**Removal of Colored Federal Airways Amber 7 (A–7), Green 11 (G–11), and Amendment of Amber 1 (A–1); Alaska**

**AGENCY:** Federal Aviation Administration (FAA), DOT.

**ACTION:** Final rule.

**SUMMARY:** This action removes two Colored Federal airways, A–7 and G–11, and amends one Colored Federal

airway, A–1 in Alaska. The modifications are necessary due to the planned decommissioning of the Campbell Lake Non-Directional Beacon (NDB) in Anchorage, AK, which provides navigation guidance for portions of the affected routes. The Campbell Lake NDB is to be decommissioned due to ongoing maintenance problems.

**DATES:** Effective date 0901 UTC, December 31, 2020. The Director of the Federal Register approves this incorporation by reference action under Title 1 Code of Federal Regulations part 51, subject to the annual revision of FAA Order 7400.11 and publication of conforming amendments.

**SUPPLEMENTARY INFORMATION:****Authority for This Rulemaking**

The FAA's authority to issue rules regarding aviation safety is found in Title 49 of the United States Code. Subtitle I, Section 106 describes the authority of the FAA Administrator. Subtitle VII, Aviation Programs, describes in more detail the scope of the agency's authority. This rulemaking is promulgated under the authority described in Subtitle VII, Part A, Subpart I, Section 40103. Under that section, the FAA is charged with prescribing regulations to assign the use of the airspace necessary to ensure the safety of aircraft and the efficient use of airspace. This regulation is within the scope of that authority as it modifies the air traffic service route structure in the National Airspace System as necessary to preserve the safe and efficient flow of air traffic.

**History**

The FAA published a notice of proposed rulemaking for Docket No. FAA–2020–0504 in the **Federal Register** (85 FR 35818; June 12, 2020) removing Colored Federal airways A–7, G–11 and amending A–1. Interested parties were invited to participate in this rulemaking effort by submitting written comments on the proposal. No comments were received.

Colored Federal airways are published in paragraph 6009 of FAA Order 7400.11E dated July 21, 2020, and effective September 15, 2020, which is incorporated by reference in 14 CFR 71.1. The Colored Federal airway listed in this document will be subsequently published in the Order.

**Differences From the NPRM**

In the NPRM amendment section addressing the proposed removal of A–7, the text was stated in error as G–7. This rule corrects that editorial error in the amendment section.

**Availability and Summary of Documents for Incorporation by Reference**

This document amends FAA Order 7400.11E, Airspace Designations and Reporting Points, dated July 21, 2020, and effective September 15, 2020. FAA Order 7400.11E is publicly available as listed in the **ADDRESSES** section of this document. FAA Order 7400.11E lists Class A, B, C, D, and E airspace areas, air traffic service routes, and reporting points.

**The Rule**

The FAA is amending Title 14 Code of Federal Regulations (14 CFR) part 71 by modifying Colored Federal airways A–7, G–11, and A–1. The Colored Airway actions are described below.

**A–7:** A–7 currently extends between the Campbell Lake, AK, NDB and the Mineral Creek, AK, NDB. This action removes the entire route.

**G–11:** G–11 currently extends between the Campbell Lake, AK, NDB and the Nabesna, AK, NDB. This action removes the entire route.

**A–1:** A–1 currently extends from the Abbotsford, BC, Canada, NDB and the Fort Davis, AK NDB. The FAA action removes the segment between the Orca Bay, AK, NDB and the Takotna River, AK, NDB. The unaffected portions of the existing route remain as charted. The portion within Canada is excluded.

FAA Order 7400.11, Airspace Designations and Reporting Points, is published yearly and effective on September 15.

## Regulatory Notices and Analyses

The FAA has determined that this regulation only involves an established body of technical regulations for which frequent and routine amendments are necessary to keep them operationally current. It, therefore: (1) Is not a “significant regulatory action” under Executive Order 12866; (2) is not a “significant rule” under Department of Transportation (DOT) Regulatory Policies and Procedures (44 FR 11034; February 26, 1979); and (3) does not warrant preparation of a regulatory evaluation as the anticipated impact is so minimal. Since this is a routine matter that only affects air traffic procedures and air navigation, it is certified that this rule, when promulgated, does not have a significant economic impact on a substantial number of small entities under the criteria of the Regulatory Flexibility Act.

## Environmental Review

The FAA has determined that this airspace action of removing Colored Federal airways A–7, G–11, and amending Colored Federal airway A–1 qualifies for categorical exclusion under the National Environmental Policy Act and its implementing regulations at 40 CFR part 1500, and in accordance with FAA Order 1050.1F, Environmental Impacts: Policies and Procedures, paragraph 5–6.5a, which categorically excludes from further environmental impact review rulemaking actions that designate or modify classes of airspace areas, airways, routes, and reporting points (see 14 CFR part 71, Designation of Class A, B, C, D, and E Airspace Areas; Air Traffic Service Routes; and Reporting Points). As such, this action is not expected to result in any potentially significant environmental impacts. In accordance with FAA Order 1050.1F, paragraph 5–2 regarding Extraordinary Circumstances, the FAA has reviewed this action for factors and circumstances in which a normally categorically excluded action may have a significant environmental impact requiring further analysis. The FAA has determined that no extraordinary circumstances exist that warrant preparation of an environmental assessment or environmental impact study.

### Background

On March 24, 2020, DHS published notice of the Secretary’s decision to temporarily limit the travel of individuals from Mexico into the United States at land ports of entry along the United States-Mexico border to “essential travel,” as further defined in that document.<sup>1</sup> The document described the developing circumstances regarding the COVID–19 pandemic and stated that, given the outbreak and continued transmission and spread of the virus associated with COVID–19 within the United States and globally, the Secretary had determined that the risk of continued transmission and spread of the virus associated with COVID–19 between the United States and Mexico posed a “specific threat to human life or national interests.” The Secretary later published a series of notifications continuing such limitations on travel until 11:59 p.m. EDT on September 21, 2020.<sup>2</sup>

The Secretary has continued to monitor and respond to the COVID–19 pandemic. As of the week of September 13, there are over 28.6 million confirmed cases globally, with over
