

operated using a portal or gantry crane. A new WPF would be located east of the DD, servicing both the DD replacement and DD #2.

Alternative 5 would consist of an uncovered graving DD replacement, operated using a portal or gantry crane. A new WPF would be located west of the DD and would service only the DD replacement.

Environmental issues and resource areas to be examined in the EIS include, but are not limited to the following: Cultural Resources, Visual Resources, Public Health and Safety, Land Use, Socioeconomics, Environmental Justice, Soils, Water Quality, Topography and Geology, Air Quality, Terrestrial Biology, Marine Biology, Traffic, Marine Navigation, Noise, Utilities, and Hazardous Materials. Based on a preliminary evaluation of these resources, the Navy expects impacts on marine and cultural resources due to construction of the DD replacement and WPF. Additionally, temporary traffic impacts could result from construction activity. The EIS will also analyze measures that would avoid, minimize, or mitigate environmental effects.

Additionally, the Navy will conduct all coordination, consultation, and permitting activities required by the National Historic Preservation Act, the Endangered Species Act, the Magnuson-Stevens Fishery Conservation and Management Act, the Clean Water Act, the Coastal Zone Management Act, and other laws and regulations determined to be applicable to the project.

The Navy encourages federal, state, and local agencies, and interested persons to provide comments concerning the alternatives proposed for study and environmental issues for analysis in the EIS, as well as to identify specific environmental resources that the Navy should consider when developing the Draft EIS. The Navy will prepare the Draft EIS, including analysis of potential effects to those resources, which the Navy and the commenting public has identified. All comments received during the public scoping period will receive consideration during EIS preparation.

Written comments on the scope of the EIS or the project's potential to affect historic properties pursuant to Section 106 of the National Historic Preservation Act of 1966 can be mailed or submitted electronically via the virtual Open House. To receive consideration, comments submitted by mail must be postmarked no later than October 19, 2020. Comments may be mailed to the following address: Naval Facilities Engineering Command Pacific,

Attn: PHNSY DD/WPF EIS Project Manager, 258 Makalapa Drive, Suite 100, Joint Base Pearl Harbor-Hickam, HI 96860–3134.

Comments may also be submitted electronically through the EIS website at [www.PearlHarborDryDockEIS.org](http://www.PearlHarborDryDockEIS.org) or the virtual Open House website, online at [www.PearlHarborDryDockEIS.OpenHouse.org](http://www.PearlHarborDryDockEIS.OpenHouse.org). Comments must be posted by 11:59 p.m. HST on October 19, 2020.

Dated: September 15, 2020.
