisions modify a provision that requires fossil fuel-fired steam generators having a heat input capacity of more than 250 million British thermal units (Btu) per hour (Btu/hr) to submit continuous opacity monitoring reports required by the SIP on a quarterly basis. This provision is modified to allow such reporting on a semiannual basis instead. The South Carolina SIP does not contain any other continuous opacity monitoring report requirements for the subject sources, and this rule revision has no impact on any federal reporting requirements. Specifically, the South Carolina SIP revisions do not override any other reporting requirements that might continue to require more frequent reporting. The Tennessee SIP revision adds a new provision that requires any
