II. Legal Basis
FMCSA has authority under 49 U.S.C. 31136(e) and 31315 to grant exemptions from certain parts of the Federal Motor Carrier Safety Regulations. FMCSA must publish a notice of each exemption request in the Federal Register (49 CFR 381.315(a)). The Agency must provide the public an opportunity to inspect the information relevant to the application, including any safety analyses that have been conducted. The Agency must also provide an opportunity for public comment on the request.

The Agency reviews the safety analyses and the public comments, and determines whether granting the exemption would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by the current regulation (49 CFR 381.305).

The decision of the Agency must be published in the Federal Register (49 CFR 381.315(b)) with the reason for the grant or denial, and, if granted, the specific person or class of persons receiving the exemption, and the regulatory provision or provisions from which exemption is granted. The notice must also specify the effective period of the exemption (up to 5 years), and explain the terms and conditions of the exemption. The exemption may be renewed (49 CFR 381.300(b)).

III. Background
The Entry-Level Driver Training (ELDT) final rule was adopted pursuant to 49 U.S.C. 31305(c). The rule is based in part on consensus recommendations from the Agency’s ELDT Advisory Committee, a negotiated rulemaking committee. The rule enhances the safety of CMV operations on our Nation’s highways by establishing a minimum standard for ELDT and increasing the number of drivers who receive ELDT. The rule reissues 49 CFR part 380, Special Training Requirements, to include, among other things, driver training instructor qualifications. Under 49 CFR 380.713 a driver training instructor must have two years’ experience and have held a commercial driver’s license (CDL) for two years, as set forth in the definitions of “behind-the-wheel (BTW) instructor” and “theory instructor;” and (2) the requirement in 49 CFR 380.703(a)(7) to register each training location in order to obtain a unique Training Provider Registry (TPR) number applicable to that location.

The Agency received 112 comments, including 58 supporting the requested exemptions and 51 opposing them. Three other commenters had no position either for or against the application and provided no substantive comments.

On December 9, 2019, the Agency denied the UPS exemption request because the application did not provide an analysis of the safety impacts the requested exemptions may cause, as required by 49 CFR 381.310(c)(4), and did not explain how the exemptions would likely achieve a level of safety equivalent to, or greater than, the level that would be achieved by complying with the current regulations, as required by 49 CFR 381.310(c)(5).

IV. Request for Reconsideration of Agency Decision
On July 1, 2020, UPS requested that FMCSA reconsider its denial of the exemption from 49 CFR 380.713. UPS believes that its current process of preparing driver trainers exceeds any skill set gained merely by operating a tractor-trailer for two years. The company also believes that a two-year experience requirement doesn’t automatically equate to success as a CMV driver trainer. UPS has provided the Agency with updated information since the original denial illustrating that many of their locations have experienced turnover issues with driver trainers. UPS stated that it has had to hire 100 candidates to attempt to net the 50 trainer positions necessary across the U.S. Of the 100 hired, UPS has been able to retain only 38 trainers for the reasons explained in the request for reconsideration. A copy of the UPS application is in the docket listed at the beginning of the this notice.

V. Request for Comments
In accordance with 49 U.S.C. 31315(b)(6), FMCSA requests public comment from all interested persons on UPS’ request for reconsideration of its application for an exemption. All comments received before the close of business on the comment closing date indicated at the beginning of this notice will be considered and will be available for examination in the docket at the location under the ADDRESSES section of this notice. Comments received after the comment closing date will be filed in the public docket and will be considered to the extent practicable. In addition to late comments, FMCSA will also continue to file, in the public docket, relevant information that becomes available after the comment closing date. Interested persons should continue to examine the public docket for new material.

SUPPLEMENTARY INFORMATION:

I. Public Participation

A. Submitting Comments

If you submit a comment, please include the docket number for this notice (Docket No. FMCSA–2020–0027), indicate the specific section of this document to which each comment applies, and provide a reason for each suggestion or recommendation. You may submit comments and material online or by fax, mail, or hand delivery, but please use only one of these means. FMCSA recommends that you include your name and a mailing address, an email address, or a phone number in the body of your document so that FMCSA can contact you if there are questions regarding your submission.

To submit your comment online, go to http://www.regulations.gov/docket?D=FMCSA–2020–0027. Click on the “Comment Now!” button and type your comment into the text box on the following screen. Choose whether you are submitting your comment as an individual or on behalf of a third party and then submit.

If you submit your comments by mail or hand delivery, submit them in an unbound format, no larger than 8½ by 11 inches, suitable for copying and electronic filing. If you submit comments by mail and would like to know that they reached the facility, please enclose a stamped, self-addressed postcard or envelope. FMCSA will consider all comments and material received during the comment period.

B. Viewing Documents and Comments

To view comments, as well as any documents mentioned in this notice as being available in the docket, go to http://www.regulations.gov/docket?D=FMCSA–2020–0027 and choose the document to review. If you do not have access to the internet, you may view the docket online by visiting Docket Operations in Room W12–140 on the ground floor of the DOT West Building, 1200 New Jersey Avenue SE, Washington, DC 20590, between 9 a.m. and 5 p.m., ET, Monday through Friday, except Federal holidays. To be sure someone is there to help you, please call (202) 366–9317 or (202) 366–9826 before visiting Docket Operations.

C. Privacy Act

In accordance with 5 U.S.C. 553(c), DOT solicits comments from the public to better inform its rulemaking process. DOT posts these comments, without edit, including any personal information the commenter provides, to www.regulations.gov, as described in the system of records notice (DOT/ALL–14 FDMS), which can be reviewed at www.transportation.gov/privacy.

II. Background

Under 49 U.S.C. 31136(e) and 31315(b), FMCSA may grant an exemption from the FMCSRs for no longer than a 5-year period if it finds such exemption would likely achieve a level of safety that is equivalent to, or greater than, the level that would be achieved absent such exemption. The statute also allows the Agency to renew exemptions at the end of the 5-year period. FMCSA grants medical exemptions from the FMCSRs for a 2-year period to align with the maximum duration of a driver’s medical certification.

The 21 individuals listed in this notice have requested an exemption from the hearing requirement in 49 CFR 391.41(b)(11). Accordingly, the Agency will evaluate the qualifications of each applicant to determine whether granting the exemption will achieve the required level of safety mandated by statute.

The physical qualification standard for drivers regarding hearing found in § 391.41(b)(11) states that a person is physically qualified to drive a CMV if that person first perceives a forced whispered voice in the better ear at not less than 5 feet with or without the use of a hearing aid or, if tested by use of an audiometric device, does not have an average hearing loss in the better ear greater than 40 decibels at 500 Hz, 1,000 Hz, and 2,000 Hz with or without a hearing aid when the audiometric device is calibrated to American National Standard (formerly ASA Standard) Z24.5—1951.

This standard was adopted in 1970 and was revised in 1971 to allow drivers to be qualified under this standard while wearing a hearing aid, 35 FR 6458, 6463 (April 22, 1970) and 36 FR 12857 (July 3, 1971). On February 1, 2013, FMCSA announced in a Notice of Final Disposition titled, “Qualification of Drivers; Application for Exemptions; National Association of the Deaf,” (78 FR 7479), its decision to grant requests from 40 individuals for exemptions from the Agency’s physical qualification standard concerning hearing for interstate CMV drivers. Since that time the Agency has published additional notices granting requests from hard of hearing and deaf individuals for exemptions from the Agency’s physical qualification standard concerning hearing for interstate CMV drivers.
