

business size standard for NAICS codes 541715 and 611420 will be considered under this request for comments. Firms that do not fit the NAICS code or size standard but wish to comment may do so via the Commission's general request for public comment, 85 FR 32055, <https://www.federalregister.gov/d/2020-11453>, which solicits feedback on the various other efforts associated with our mandate.

Topic Areas for Comment and Recommendations

The following list of topics represents various areas about which the Commission seeks comments. It is not intended to limit topics that may be addressed by respondents, but rather focus attention on key areas the Commission has identified as relevant to catalyzing AI innovation, expanding the national security innovation base, and making it easier for firms to do business with the federal government. While the Commission welcomes comments on obstacles and barriers in the current system, it will prioritize inputs relative to these topics that make specific recommendations in any or all of the following areas: Statute, regulation, policy, budget, organization, and culture.

Specific Questions To Address

- What are the challenges or obstacles you face in seeking to do business with the Federal Government, to include scaling successful solutions? What changes could be made to reduce or remove those challenges or obstacles?
- How do you weigh the tradeoffs between accepting financing from U.S. firms versus foreign firms? What role could the U.S. Government play in connecting U.S. firms with trusted investors in the United States and allied countries?
- When is the Federal Government a compelling customer? When is it not? What steps could the Federal Government take to become a more compelling customer?
- How could the government better communicate (1) national security challenges to industry and (2) opportunities for industry to demonstrate and iterate potential solutions? How could the government structure engagements with industry to foster innovative and unexpected solutions?
- If your firm were to initiate or expand its national security or national interest work, what large capital investments over the next 24 months would your firm consider making in the United States? How much financial support and in what form (e.g., non-

dilutive capital, loan guarantees, equity stakes, or other financial instruments) would be required from the U.S. government to undertake those investments?

- What would you hope to gain from temporary talent exchanges between the Federal Government and industry? What are the challenges or obstacles in conducting such exchanges and how would you recommend they be overcome?
- How can industry and the Federal Government better collaborate through all stages of product development to safeguard against bias in AI systems?
- How can the Federal Government incentivize responsible AI development through acquisition?¹

NATIONAL SCIENCE FOUNDATION

Agency Information Collection Activities: Comment Request; Graduate Research Fellowships Program

AGENCY: National Science Foundation.

ACTION: Submission for OMB Review; Comment Request.

SUMMARY: The National Science Foundation (NSF) has submitted the following information collection requirement to OMB for review and clearance under the Paperwork Reduction Act of 1995. This is the second notice for public comment; the first was published in the **Federal Register**, and no comments were received. NSF is forwarding the proposed submission to the Office of Management and Budget (OMB) for clearance simultaneously with the publication of this second notice.

DATES: Written comments and recommendations for the proposed information collection should be sent within 30 days of publication of this notice to www.reginfo.gov/public/do/PRAMain. Find this particular

information collection by selecting "Currently under 30-day Review—Open for Public Comments" or by using the search function.

FOR FURTHER INFORMATION CONTACT: Suzanne H. Plimpton, Reports Clearance Officer, National Science Foundation, 2415 Eisenhower Avenue, Alexandria, VA 22314, or send email to splimpto@nsf.gov. Individuals who use a telecommunications device for the deaf (TDD) may call the Federal Information Relay Service (FIRS) at 1-800-877-8339, which is accessible 24 hours a day, 7 days a week, 365 days a year (including federal holidays).

Copies of the submission may be obtained by calling 703-292-7556.

SUPPLEMENTARY INFORMATION: NSF may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information.

Title of Collection: Graduate Research Fellowship Program.

OMB Number: 3145-0023.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: Section 10 of the National Science Foundation Act of 1950 (42 U.S.C. 1861 *et seq.*), as amended, states that "The Foundation is authorized to award, within the limits of funds made available * * * scholarships and graduate fellowships for scientific study or scientific work in the mathematical, physical, biological, engineering, social, and other sciences at accredited U.S. institutions selected by the recipient of such aid, for stated periods of time."

The Graduate Research Fellowship Program has two goals:

- To select, recognize, and financially support, early in their careers, individuals with the demonstrated potential to be high achieving scientists and engineers;
- To broaden participation in science and engineering of underrepresented groups, including women, minorities, persons with disabilities, and veterans.

The list of GRFP Awardees recognized by the Foundation may be found via FastLane through the NSF website: <https://www.fastlane.nsf.gov/grfp/AwardeeList.do>

method=loadAwardeeList. The GRF Program is described in the Solicitation available at: https://www.nsf.gov/publications/pub_summ.jsp?ods_key=nsf19590&org=NSF

Estimate of Burden: This is an annual application program providing three

years of support to individuals, usable over a five-year fellowship period. The application deadlines are in late October. It is estimated that each submission is averaged to be 12 hours per respondent, which includes three references (on average) for each application. It is estimated that it takes two hours per reference for each applicant.

Respondents: Individuals.

Estimated Number of Responses: 14,000.

Estimated Total Annual Burden on Respondents: 168,000 hours.

Frequency of Responses: Annually.

Comments: Comments are invited on (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Agency, including whether the information shall have practical utility; (b) the accuracy of the Agency's estimate of the burden of the proposed collection of information; (c) ways to enhance the quality, utility, and clarity of the information on respondents, including through the use of automated collection techniques or other forms of information technology; and (d) ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Dated: September 18, 2020.
