

the MMPA for specified activities other than military readiness activities. The MMPA does not define small numbers and so, in practice, where estimated numbers are available, NMFS compares the number of individuals taken to the most appropriate estimation of abundance of the relevant species or stock in our determination of whether an authorization is limited to small numbers of marine mammals. Additionally, other qualitative factors may be considered in the analysis, such as the temporal or spatial scale of the activities.

The estimated take is below one third of the population for all marine mammals (Table 8).

Based on the analysis contained herein of the proposed activity (including the prescribed mitigation and monitoring measures) and the anticipated take of marine mammals, NMFS finds that small numbers of marine mammals will be taken relative to the population size of the affected species or stocks.

Unmitigable Adverse Impact Analysis and Determination

There are no relevant subsistence uses of the affected marine mammal stocks or species implicated by this action. Therefore, NMFS has determined that the total taking of affected species or stocks would not have an unmitigable adverse impact on the availability of such species or stocks for taking for subsistence purposes.

Endangered Species Act

Section 7(a)(2) of the Endangered Species Act of 1973 (ESA: 16 U.S.C. 1531 *et seq.*) requires that each Federal agency insure that any action it authorizes, funds, or carries out is not likely to jeopardize the continued existence of any endangered or threatened species or result in the destruction or adverse modification of designated critical habitat. To ensure ESA compliance for the issuance of IHAs, NMFS consults internally, in this case with the West Coast Regional Office, whenever we propose to authorize take for endangered or threatened species.

The only species listed under the ESA with the potential to be present in the action area is the Mexico Distinct Population Segment (DPS) of humpback whales. The effects of this Federal action were adequately analyzed in NMFS' Biological Opinion for the Seattle Multimodal Project at Colman Dock, Seattle, Washington, dated October 1, 2018, which concluded that issuance of an IHA would not jeopardize the continued existence of

any endangered or threatened species or destroy or adversely modify any designated critical habitat. NMFS West Coast Region has confirmed the Incidental Take Statement (ITS) issued in 2017 is applicable for the IHA. That ITS exempts the take of seven humpback whales from the Mexico DPS.

National Environmental Policy Act

To comply with the National Environmental Policy Act of 1969 (NEPA; 42 U.S.C. 4321 *et seq.*) and NOAA Administrative Order (NAO) 216-6A, NMFS must review our action (*i.e.*, the issuance of an IHA) with respect to potential impacts on the human environment.

This action is consistent with categories of activities identified in Categorical Exclusion B4 (IHAs with no anticipated serious injury or mortality) of the Companion Manual for NOAA Administrative Order 216-6A, which do not individually or cumulatively have the potential for significant impacts on the quality of the human environment and for which we have not identified any extraordinary circumstances that would preclude this categorical exclusion. Accordingly, NMFS has determined that the issuance of the IHA qualifies to be categorically excluded from further NEPA review.

Authorization

As a result of these determinations, NMFS has issued an IHA to the WSDOT to conduct Seattle Multimodal Project at Colman Dock Year 4 in Washington State, between September 10, 2020, and September 9, 2021, provided the previously prescribed mitigation, monitoring, and reporting requirements are incorporated.

Dated: September 15, 2020.

Department of the Army

Environmental Impact Statement for Army Training Land Retention at Pōhakuloa Training Area in Hawai'i; Correction

AGENCY: Department of the Army; Defense (DOD).

ACTION: Notice of intent; correction.

SUMMARY: The Department of the Army (Army) published a document in the **Federal Register** of September 4, 2020, concerning its continuing intent to prepare an Environmental Impact Statement to address the Army's proposed retention of up to approximately 23,000 acres of land currently leased to the Army by the state of Hawai'i ("State-owned land") at Pōhakuloa Training Area (PTA) on the island of Hawai'i. The document referenced two in-person comment stations previously associated with the Virtual Scoping Open House to be held Wednesday, September 23, 2020. Now, however, because of the national and local orders and proclamations in response to the coronavirus (COVID-19) pandemic in the United States, including: The County of Hawai'i Mayor's COVID-19 Emergency Rule No. 11 dated August 25, 2020, and the Office of the Governor, State of Hawaii Office Twelfth Proclamation Related to the COVID-19 Emergency dated August 20, 2020, the Army is canceling the in-person comment stations. Only the in-person comment stations will be cancelled; the EIS Scoping Virtual Open House will be held as planned.

FOR FURTHER INFORMATION CONTACT: Mr. Michael Donnelly, PTA Public Affairs Officer, at michael.o.donnelly.civ@mail.mil or (808) 969-2411.

SUPPLEMENTARY INFORMATION:

Correction

In the **Federal Register** of September 4, 2020, in FR Doc. 2020-19620, on page 55263, in the third column, correct the **SUPPLEMENTARY INFORMATION** caption to read:

SUPPLEMENTARY INFORMATION: PTA has been used for training as early

as 1938, but was not used routinely until 1943. PTA was formally established in 1956 through a maneuver agreement granted by the Territory of Hawai'i. In 1964, the State granted a 65-year lease of approximately 23,000 acres of land to the Army for military purposes. The lease expires on August 16, 2029. The 23,000 acres of State-owned land contain utilities, critical infrastructure, maneuver land, and key training facilities, some of which are not available elsewhere in Hawai'i. The land also provides access to approximately 110,000 acres of adjacent U.S.

Government-owned land at PTA. PTA encompasses approximately 132,000 acres of land used for training military personnel for combat. It is the only U.S. training area in the Pacific region where training units can complete all mission essential tasks, and the only U.S. training facility in the Pacific region that can accommodate larger than company-sized units for livefire and maneuver exercises. The U.S. Army Hawaii (USARHAW) and other U.S. military units that train at PTA include the 25th Infantry Division, U.S. Marine Corps, U.S. Navy, U.S. Air Force, Hawaii National Guard, and U.S. Army Reserve. The Army's retention of State-owned land within PTA is needed to enable USARHAW to continue to conduct military training to meet its current and future training requirements. Retention of State-owned land is needed to allow access between major parcels of U.S. Government-owned land at PTA, retain substantial Army infrastructure investments, allow for future facility and infrastructure modernization, preserve limited maneuver area, provide austere environment training, and maximize use of the impact area in support of USARHAW-coordinated training. To understand the environmental consequences of the decision to be made, the EIS will evaluate the potential direct, indirect, and cumulative impacts of a range of reasonable alternatives that meet the purpose of, and need for, the Proposed Action. Alternatives to be considered, including the no action alternative, are (1) Full Retention, (2) Modified Retention, and (3) Minimum Retention and Access. Other reasonable alternatives raised during the scoping process and capable of meeting the project purpose and need will be considered for evaluation in the EIS. Native Hawaiian organizations; Federal, state, and local agencies; and the public are invited to be involved in the scoping process for the preparation of this EIS by participating in a scoping meeting and/or submitting written comments.
