

safety communications program. In an effort to resolve major communications issues identified during the September 11, 2001, terrorist attacks, SAFECOM was created as a Presidential E-Government Initiative to improve interoperability, allowing emergency responders to communicate more effectively before, during, and after emergencies and disasters.

Through collaboration with emergency responders and elected officials across all levels of government, SAFECOM works to improve emergency response providers' inter-jurisdictional and interdisciplinary emergency communications interoperability across local, regional, tribal, State, territorial, international borders, and with Federal government entities. SAFECOM works with existing Federal communications programs and key emergency response stakeholders to address the need to develop better technologies and processes for the coordination of existing communications systems and future networks.

The SAFECOM Membership Questionnaire is an internal SAFECOM document disseminated only to active SAFECOM Members. SAFECOM uses the Questionnaire to identify membership gaps, obtain updated information on SAFECOM's membership body (e.g., public safety communications experience, accolades, acquired skills/certifications, etc.), update SAFECOM marketing materials, and to assist SAFECOM when responding General Accounting Office (GAO) inquiries.

The DHS/CISA/ECD will disseminate the SAFECOM Membership Questionnaire to active SAFECOM Members as a fillable PDF document. SAFECOM intends to use the Questionnaire to examine its Membership body, identify membership gaps, obtain updated information on SAFECOM's membership body (e.g., public safety communications experience, accolades, acquired skills/certifications, etc.), update SAFECOM marketing materials, and to assist SAFECOM when responding General Accounting Office (GAO) inquiries.

The Questionnaire will encompass eight interdependent sections of questions. The SAFECOM Internal Membership section requests each Member to provide their name, state of residence, and the number of hours per month he/she contributes SAFECOM led initiatives (e.g., conference calls and deliverable development). SAFECOM consists of public safety association representatives and at-large members. The Association Representative Information section pertains to public

safety associations represented in SAFECOM. Association Representatives serving in SAFECOM are asked to provide the name of their Association, approximate Association size, Association contact, and addition Association point-of-contact (POC) information. At-large members are instructed to skip to the next section. Public Safety Service section will focus on questions related to each Member's public safety and first responder career. Members are asked to designate their current public safety status (i.e., active, retired, other), to identify their public safety discipline(s), to provide level of government for current employment (e.g., state, local, tribal, territorial, federal), to provide years of service, to list current agency and agency's contact information, to provide a brief description on their current role and responsibilities, to select the population range that best describes the population of your current organization's jurisdiction serviced, to indicate the number of public safety personnel employed at your current organization, to indicate the number of responses your current organization responds to each year, and if current position entails collaborating with Tribal Nations. The Volunteer Experience section asks Members to provide details on their volunteer experience. The Public Safety Experience section asks Members to identify the public safety events he/she responded to throughout their career, and to identify the communications technology he/she has used. The Education section focuses on the education (e.g., which is an optional question), proficiencies, and professional certifications. External Conference Attendance section focuses on Member's experience at public safety conferences as well as their interest in representing SAFECOM in the future at a conference. The final section focuses on Members public safety usage.
